THE innocence and universally admitted pectoral virtues, of the Herbs from which the BALSAM OF HOARHOUND is made, are too generally known to require recommendation; it is therefore only necessary to observe that this Medicine contains the whole of their Medicinal properties, highly concentrated, and so hap-pily combined with several other vegetable substances.

For Children, this Balsam is of inestimable value. It is speedy remedy for the Whooping Cough and Croupt and affords certain relief in Bowel Complaints, Cholic, Techning, Gr. It is pleasant to the taste, and may be safely given to the tenderest infant and should be kept at all times in every family, as it is much better for the complaints incident to children than Paregorie, Godfrey's Cordial, or the Cordials so commonly used, as hundreds in this City have testified.

It is now about five years since this medicine was ex tensively introduced in this City, and section of the coun-try, since which time it has constantly increased in pubic arour, and it is at the present time the most copular Cough Medicine, in most of the Northern and Western States. I used several prescriptions, but obtaining little or ao relief; I was much alarmed. Happening to be at Rochester, I was advised by my friend. Mr Winslow, to try a bottle of his Balsam of Hors Hourd's I did so, and to my surprise obtained relief at once—and by the use of that single bottle was perfectly restored to health. RY ALDIE'S SELECT CIRCULATING LIBRA-RY AND MONTHLY JOURNAL OF POLITE LITERATURE —The proprietor of this popular and well known periodical has the gratification of replying to the many affectionate inquiries after its resumption, and announces to his kind friends and patrons—friends and patrons in the true meaning of the words—that he will resume the publication uest January. Restored by a beneficent Providence once more to active life, he hopes again to be able to give that superintendence to the publication which was his pride and pleasure for seven years. He anticipates, with inexpressible satisfaction, the intensity of smillies, with either of which an ecquaintance is an honor. During his protracted indisposition, the intensity of suffering was greatly mitigated by the generous expressions of sympathy and regard received from his kind hearted patrons; and the gloom and tedium of a sick room were much lightened by the rate of genuine friendship emitted from every quarter. This egotism he hopes, with his indeed of wilder. WALDIES SELECT CIRCULATING LIBRA-

room were much lightened by the rave of genuine frieudship emitted from every quarter. This egotism he hopes will be judged of middly—he certainly has no with to make a display—but the impulse of grateful acknowledgement for such disinterested kindness was irrepressible, and he could not announce the re-appearance of the work without yielding to it.

To these friends he addresses himself, solicitous for their continued support, and hopes to have the Library-once more introduced among their families, see it hon ored again with a place on their centre tables, and become a welcome weekly visiter. He is at the same time very desirous to extend his acquaintance and form ime very desirous to extend his acquaintance and form

From the arrangements made, dictated by experience, the Library, it is believed, will in every respect be improved. The type will be more distinct, the monthly sheet continued and a weekly'cover beade. The cover will be made so us to avoid the extra postage. The monthly Journal he hopes to make a sheet of shiding interest, so combining original and selected articles, of fossign and domestic literature, science and att, and from such a source of respectability, as to make it a work of authority and reference. uthority and reference. The regularity of its former publication, not a failure in seven years, will be taken as a guarantee for the fu-ture punctuality of the Library; but there is only one

ture punctuality of the Library; but there is only one way to make that permanent, viz. by paying in advance. This is an indespensable pre requisite from all at a distance. The losses by deviating from this role formedly are two heavy to be forgotten soon, and a hule reflection may satisfy any one of the reasonableness of the request. The reasons are too obvious, indeed, to require much discussion. Five dollars are all that a subscriber risks, but the publisher risks thousands by crediting The publisher is in a city and can be reached without trouble. A subscriber lives merhans a thousand miles off and A subscriber lives perhaps a thousand miles off; and how is he to be reached? It might cost six times the amount to collect the triffle. Payment in advance, then, as may be perceived, is a reasonable request, and sad exrefrence compels the proprietor to make it absolute. The few who paid in advance for 1840, will be supplied for 1841, unless otherwise ordered.

An early remittance of names is respectfully urged, so as to enable the proprietor to make proper calculations about the quantity to be printed, as he will print very few over the number absolutely subscribed for. To this he would call particular attention.

To his he would call particular attention.

To his brethren of the press, throughout the country, the proprietor returns grateful thanks for the former favors, and hopes the work will be again so conducted as to warrant a renewal of their friendly assistance.
