Holland-Abdication of the King.-The Amsterdam papers announce the abdication of the King of Holland in favor of his son. It appears that his Majesty communicated his intentions to his Ministers before setting out the day before from the Hague to the castle of Loo. A proclamation will be issued in a few days informing his subjects of his resolution. The Handlesblad says, that the King having summoned the Prince and Princess of Orange to Loo communicated to them his intentions in the presence; of his friend Baron Fayel. It is believed that his Majesty has already given orders for the transmission of all the official documents of the various official. departments. He is said to have laid aside his crown, and retired to private life, for the purpose of accomplishing the union with a lady of his court, which encountered so much opposition from his subjects when first announced some twelve months ago.

Dreadful Earthquake-Towns destroyed-1000 buried in the Ruins, -The Journal de St. Petersburg of Sept. 11, publishes a letter, dated Tiffis, August 8. giving an account of a terrible earthquake at Mount Ararat, which has totally destroyed the town of Makitcheman, damaged all the buildings at Erivan, and devastated the two districts of Sharour and Sour- W. Wallace, mate, in Armenia. All the villages in those districts have been destroyed. The earth is rent in such a Bell & Bolton, manner, that all the cotton and rice plantations have perished for want of water. But the most awful event has taken place in the neighborhood of Mount Ararat. A considerable mass was loosened from the mountains, and destroyed every thing in its way for the distance of seven wersts, (nearly five English miles.)

Among others, the great village of Akhouli has had the fate of Herculaneum and Pompeii. Above 1000 inhabitants were buried under heaps of rocks. A thick fluid, which afterwards became a river, ran from the interior of the mountain, which was opened, and following the same direction, swept over the ruins, and carried with it the corpses of the unfortunate inhabitants of Akhouli, the dead animals, &c. The shock continued to be felt every day in the abovementioned districts, and entirely laid them waste; then the shocks became less frequent.

SATURDAY MORNING

We have delayed our paper a few hours for the purpose of presenting our readers with the returns from this county, as far as they could be obtained. The result so far has been glorious, far exceeding the DELAWARE AND HUDSON COALTRADE expectations of our most sanguine friends. We had always conceded the Locos a majority of 500, but it will not exceed 295, and the remaining district to be | October 24th, heard from may reduce it still lower. The Locus claimed 1000-but they deceived their friends as

Harrison's majority, it will be observed, in the Coal Region, embracing the Pottsville, Port Carbon and Mineraville districts, is 543, as follows:

Thanks to the WORKING MEN, -thanks to the CONSERVATIVES .- thanks to the PEOPLE of these districts, they have covered themselves with imperishable renown in the Glorious Cause of Liberty, and the Rights of Man. Our friends in Orwigsburg and Pinegrove, have

also done their duty nobly, and deserve the thanks of every man who has the welfare, and prosperity of his country at heart. Our friends at M'Keensburg have also re-

deemed their pledge. One or two more such battles, and Schuvlkill. county will take her rank among the real Democratic

counties in the State. Election Returns.

The following are the Election Returns for Schuyl kill County, as far as received. We also give the vote polled on the 13th inst for a member of Cun.

ALDIE'S SELECT CIRCULATING LIBRA-RY AND MONTHLY JOURN ALOF POLITE LITERATURE—The proprietor of this popular and well known periodical has the gratification of replying to the many affectionate inquiries after its resumption, and announces to his kind friends and patrons—friends and patrons in the true meaning of the words—that he will resume the publication next January. Restored by a beneficent Providence once more to active life, he hopes again to be able to give that superintendence to the publication which was his pride and pleasure for seven years. He anticipates, with inexpressible satisfaction, the renewal of associations with thousands of faction, the renewal of associations with indusance of families, with either of which an acquaintance is an honor. During his protracted indisposition, the intensity of suffering was greatly mitigated by the generous expressions of sympathy and regard received from his kind hearted patrons; and the gloom and tedium of a sick soon was much lightened by the gas a feeping friend. room were much lightened by the rays of genuine friendship emitted from every quarter. This egotism he hopes will be judged of mildly—he certainly has no wish to make a display—but the impulse of grateful acknowledgement for such disinterested kindness was trrepressible, and he could not announce the re-appearance of the work without yielding to it.

To these friends he addresses himself, solicitous for

their continued support, and hopes to have the Library-once more introduced among their families, see it hon ored again with a place on their centre tables, and beored again with a prace on their centre values, and become a welcome weekly visiter. He is at the same time very desirous to extend his acquaintance and form

From the arrangements made, dictated by experience, From the arrangements made, dictated by experience, the Library, it is believed, will in every respect be improved. The type will be more distinct, the monthly sheet continued and a weekly cover beside. The cover will be made so as so avoid the extra postage. The will be made so as to avoid the extra postage. The monthly Journal he hopes to make a sheet of abiding interest, so combining original and selected articles, of foreign and domestic literature, science and art, and from such a source of respectability, as to make it a work of authority and reference.

The regularity of its former publication, not a failure

in seven years, will be taken as a guarantee for the fu-ture punctuality of the Library; but there is only one way to make that permanent, viz. by paying in advance. This is an indespensable pre requsite from all at a dis-tance The losses by deviating from this rule formerly are too heavy to be forgotten soon, and a little reflection may satisfy any one of the ressonableness of the request. The reasons are too obvious, indeed, to require much discussion. Five dollars are all that a subscriber risks, but the publisher risks thousands by crediting The Dublisher is in a city and can be reached without trouble.

A subscriber lives perhaps a thousand miles off; and how is he to be reached? It might cost six times the amount to collect the trifle. Payment in advance, then, as may be perceived, is a reasonable request, and sad exgerience compels the proprietor to make it absolute. The few who paid in advance for 1840, will be supplied for 1841, unless atherwise ordered.

