

The Court of St. James and Van Buren... We have repeatedly stated our knowledge of the fact that the present struggle in the United States...

"The People of England may now learn a lesson on Republicanism from its most brilliant specimen, the government of the United States..."

Van Buren is said to be a non-talented man, but he knows human nature; he knows his countrymen...

THE REPUBLIC OF THE UNITED STATES, like that of Venice, will become an oligarchy, but it will be, not less we are mistaken, a more enduring one...

PHILOMATHIC SOCIETY. Thursday evening, September 17, 1840. Question for Discussion: "Does there exist such a principle in the human mind as disinterested benevolence?"

Henry Vauter, (Orwigsburg, Greys), Quarter Master, and Doc. John I. Smith, of the Borough of Orwigsburg, Surgeon. They will be obeyed and respected accordingly.

THOMAS J. BAIRD, Lt. Col. 1st Bat. S. C. Vol. Pottsville, August 29 35-3t

Lehigh Water Powers, FOR MANUFACTURING ANTHRACITE IRON AND OTHER PURPOSES. THE Lehigh Coal and Navigation Company offer for sale, or let on an annual ground rent, with the right to purchase at any time by paying the principal of the rent, very extensive Water Powers along the line of the Lehigh Navigation, between Smith Easton, and White Haven, affording in a distance of seventy-one miles, every variety of location, and abundant power at each for extensive iron works or other purposes. These powers may be relied on as constant, and being on a large navigation abounding in every variety of iron ore, and in limestone and coal, contiguous to the Lehigh, and extending on each side of the Canal many miles, present all the means and materials for manufacturing iron, and all its various branches, and a great variety of iron ores of the richest quality are also found along the line of the Morris Canal, (by which the Lehigh Navigation communicates with New York) which can be brought to the works as back loading.

It is believed that no section of country possesses greater advantages than the Lehigh, for the manufacture of iron, either in the amount of power applied, the abundance and variety of coal, ore, limestone, and other necessary materials, the ease and shortness of communication with all the markets, the salubrity of the location, and the cheapness of living, and of all the raw materials.

The Lehigh Navigation, which has five feet water, with 100 feet of clear, and the same communicates from its eastern extremity with Philadelphia by the Delaware divisions of the Pennsylvania Canal in 78 miles, and with New York by the Morris Canal in 102 miles, and the Delaware and Raritan Canal 126 miles. At its western extremity the Lehigh Navigation will in a few months have a communication with Philadelphia, on the North Branch of the Susquehanna by a rail road of only twenty miles, made with a favorable grade, and in the most approved manner—fifteen miles of this road being already passable for cars. By this route the distance from the North Branch Canal at Wilkesbarre, to Philadelphia, is one hundred miles less than by any other route. From Northumberland, at the West Branch of the Susquehanna, the Lehigh route is nearly as short as any other Canal Line to Philadelphia, and shorter than any other to New York. And from the mouth of the Juniata to New York, the Lehigh route is about as short as any other.

The Company, being desirous of having the manufacture of iron with Anthracite Coal extensively established along their line, have reduced the price for water power to be applied to this object, so much, that it is believed the water to make a ton of pig iron will not cost more than from sixteen to twenty cents, which is a great saving for that purpose at much below their usual rates.

For further information, apply to William H. Knowles, the Company's Superintendent at Mauch Chunk; William Zane, Agent at South Easton, John Brown, Agent at White Haven; or to the Company's office in Philadelphia, JOSEPH WATSON, President.

August 1, 31-6t

P. S. The Furnace of the Lehigh Crane Iron Company, whose works are situated on the Lehigh Canal, near Allentown, is now making first rate iron from the ore, exclusively with Anthracite coal, with the most entire success—and is open to the inspection of all who may choose to visit it.

Applications to be made to William F. Dean, Esq., at Pottsville.

WILLIAM F. DEAN, Pottsville July 18 29-4t

NEWS TO THE AFFLICTED. Yeager's & Albright's Celebrated Botanic Health & Life Preserver. THIS Medicine known for many years as Yeager's medicine has never been offered to the public for sale until late, the proprietors have been prevailed upon to offer it for the benefit of those who are laboring under any of the diseases here enumerated, viz: "Cancers, Ulcers of the throat and body, Liver complaint, Spitting of Blood, Whooping Cough, Rheumatic affections in the head and body, Colds of long standing attended with severe pain upon the breast, Consumption in many cases, where the patient had been abandoned by this Physician, and pronounced an incurable case, this medicine has had the most wonderful effect."

The proprietors are well aware of the numerous medicines that are already offered to the public for the cure of some of the above diseases, many of which have not the slightest effect of performing at any time a cure—but the numerous testimonials which have of late been given to them, by some of the most respectable citizens, shows that there can no longer be any doubt as regards the medicine which they now offer, and would advise to those afflicted—give it a trial—adhere to its directions, and we will warrant a permanent cure.

Certificates of some of the most remarkable cures can be seen by calling upon any of the Agents. Directions for using the medicine will be found to accompany each bottle.

AGENTS. W. T. Epling and J. S. C. Martin, Druggists, Pottsville, Pa. Miller, Shiffly and Smith, Hamburg, Berks Co. Pa., Moyer & Bushong, Reamstown, Lancaster Co. Pa., George Pfeiffer, Myerstown, Lebanon Co. Pa., Jacob Albright, Lancaster, Pa., Samuel Ritter, P. M. Reading, Pa. Price 91 per bottle.
