Dr. Jayn's Expectorant.

E considerit a duty to call public attention to this admitable preparation for Pulmonary Discenses—especially Goughs. Colds, Consumption, Spittin Blood, Ashma. Brouchial Affections, Whooping Cough, &c. It is used and very highly approved by persons of the first respectability, but we feel confident in saying that a trial of its efficacy will be its best recommenda-

Dr. Jonathan Going, President of Granville College. Ohio, (late of New York) in a letter to Dr. Jayne, dated . New York, December. 1836, says—"He was laboring under a severe cold, cough and hoarsness, and that his difficulty of breathing was so great that he left himself in immunent danger of immediate suffoction, but was perfectly cured by using this Expectorant." Mrs. Delks. of Salem. New Jersey, was cired of Asthma, of twenty vears standing. by using two bottles of this medicine. Mrs. Ward, also of Salem, was cured of the same complaint by one bottle. A young ledy, also of Salem, who was believed by her friends to be far gone with consumption was perfectly restored by three bottles. Dr. Hamilton, of St. James, South Carolina, was greatly fundamental affected by a cough, hoursness, and soreness of the lungs, and on using a buttle of this medicine found pag-

manent relicf.

Mr. Nicholas Harris, sen., one of the Deacons of the first Bapust Church, in Philadelphia has been perfectly cured by it—after having suffered for SIXTY YEARS with Coughs, Asthma, and-spilling of Blood, which no remedy before could relieve.

The Rev. C. C. P. Crasby, writes as follows:

NEW YORK, June 15, 1839.

To DR. JAYNE - Dear Sir: I have made use of you To Dn. Javne.—Dent Sir: I have made use of your Expectorant, personally and in m. family, for the last six years with great benefit. Indeed I may consider my life prolonged by the use of this valuable medicine, under the blessing of God. for several years. I may say almost as much in the case of my wife, and also of the Rev. Mr. Tinson, of the Island of Jamaica. For all cases of cough, inflammation of the chest, lungs, and throat, I do most inhesitatingly recommend this as the best medicine I have ever tried. My carnest wish is that others afflicted as I have been, may experience the same relief, which I am persuaded they will, by using your Expectorant.

The following certificate is from a practising PHY-SICIAN and a much respected Clergyman of the Meth-odist society, dated Modest Town, Vu. August 2, 1838. Dr. Javue-Dear Sir: I have been using your Expectorant extensively, in my practice for the last three months and for all attacks of Colds. Coughs, Inflamaweakness of the Breast, it is decidedly the vest medicine I have ever tried,

SOOTHING SYRUP,

To Mothers and Nurses. THE parange of the teeth through the gums produces HE passage of the teeth through the gums produces troublesome and dangerous syniptoms! It is known by mothers that there is a great irritation; in the mouth and gums during this process. The gums swell, the secretion of the spliva is increased, the child is seized with frequent and sucden this of crying, watching, starting in its sleep, and spasms in petuliar past; the child shricko with extreme violence, and thinsis its fingers into its mouth. If these precursary symptoms are not speedly alleviated, spasmodic convulsions universally supervenus and soon cause the dissolution of the infant. If mothers who have their intle babes afflicted with these distressing symptoms, would apply the celebrated American Soothing Syrup, which has preserved hindreds of infants when thought past recovery, from being suddenly attack-

ing symptoms, would apply the celebrated American Soothing Syrup, which has preserved hundreds of infamis when thought past recovery, from being suddenly attacked with that fatal malady convulsions.

This intallible remedy has preserved hundreds whom thought past recovery, from convilsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficuences, and so pleasant, that no child will refuse to led its gums be jubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one, bottle of the Syrup should be used on the gims to open the pores. Parents should never be without the Syrup in the nurser; where there are young children, for it a child wakes in the night with the path in the gums, the Syrup ammediately gives ease, by opening the pores and healing the gums; thereby, prevening Convulsions, Fevers, &c.
