

men, after having been away from the living day, during which the wife has toiled at her duties...

the finest wives, the sweetest children, and the prettiest girls in all America, and if this catalogue cannot entice a visit from our friends, why then our hills of iron have no more attraction...

Look, ye husbands, a moment, and remember what your wife was when you took her, not from compulsion, but from your own choice...

We shall at an early period collect the significance of some of the more common flowers and plants from various sources...

Presence of Mind.—An interesting letter has been published in the Boston Courier, by J. H. Buckingham, Jr., son of its editor...

The Lynch pins were taken from a number of Whig wagons at the Log Cabin racing at Providence, Luzerne Co by the loco loco lofers...

Some of these "lofers" are doubtless descended from those British Tories, who would willingly have taken the Lynch pins from the American artillery...

But the Intelligence is disinclined to concur with Mr. Farquhar, in the opinion that iron will be made most profitably in the Coal region...

More praise than other good lines, For thus I've seen thy worth expand, From early childhood's laughing hours...

Where shall we locate the Iron Business?

Our friend Best, of the Danville Intelligence, has worked himself into quite a fever of excitement, as to the propriety of the Iron trade...

The Intelligence, wishes to know, if the location of both the Coal and Iron is the spot for erecting furnaces, why the Messrs. Pattersons have commenced operations in Columbia Co...

But the Intelligence is disinclined to concur with Mr. Farquhar, in the opinion that iron will be made most profitably in the Coal region...

at this time, that we exclude the Pinegrove region, because we are not sufficiently conversant with the location of the coal and ore there...

Table with columns for location (DANVILLE, POTTSVILLE) and price (tens of coal, tons of ore, Limestone) with corresponding costs.

This calculation for our region is based on the supposition that a person purchases his coal and ore. But it were to own a tract and erect works on the land...

That these estimates are correct, we are confident, and will guarantee to any person desirous of erecting works here...

STANZAS TO MISS E. M., On the receipt of a beautiful bouquet. Oh what tender thoughts, beneath These silent flowers are lying...

Another Slander nailed to the counter!—The following letter from Judge Burnett to Gen. Wm. Southgate, is conclusive proof that Gen. Harrison was at all times a consistent Democrat...

My dear Sir, I remark, in reply to your letter of this morning, that during the contest between Mr. Jefferson and the elder Adams, Gen. Harrison and myself were residing in the North Western Territory...

laborers on the Schuylkill.—Among the many resolutions passed at the recent meeting in Philadelphia, under the guidance of Dallas, Page, Wash, &c.

Dr. Morrison, the Hygean Pill inventor, died in Paris on the 13th May.

MURDER OF LORD WILLIAM RUSSELL. On Tuesday Morning, May 5th, the murder of a nobleman of distinguished family, in the very heart of London...

REMAINS OF NAPOLEON. We have Paris dates to the 13th. They are wholly devoted to enthusiastic congratulations upon the idea that the ashes of Napoleon are to be transported to France...

WHITE-SLAVERY—LOCO FOCO TREATMENT OF FOREIGNERS. The Locofocers are unwilling that either natives or foreigners should enjoy the right and freedom of thought and action...

When will Spic payments be resumed?—Four millions of dollars are to be paid into the State Treasury by the U. S. Bank, and most of it must be in specie to pay foreign debts...

FOR THE MINER'S JOURNAL. HOPE. BY ALFRED HASWELL. Oh for that sunny hour again, When fortune's smile was mine;

FOR THE MINER'S JOURNAL. Mr. FORTA.—I was pleased to see as I did by your last Journal, that you had set apart a portion of your valuable paper for the holy cause of Temperance reform...

FOR THE MINER'S JOURNAL. Now, every one acquainted with the coal business, is aware, that when every thing is taken into consideration, the cost of mining coal in every location, cannot materially differ; and as the Danville furnaces must be supplied from Shamokin, the Wilkesbarre furnaces as well, the extra cost of transportation must be added to the first cost of mining...

POTSVILLE. Saturday Morning, June 13.

REMITTANCES BY MAIL. A postmaster may envelope a letter to the publisher of a newspaper, to pay the subscription of a third person, and frank the letter, if written by himself...

Some of our subscribers may not be aware that they may save the postage on subscription money, by requesting the postmaster where they reside to frank their letters combining such money...

A \$5 current bill, free of postage, in advance, will pay for three years' subscription to the Miner's Journal.

Pennsylvania Hall.—This most commodious public house has been leased by Mr. D'Estrebanville for a term of years, and will be opened on Monday 22d inst.

Our new host will bring with him the experience gained by a long residence with our Philadelphia friend, J. M. Sanson, Esq., and he will be assisted by Mr. Charles Herbel, well known to all the frequenters of the Merchant's Hotel.

Come and see us.—The sailors, who when at sea in a violent storm, thought only of how much they must suffer, who dwelt on land, could not have half the pity for the land-lubbers, that we have for the denizens of the hot and crowded city during this season of the year, as lovely in the country...

Keep Cool.—You can easily do this, by calling on our friend Martin, and drinking his mineral water or eating his ice creams; both are excellent.

We have had a slight frost two nights this week, and the thermometer at 87. What extreme weather!

A stalk of rye, 8 feet 2 inches long, has been left on our office, taken from a field belonging to Mr. Yeungling, up Mahantango Street. It is a whopper, and is said to be nothing more than a fair average of the whole field.

The Millionaire.—In noticing the retirement of Gen. Frick, from this paper we should have stated, that he will in future be under the editorial charge of Mr. J. H. Brown, who will continue to battle in the cause of Harrison, Tyler, and Reform.

The Log Cabin R.ffe has been loaded and primed by Montgomery, at Harrisburg, and discharged its first vol by last week. The report startled the locals exceedingly, and each successive crack will scatter its shot among the forlorn and disconsolate train-bands of Van Burenism. The Rifle will be found exceedingly useful as a sharp-shooter.

Discovery of Lead Ore.—The Sunbury Gazette states that a vein of Galena has been discovered about ten miles from that place, in the limestone quarry of Messrs. Sheehy & Bergstresser. The vein is about two feet in thickness, and the yield it is supposed to be about 70 per cent.; its extent is not yet known. We trust, however, it may prove valuable, and that it may tend to add an additional impetus to the prosperity of Sunbury.

The Improverment Bill, has passed both Houses, and will become a law, as soon as signed by the Governor. It has been so badly and twisted, we can hardly "define its position," until we see a correct paper.

Anthracite Castings, the work of Messrs. Moore & Stewart, of Danville, in shape of some beautiful pie plants, have been sent to our office for inspection. They are extremely well finished, and convince us that no iron in the world can make better castings.

The Roaring Creek Furnace.—It affords us pleasure to learn it is still doing well. Messrs. More & Stewart, of Danville, bear testimony to the excellent quality of the metal, and Messrs. Hywood & Snyder, of our borough, pronounce it equal to any Scotch Pig they have ever seen. This looks cheering in the extreme.

Bar Iron has been made at the Cattawissa Forge from the Anthracite Iron of the Roaring Creek Furnace, and these manufactured into horse shoes and nails with the most complete success. We have seen a piece of the "bar" which has been subjected to the severest tests, and proved of superior toughness and malleability.
