The Blood has hitherto been considered by Empirics and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themclves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health, and Vigor emanate, and nice nevsa, pain, sickness, disease and death. Not so with Dr. HUNT, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most use ful members. He contends-and a moment's reflection will convince any reasoning mind of the correct ness of his views-that the stomach, liver, and the associated organs are the primary and great regula ture of health, and that the blood in very many in-stances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anodynes usually prescribed, sevre but as foils to cover the ravages of deed-rooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medi-

cine whose searching powers are irresistible, and in prescribing, it is with a knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not intend to prescribe to HUNT'S BOTANIC PILLS

within the knowledge of hundreds, he is prepared to shew, that when every other carthly remedy has been given up, HUNT'S BOTANIC PILLS have never been known to fail in effecting two very

gratifying results, that of raising from the bed of ickness and disease those who have tested their effi cacy, and thus amply rewarding Dr. Hunt for his ing and anxious study to attain this perfection in he HEALING ART.

The extraordinary success which has attended the use of HUNT'S BOTANIC PILLS, is the best criterion of their superior virtues. They have been the means of raising a host of languishing patients from the bed of affliction, as is clearly evinced in the following

HUNT'S BOTANIC PILLS, thinks it an indispenable duty to state certain facts relative to the dis ease under which he had so long suffered. The symptoms were—a painful obstruction, with a con, stant rejection of food, head ache, palpitation of the beart, lowness of spirits, a troublesome dry cough, dizziness, tightness at the chest and difficulty of breathing, almost constant pain in the side, loins, and shoulders, accompanied with much languor and debility. These afflictions, together with an unusual degree of flatulence, brought on such a state of extreme weakness, as to prevent him from attending to his busines, and his health appeared lost beyond recovery. #### SOOTHINC SYRUP, FOR CHILDREN.

### To Mothers and Nurses.

THE passage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is a great irritation in the mouth and gums during this process. The gums swell, the se-cretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting in its sleep, and spasms in peculiar parts; the child shrieke with extreme violence, and thrusts its fingers into its mouth. If these precursary symptoms are not speedily alleviated, spasmodic convulsions universally supervents and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distress-ing symptome, would apply the celebrated American Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attack-ed with that fatal malady convulsions.

This infallible remedy has preserved hundreds when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This proparation is so intocent, so efficacious, and so pleasant, that no child will refuse to lettis gums be rubbed with tt. When infants are at the age of four months, though there is no appearance of teeth, one bottle-of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the sursery where there are usuar should reader if a child wakes in

He was generally making trial of various remedics, all of which were equally fruitless, unte he had recourse to Hunt's Botanic Pills, from thsuperior virtues of which medicine his health is per fectly re-established, and is now able to pursue his employment free from pain or disease. JOSHUA ROBERTS.

Auextraordinary case of Rheumatism, accompanied with Diarrhea and Nervous Debility.

of all the joints, and an entire loss of their use; both the pain and the fever generally suffered an increase in the evening. The pairs were increased on the slightest motion, and were more severe in the night time. A constant diarrhæs, which produced its general consequences-flatulency, lowness of spirits, and general wasting of the body. He was indeed so extremely ill that his medical attendant could not possibly give the least hopes of his recovery, and it was generally believed by his relatives and friends that all the medicines or treatment in this world could not give him any relief. But seeing an ad-vertisement on Hunt's Botanic Pills, he was directed by an Almighty Providence to use them ; he did so, and after a fortnight they produced a tavorable change, and he is now a healthy and strong man.

JOSEPH HART. An interesting case of Lowness of Spirits, with a violent Spasmodic Affection.

Mr. Francis Caldwell was afflicted for several year with extreme debility, together with a train of symptoms generally termed nervous affections, and which, perhaps, it would be impossible for the pen of the most learned physicians to describe. In this case the spasms in the stomach were so frequent and excruciating as nearly to deprive him of reason pains in the limbs, extending even to the fingers and toes, flatulence, sickness at the stomach, and a general ogitation of the whole system, insomuch that a common incident rendered the mind limit and apprehensive. In order to remove these distressing symptoms, and restore the constitution to its former energy, a large portion of medical skill had been exhausted without any advantage ; change of air, and other remedies were also unavailing, and the mind and body appeared to be devoted to a ruthless discase. In this hopeless and languid situation, Mr Caldwell was recommended to make trial of Hunt's Botanic Pills, the effects of which were visable in a few days, and by a continuance of the medicine according to directions.) his strength became comletely restored, and a sound state of health, was
