CONSUMPTION

Da. WISTAR'S Balsam of Wild-Cherry, THE CELEBRITED BENEDY FOR Diseases of the Lungs.

NUME ROS remedies have been offered and puffed into notice for DISEASES OF THE LUNGS, some of which has and on the been known, it must be but of all that have hitherto been known, it must be but of all that have interto been known. It must be universally acknowledged there is none that has ever-proved as successful as the "BAISAM OF WILD CHERRY". Such indeed are the astonishing restorative and healing properties of this BAISAM, that even in the worst forms of CONSUMPTION. when the passent has suffered the most distressing court widest trips. in the worst forms of CONSUMPTION. when the padient has soffered the most distressing cough, violent pain
in the chest, difficulty of breathing, night sweats, bleeding
of the lungs, dra and when the most esteemed remedies
of our Phatmacopias had failed to afford any relief, and
when Botanic, Homespathic, and numerous other remodies; had been used for many months in vain, this
is valuable remedy has checked every symptom, and
been productive of the most autonishing relief. In the
early stages of the disease, proceeding from neglected
colds, termed Catarraht Consumption, it has been used
with undeviating success, and in many instances, when
this disease seemed to have marked its viction for an
early grave, theiuse of this medicine has arrested every
symptom, and restored the lungs to a state of perfect
health.

In that form of CONSUMPTION, so prevalent aan inat form of CUNSUMY ATOM, so prevaient and an individual series of the strong stro at the same time attempthens and invigorates the whole

persessed.

137LIVER COMPLAINT—In diseases of the Liver, particularly when attended with a cough, indigestion or examined in the side it has also proved very efficacious, and cured many cases of this kind after the most powerful remedies had failed.

157 ASTHMA—In this complaint it also been used in numerous instances with the most singular success. It opens the clust, rendering the breathing perfectly free, arrests the cough, and will seldom fail to give permianent relief.

free, arrests the cough, and will seldom fait to give permianent relief.

37 BRONCHITIS.—As a remedy in all Bronichial affections of the throat, attended with a hoarseness, cough or ear in the throat, it will also be found a very effectual semedy, and will mostly afford immediate relief if used at the commencement of the attack.

ILP COUGHS AND COLUS.—In common coughs and colds, that prevail so extensively throughout the winter; it will be found nuch more effectual than any remedy in use, and when colds settle upon the lungs, causing an inflamation with paids in the breast, difficulty or, shortness of breathing, &c. the use of this Baleim will or, shortness of breathing, &c. the use of this Balsam will suppress such symptoms immediately, and at the same time prevent the lungs from becoming more seriously

TIP CROUP AND WHOOPING COUGH.—In these complaints, so common to young children, this Balsam will be found much superior to the Paregoric Elixer Syrup of Squills, and the various COUGH MIXTURES in common use, as it is entirely, free from any, thing the least injurious, and may at all times be given to children with perfect safety, and with the certainty of its affording

them speedy relief.

ILP AS A FAMILY MEDICINE for many other complaints, this iBdison will also be found particularly useful Besides having proved an invaluable remedy in all Pulmonary affections, it exerts a pewerful influence over many diseases depending on a depraved condition of the system, and those who have suffered from the indiscriminate use of Mercury, or other deleterious drugs, that are often compounded in different quack nostrums, will find it a remedy of great value, presessing the power of strengthening and invigorating the whole system more effectual than any other medicine we possesses.

CAUTION TO PURCHASERS—As this medicine CAUTION TO PURCHASERS—As this medicine has already acquired great celebrity, there may probably be some attempts to imitate it, and deceive the public with a spurious mixture, to prevent which I would wish all purchasers to observe the following marks of the genuiae a Balsam. It is put up in bottles of two sizes each, having the words WISTAR'S BALSAM OF WILD CHERRY, PHILADA, blown in the glass, and a fabel on the front with the signature of HENRY WISTAR, M. D. without which none are genuine.

Prepared for the Proprietor by WILLIAMS & Co. Chemists, No 22, Commerce Street, Phila and sold by the most respectable Druggists and other appointed Agents in all the principal towns throughout the United States.

ALDIE'S SELECT CIRCULATING LABRARY AND MONTHLY JOURN ALOF POLITE
LITERATURE:—The proprietor of this popular and
well known periodical has the gratificance of replying
so the grant affectionate inquiries affer its recompany,
and announces to his kind friends and patrons in the tree meaning of the woffs.—That he
will resume the publication near January. Restored by
a beneficant Providence once more to active life, he
hopes again to be able to give that superintendence to
the publication which was this pride and pleasure for
seven years. He anticipates, with their maintee is an honfaction, the renewal of associations with thousands of
families, with either of which as acquaintance is an honor. During his protracted indisposition, the intensity of
suffering was greatly mit rated by the generous expressions of sympathy, and reger of received from his kind
fearted patrons; and the gloon, and tedium of a sick
from were much lightened by the facts of grateful recknowledgement from every quarter. This rection he hopes,
will be judged of mildly—he certainly has no wish to
make a display—but the impulse of grateful schoowledgement for such disinterested hindness was arrepressable, and he could not annaunce the re-appearance of the
work without wielding to the

engement for such disinterested andness was arrepressible, and he could not announce the re-appearance of the work without yielding to it.

To these friends he addresses himself, collectors for their continued support, and hopes to have the Library-once more introduced among their families, see it has ored again with a place on their centre tables, and become a welcome weekly visiter. He is at the same time very desirous to extend high equaintance and form now friends.

come a welcome weekly visiter. He is at the same time very desirous to extend his acquaintance and form new friends.

From the arrangements made, dictated by experience the Library, it is believed, will in every vespect be improved. The type will be more distinct, the monthly sheet continued, and a weekly cover beade. The cover will be made so as to avoid the extra postage. The monthly Journal he hopes to make a sheet of abiding interest, so combining original and selected strucles, of foreign and domestic literature, science and att, and from such a source of respectability, as to make it a work of authority and reference.

The regularity of its former publication, not a failure in seven years, will be taken as a guarantee for the fitter punctuality of the Library but there is only one way to make that permanent, viz. by polying in advance. This is an indespensable pre regulate from all at a distance. The losses by deviating from this rule formerly are too heavy to be forgotten soon, and a hule reflection may satisfy any one of the reasonableness of the request. The reasons are too obvious, indeed, to require much discussion. Five dollars are all that a subscriber investment of the publisher risks thousands by crediting. The publisher is in a city and can be reached without trouble. A subscriber lives perhaps a thousand miles off; and how is he to be reached? It might coat six times the amount to collect the triffle. Payment in advance, then, as may be perceived, is a reasonable request, and sad exteriors about the quantity to be printed.

An early remittance of names is respectfully urged, so as to enable the proprietor to make it absolute twery few over the number absolutely subscribed for To this he would call particular attention.

To his brethren of the press, throughout the country, the proprietor returns grateful thanks for the former favors, and hopes the work will be again so conducted as to warrant a renewal of their friendly assistation. A few copies of the Port Folio are till on hand, a year of whi

alent; or two years will be sent for publishing the whole.
