TEMPERANCE RECORD.

TEMPERATE DRINKING.

"'Tis but a drop," the father said,
And gave it to his son;
But little did he think a work
Of death was then begun.
The "drop" that lured him when the babe
Scarce lisp'd his father's name,
Planted a fatal appetite
Deep in his infant frame.

"'Tis but a drop," the comrades cried,
In truant school-boy tone;
"It did not hurt us in our robes,
It will not now we're grown."
And so they drank the mixture up,
That reeling, youthful band;
For each had learn'd to love the taste,
From his own father's hand.

"'Tis but a drop," the husband said,
While his poor wife stood by,
In famine, grief, and loneliness,
And raised th' imploring cry.
"'Tis but a drop,—I'll drink it still—
'Twill never injure me;
I always drank—so, madam, hush!
We never can agree"

"'Tis but a drop,—I need it now,"
The staggering drunkard said;
"It was my food in infancy—
My meat, and drink, and bread.
A drop—a drop—O, let me have,
'Twill so refresh my soul!"
He took it—trembled—drank—and died,
Grasping the fatal bowl.

Temperance movements in Philadelphia.—It is stated that nearly *five thousand persons* have joined the Temperance Societies in connexion with the Catholic churches in Philadelphia, within the last three or four weeks.

INTOXICATING DRINKS A CAUSE OF CRIME.

A man had the choice of committing the least of three offences—murder, robbery, or drunkenness. He chose the latter, got drunk, and then committed the other two.

Agreeably to a memorandum kept by the Rev. Dr Cathcart, of York, Pa., it appears that *one hundred and nine murders* were committed in the United States, within the year 1831. A large proportion of them are regarded as the consequence of an intemperate use of ardent spirit.

Wm. H. Boulton, of Augusta, was committed to jail to take his trial for stabbing Wm. Brett, his brother-in law, while under the influence of strong drink. They were both drunkards.

Israel Douglass, of Hallowell, another drunkard, has also been committed for an attempt to murder his wife and children, while in a drunken frenzy.

Of 119 commitments in a year, to the state prison at Charlestown, Mass., it is stated by an officer of the prison, that one hundred at least appear to have been occasioned by intemperence.

Says the Fifth Annual Report of the inspectors of the Eastern Penitentiary of Pennsylvania.—

The number of prisoners received into the Penitentiary in 1834, was 118; of which number the habitual drunkards were - - - - 5
Frequently intoxicated, - - - 16
Occasionally drunk, - - - - 73
94

Nearly seven-eighths of the whole number addicted to the use of spirituous liquors.

He could not do it until he had taken some brandy! Fieschi, the constructor of the 'infernal machine,' acknowledges that his heart failed him a short time before the king arrived, but he went to a shop, drank some brandy, and thus wound his courage up for the hellish attempt.

'Intoxicating liquor,' says the Fifth Report of the American Temperance Society, 'exposes the children of those who use it, in an eminent degree, to dissipation and crime. Of six hundred and ninety children prosecuted and imprisoned for crimes, more than four hundred were from intemperate families.'

'Of seventeen hundred and sixty-four criminals in different prisons in the United States,' says the Fifth Report of the American Temperance Society, 'more than thirteen hundred were either intemperate men, or were under the power of intoxicating liquor, when the crimes, for which they were imprisoned, were committed. And of forty-four murders, according to the testimony of those who prosecuted or conducted the defence of the murderers, or witnessed their trials, forty-three were committed by intemperate men, or upon intemperate men, or those who at the time of the murder were under the power of strong drink."

To be Let.

THE Valley Furnace, some time ago arranged for smelting Iron Ore with Anthracite Coal, with an excellent and powerful Steam Engine attached to it. The furnace is situate four miles from Port Carbon, up the Schuylkill Valley Rail Road, on the Valley Furnace land.

These lands crossing the whole of the Schuylkill Coal range, contain all the different coal veins or strata of coal of that celebrated Coal region, a number of which have been opened, and some of them are now worked. There is also plenty of Iron Ore upon the land, some of the Veins of which have been opened; the favorable location and facilities already created inspire the hope of making Iron at the very cheapest rate.

To a good tenant the conditions would be made easy. For terms apply to

PROPOSALS

WILL be received at the office of the Buck Mountain Coal Company in Philadelphia, for the mining and delivering of coal in boats, at their landing at Lockport on the Lehigh, until the 15th day of August next. Their names will be put in working order by the operation of syphons—the vein to be worked is about ten feet thick, free from slates and the dip about one foot in five. The distance by their rail road to the canal is about four miles. Rail road and drift cars are furnished by the Company. The mine must be worked in twenty feet breasts, leaving pillars of the same size.

The company are making arrangements which, after this year, will enable them to mine coal to the extent of from thirty to fifty thousand tons per annum, and it will therefore be an object to any one fully competent to make application, with satisfactory references.

Such as may wish to contract, will no doubt examine the mines previously. Address

SAMUEL L. SHOBER,
President of the Buck Mountain Coal Company, Philadelphia.

NEWS TO THE AFFLICTED.

Yeager's & Albright's

☞ *Celebrated Botanic Health & Life Preserver.* ☜

THIS Medicine known for many years as Yeager's medicine has never been offered to the public for sale until of late, the proprietors have been prevailed upon to offer it for the benefit of those who are laboring under any of the diseases here enumerated, viz: "Cancers, Ulcers of the throat and body, Liver complaint, Spitting of Blood, Whooping Cough, Rheumatic affections in the head and body, Colds of long standing attended with severe pain upon the breast, Consumption in many cases, where the patient had been abandoned by the Physician, and pronounced an incurable case, this medicine has had the most wonderful effect."

The proprietors are well aware of the numerous medicines that are already offered to the public for the cure of some of the above diseases, many of which have not the slightest effect of performing at any time a cure—but the numerous testimonials which have of late been given to *them*, by some of the most respectable citizens, shows that there can no longer be any doubt as regards the medicine which they now offer, and would say to those afflicted—give it a trial—adhere to its directions, and we will warrant a permanent cure.

Certificates of some of the most remarkable cures can be seen by calling upon any of the Agents. Directions for using the medicine will be found to accompany each bottle.
