Store and Tavern Stand

, TO LET.

THAT excellent Tavern and Store Stand in the Valley Rail Road, about 100 yards above Port

filled by good democrats.

In the House of Representatives, the democrats will have a majority of at least twenty.

FATTENING POULTRY .- An experiment has lately been tried of feeding geese with turnips cut up very fine and put into a trough with water. The ef fect was that six gerse, weighing only 9 lbs. each when shut up, actually weighed 20 lbs. each, after about three weeks feeding with this food alone. The above is from the Gennesseo Farmer. Try it reader-and if true, send is a Turkey-we don't like Geese-for the information.

QUEER-to see Philadelphia papers helping the New York brokers to kill their own banks, for the benefit of the Wall street aspirants .- Richmond Star.

It is still queerer to see our State Governmen legislating for the benefit of the surrounding States also.

THE COST OF LOCOFOCOISM .- Secretary Woodbury has made a report to the United States Senate in which he states that the Government and the People have lost since 1830, \$365, \$51, 497-caused, as he says, by the Banks-but we say, by the demon spirit of Locofocoism, which has swept the whole length and breadthof our country, hurling destruction and desolation in every quarter. We thank the Hon. Secretary for this report at this time. It will be very appropriate as an epitaph to be inscribed over the tomb of expiring Locoldcoism.

Tr If any person has any money to invest, let him go deeply into Reading Rail Road stock at the present prices. Take our advice-you will never regret it. If some folks, who held Lehigh stock, had listened to our advice last year, instead of applying to us the polite' epithe's of "assassin," "cut-throat," &c. &c., they would have profited considerably by it.

Nearly one-fourth of the time of our Legislature is taken up with incorporating "Swindling Shops," commonly called, Coal Companies. There is no use in thus wasting the time of the Legislature. None but an idiot would touch a, share of Coal Company stock now-a-days, we care not one fig where it is located.

THE TARIFF.-The Richmond (Va.) Whig has broken ground in favor of a-protective tariff. The editor says-"Men's opinions have undergone in the South, and are now undergoing, great changes in respect to the tariff. They contrast the present with the past; and the comparison is in favor of protecting their own manufactures. We believe we truly stated public opinion when we said, that our objections to the tariff were political, not conomical :that the true objections to it were, first, the hostility of sections to it; and, secondly, its liability to produce a redundant treasury." In a very few years, the whole South will be tariff

up to the hub.

>

TA letter from Harrisburg states that nothing will be done with the Banks until the 4th of March Convention is over. In other words, the whole business community must be kept on " the rack " until a few politicians can arrange their business. All right, however. Why do the people send politicians to Harrisburg to make laws for them ? If they are too lazy to work, and cannot be supported in any other way, let an Asylum be provided for them, and an appropriation made for their support out of the will be the gainers by it.

The Philadelphia American Sentinel, in alluding to the conduct of the Banks in that city in refusing to take U.S. Bank notes on deposite, very properly remarks, in substance, that if the United States Bank has committed errors, and sunk a portion of her capital, still she has more left than the united capital of all the other banks in the stateand consequently her notes in circulation will all be redeemed.

ed to S 2 00. What is this for ? If it is said to be a compensation for cleaning the dock of the Steamboat, would it not be; well to charge the Boatmen with some other perquisites, to raise the salary of Steamboat hands. Or, if justice demands an extra compensation for this extra service, (and it is but one hour's work for two men, going and returning would not one fourth the price now charged be suffi cient? All who know any thing about this matter. know that one quarter of what is now charged, is

sufficient to employ two hands of the Steamboat one whole day; consequently it would still be three fourths too much, though we will agree to that price by common consent. This extra charge, and th back toll on Boats accending the Schuylkill Cana) are about on a par, and come as near the principles of shaving as Doctor Dvott's Manual Labor Bank. WILL BE FORFEITED BY DR. N. B. LEIDY for a preparation of Sarsaparilla equal to his MUDICATED EXTRACT OF SARSAPARILLA. It is positively the strongest preparation of Saysapa-rilla in existence. ONE BOTTLE is equal to SIX PINTS of any Syrup that is made, and is bought by nu

merous persons throughout the city and county fri making Syrup therefrom, and who will sell p at the rate of seventy five cents to one dollar per bottle (about half a pint. efficacy of Sarsaparilla is well known in Scrofn-ThIn or King's Ecil, Erysteelia Diseases of the Liver, Af-fictions of the Skin and Bones, Ullers of the Nose, Theory and Body, as well as an Antidote to Mercury

and the Minerals, Constitutional Discusses and a general Further of the Blood and Animal Fluids. Comment points of the income and infinite related comment upon its virtues is unnecessary. Every body knows its efficiely. It is only necessary when using it, to get a good preparation of it, and then there will be no dis appointment in its effects.

Dr. Leady would refer to the most respectable Physicome in I bilact h bra, as well is throughout the United States for the character of his preparation, as well also to the numerous certificates from physicians and wo there, that have been from time to time published now deemed unneressary as the character of his prep ra tion is firmly established .- Throughout the Southern States it is used altogether, and throughout the North takes the procedence over al others, paracularly among physi-

cians, who, for the benefit of the patients, always recommend it mend it Dr. Leidy can boast of as many effectual curves per-formed by his medicated Extract of Narsaparilla, as has

over been effected by any medicine in existence. The reader is referred to the directions accompany. ing each bottle, for recommendations, certificates and

further particulars. Remmerber one bottle, (half a pint) is equal to six pint of Syrup, and is equally pleasant to take.

FOR SALE. Fcb 20. The Bartram Botanic Garden.

SITUATE on the west side of the Schuylkill river, about half a mile below taining about twenty-four acres. Bounded on the west by Philadelphia, Wilmington, and Baltimore Railroad, and on the east by the river Schuylkill, on which it has a front of twelve hun-

The property is delightfully situated on the banks of the Schuvlkill, commanding a most picturesque view of its termination in the river Delaware ; and for the purpose for which it has been used during

the last century, is certainly one of the handsomest situations in the country of Philadelphia. For a cemetery it presents superior advantages. The grounds being already handsomely laid out and stocked with the best and largest variety of shrubbery and ornamental trees in the United States, will require little or no excense to convert into a place suitable for the purpose. The mansion house can, at a very triffing expense be converted into a chapel. And the extremely low price at which it will be of ferred for the purpose, will bring it within the reach of any one of the numerous religious bodies in the city of Philadelphia who want a place for burial.

The road being good it is easy of access at all seas-ons of the year. There is a good stone quarry, and excellent sand and gravel on the property. The improvements consist in a stone mansion house fronting on the river, a good barn, outbuild-

ings, tenant's house, and extensive green houses. A large and substantial wharf has been constructed on a portion of the river front, and there are materials convenient for filling up others. Its location for wharves for the purpose of shipping coal is probably superior to any other on the river : being below the Gray's Ferry Bridge, large vessels may load there without the risk of passing through the nar. row channel of the Bridge. The wharf already cau-structed can be renjed to good advantage, and the Garden having been so long established as a sum-mer retreat, as well as the whole river front being suitable for wharves, it is believed that sufficient may be rented off to pay a large proportion of the inlerest on its costs.

The greater part of the purchase money may remain on the mortgage on the premises for a number of years if required. For further particulas apply

to Mr. Carr, on the premises, or to ROBERT SMETHURST, 51 north Sixth street, below Arch,