An early remittance of names is respectfully urged, so as to enable the proprietor to make proper calculations about the quantity to be printed, as he will print very few over the number absolutely subscribed for To this he would eall particular attention. To his brethren of the press, throughout the country, the proprietor returns grateful thanks for the forme favors, and hopes the work will be again so conducted as to warrant a renewal of their friendly assistance. A few copies of the Port Folio are still on hand, a year of which will be forwarded in payment for advertising as much of this announcement as they may think an equ

alent; or two years will be sent for publishing the TERMS - The Library will be published weekly, on a double royal theet, six een pages quarto each, an new type, and printed on the best style of book work. Each ber enveloped with a new cover.

2. Price FIVE DOLLARS a year, if paid at or remitted to the office. SIX DOLLARS if collected by an agent.

3. A Monthly Journal of Polite Literature, consisting of original communications, and selections from foreign and domestic periodicals, printed uniformly with the Library. This will be a valuable edition to the origina 4. Subscriptions commence with January, and odd scriptions taken for less than a year.

SWAIM'S VERMIFUGE The most useful Family Medicine ever of fered to the Public.

HIS well known Anti-Dysenteric and Worm Medicine has proved successfully these twelve years past, and is universally acknowledged by all who have. tried it, to be far superior to any other medicine ever employed in the diseases for which it is recommended. It is perfectly safe, and no child will refuse to take it. Worms being especially apt to infest persons of debil-itated digestive organs and emaciated constitutions, much mischief is often done by the ordinary worm med-icines, which generally consists of the strongest purga-tives, calomel, that destroyer of the constitution, bitters, nink root spirits of the property of the constitution, bitters, tives, calomel, that destroyer of the constitution, office of pink root, spirits of turpentine, wormseed oil &c. &c. DR. WINSLOW'S

Balsam of Horehound. An unparalleled remedy for common Cold, Coughs, Asthma, Influenza, Whooping Cough, Bronchitis, and all diseases of the Breast and Lungs, leading to Consumption; composed of the concentrated virtues of Horehound, Boneset, Blood Root, Liverwort and several other vegetable substances. Prepared only by J. M. WINSLOW, Rochester, N. Y.

THE innocence and universally admitted pectoral virtues, of the Herbs from which the BALSAM OF HOARHOUND is made, are too generally known to require recommendation; it is therefore only necessary to observe that this Medicine contains the whole of their Medicine property of the propert Medicinal properties, highly concentrated, and so hap-pily combined with several other vegetable substances, as to render most speedy, mild and certain remedy, now is use for the complaints above mentioned.

For Children, this Balsam is of inestimable value. It is a speedy remedy for the Whooping Cough and Croupy and affords certain relief in Bowel Complaints, Cholic, Teething, &c. It is pleasant to the taste, and may be safely given to one tenderest infant and should be kept at all times in every family, as it is much better for the complaints incident to children than Paregoric, Godfrey's Condial at the Coughlist so commonly used achieved.

Cordial, or the Cordials so commonly used, as hundreds in this City have testified.

It is now about five years since this medicine was extensively introduced in this City, and section of the country, since which time it has constantly increased in public favour, and it is at the present time the most popular Cough Medicine, in most of the Northern and Western States. More than Two Thousand Five Hundred Botthe have been retailed annually, at the subscribers coun-ter, for the last two years, and although five other Drug-

ter, for the last two years, and although five other Druggists in the City, are constantly supplied with the article his sales are daily increasing.

For the attisfaction of those interested in Certificates, the following are added, although the common practice of collecting a long 'string of vouchers,' has not been considered the best way to make its virtues known. We say 'ask' 'inquire,' ask those who have used it, ask I'hysicians who prescribe it, ask the Agents who sell it try it yourself, and then judge as ye find.

Read the following.—I hereby certify that early in the spring of 1839, I contracted a sovere COLD, which settled upon my lungs, and threatened a hasty Consumption.

tled upon my lungs, and threatened a hasty Consumption. I used several prescriptions, but obtaining little or no relief; I was much alarmed. Happening to be at Rochester, I was advised by my friend. Mr. Winslow, to try a bottle of his Balsam or Horehound: I did so, and to my surprise obtained relief at once—and by the use of that single bottle was perfectly restored to health. To those afflicted with Colds or Coughs, at this inclement season, I say go and do likewise.

LEANDER CHIPMAN.

Ingratitude is the basesterime in man.—We are not among that class of Editors who for a few dollars will, at the expense of truth and honesty) 'crack up' an article and bring it into rand sale; neither are we willing to remain eilent, after having sested the utility of an improvement or discovery in science or art. Our readers will recollect we told them we were unwell with a soar throat and violent cold some few weeks ago. Well, we purchased two bottles of Winslow's Balson of HogsHoun and so sudden was the cure that we forgot we ever had a cold. Those who are afficited may try it upon our recommendation—Lewiston Telegraph.

SOOTHING SYRUP,

FOR CHILDREN. To Mothers and Nurses.

THE pa-sage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is a great tritation in the mouth and gums during this process. The gums swell, the secretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting is its sleep, and spasms in peculiar parts; the child shrieke with extreme violence, and thrusts its fingers into its mouth. If these precursary symptoms are not speadily alleviated, spasmodic convulsions universally supervests and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply the celebrated Americas Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attached with that fatal malady convulsions.

This infallible remedy has preserved hundreds when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to lettis gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Grup should be used on the gums to open the pore Parenne hould never be without the Syrup in the nursely where three are young children, for if a child wakes in the night with the pain in the gums, the Syrup impediately gives ease, by opening the porce and healing the gums; thereby preventing Convulsions, Fevers, &c.
