65 per cent was Anthracite 14 per cent Richmond.

34 per cent English, and 30 per cent from Nova Spoliz.

The proximity of the Nova Scotia mines to our Eastern States, the immense gapital of the British Mining Association (the present holders of the original grant to the Duke of York, with the almost unlimited means which that Ascociation are disposed to employ in forcing this total into use in the United States, ought to excite the watchful attention of those interested in Coal mines in the United States. Their efforts will be ereatly aided by the rapid reduction of duties on this article under the Compromise Act, and the imagerise advantages they possess over our own Coal owners in being permit-ted to employ either British on American vessels to

Mexico and Texas. The New Orleans Bulletin ward, but no gliarges. of the 23d inst. says :- The arrival from Texas yesterday, confirms the report of the fall of Matamoras into the hands of the Federalists? There seems tobe no just ground to doubt the truth of the rumor. It is expected that the victors will soon be besieged in their turn by a superior farce, marching against them from Mexico. As to their ability to offer a successful resistance, conflicting opinion prevail. The Texian Government appdars resolved to maintain its neutrality in the contest. This will not prevent, however, a number of adventurers from theking to Matamoras to jun their countrymen there in the crusade against Mexice. With a sufficient number of American troops to impart tirmness to the Federalist garrison, it is thought the place might stan rout against the army the Government is sending. The 7 deep, with a back building of 21 feet by 27 feet greatest danger to be apprenended is from the treachery of the Mexicans. They once before betrayed - their American allies, who joined them in the struggle to throw of the Spanish voke?
