preserve the friendly intercourse which now so happily subsists with every foreign nation and that, although, of course, not well informed as to the state of any pending regociations with any Sovereigns, as well as in the mutual interests of our own and of the Governments with which our relations are most Intimate, a pleasing guaranty that the harmony so important to the interests of their subjects, as well as our citizens, will not be interrupted by the advancement of any claim, or prefension upon their part to which our hopor would not permit us to yield. Long the defender of my country's rights in the field, I trust that my fellow cutizens will not see in my earnest desire to preserve peace with foreign Powers any indication that their rights will ever be sacrificed, or the honor of the nation tarnished, by any admission on the part of their Chief

Magistrate unworthy of their former glory. In our intercourse with our Aboriginal neighbors. the same liberality and justice, which marked the course prescribed to me by two of my illustrious predecessors, when acting under their direction in the discharge of the duties of Superintendent and Commissioners, shall be strictly observed. 1 can conceive of no more sublime spectacle-none more likely to propitate ian impartial and common Creator, than a rigid adherence to the principles of justice on the part of a powerful nation in its transactions with a weaker and uncivilized people, whom circumstances have placed at its disposal.

Before concluding, fellow-citizens, 1 must say something to you on the subject of the parties at this time existing in our country. To me it appears perfectly clear, that the interest of that country requires that the violence of the spirit by which those parties are at this time governed, must be greatly mitigated, if not entirely extinguished, or conscquences will ensue which are appalling to be thought of. If parties in a Republic are necessary to secure a degree of vigilance sufficient to keep the public functionaries within the bounds of law and duty, at that point their usefulness ends. Beyond that, they become destructive of public virtue, the parents of a spirit antagonist to that of liberty, and eventually, its inevitable conqueror.

We have examples of Republics, where the love of country and of liberty, st one time, were the dominant passions of the whole mass of citizens. And yet, with the continuance of the name and forms of free Government, not a vestage of these qualities remaining in the bosom of any of its citisens. It was the beautiful remark of a distinguished English writer, that "in the Roman Senate, Octavius had a party, and Anthony a party, but the Commonwealth had none." Yet the senate continued to meet in the Temple of Liberty, to talk of the sacredness and heavity of the Commonwealth, and gaze at the statues of the elder Brutus and of the Curti and Decil. And the people assembled in forom, not as in the days of Camillus and the Scipios, to cast their free votes for annual Magistrates or pass apon the acts of the Senate, but to receive from the hands of the leaders of the respective par ties their share of the spoils, and to shout for one, or the other, as those collected in Gaul, or Egypt, and the Lesser Asia, woold turnish the larger dividend. The spirit of liberty had fled, and, avoiding the bodes of civilized man, had sought protection in the wilds of Schytlija or Scandinavia : and so under the operation of the same causes and influence, it will fly from our Capital and our forums. A calamity so awful, not only to our country but to the world, must be deprecated by every patriot; and every tendency to a state of things likely to produce It immediately checked. Such a tendency has existed-does exist. Always the friend of my countrymen, never their flatterer, it becomes my duty to say to them from this high place to which their rartiality has exalted me, that there exists in the land spirit hostile to their best interests-hostile to lib erty itself. It is a spirit contracted in its views, selfish in its object. It looks to the aggrandise. ment of a faw, even to the destruction of the inter-

est of the whole. The entire remedy in with the people. Some thing, however may be effected by the means which they have placed in my hands. It is union that we whole country-for the defence of its interests and clear as mud. There will be no war. "Stick a pin

Sorry, my dear, to refuse a lady so small a favor. But really, my young lady, you cannot write poetry. You appear to be a passionate admirer of Byron, and like most of his admirers, you fancy you have caught a spark of his celestial fire. It is a mistake-a sad mistake. Wash, stitch, ser, mend your father's or your brothers' old clothes, do any thing, in short, but write poetry.

THE INAUGURATION ADDRESS .-- We offer no apology for occupying so large a portion of the present number of the Miners' Journal with President Harrison's Inauguration Address, to the exclusion of our usual miscellany, &c. It is a document which should be in the hands of every American, and carefully preserved for future reference. It is an epitome of sound democratic principles, which are most ably applied to the abuses and corruptions of the administrations of Jackson and Van Buren. The style of this noble document is simple, forcible, and eloquent, and the sentiments which it contains, must find a ready and warm response from all who have the welfare of the republic at heart.

JUDGE BANKS,

We are pleased to learn, verbally, from Harrisburg, that the Democratic Convention on Wednesday last, nominated this gentleman, as the Democratic candidate for. UNPLEASANT COLLISION .--- We copy the following painful intelligence from the Philadelphia Inquirer of Thursday last:

. .

The mails of last night brought us several interesting items from Washington. A passenger informed the editor of the Baltimore Sun, that a painful and unpleasant scene occurred in the Senate on Tuesday evening between Mr. Clay, of Kentucky, and Mr. King, of Alabama. It is stated that during the debate on the resolution for the dismissal of Blair & Rives, elected printers to the Senate during the late session, Mr. Clay made some remarks derogatory to the character of Mr. Blair, and was responded to by Mr. King, who said that Mr. Blair's character was as good as Mr. Clay's. To this Mr. Clay replied, that any person who would say that, uttered a falshood, coupling the remark with an imputation of cowardice. Mr. King declined a verbal reply, sat down, wrote a note, and sent it to Mr. Clay, who returned an answer; and the Senate then broke up in great confusion.

The Washington correspondent of the Baltimore Clipper, gives a similar account thus :

In the course of the debate Mr. Clay thought propper to make some rather pointed romarks in relation to the personal character of Mr. Blair .- On this, Mr. King rose, and, pointing towards Mr. Clay, said the character of Mr. Blair was as good as that of the Senator. Mr. Clay replied, that the man who would say so was guilty of a falsehood, and a coward or words to that affect. Mr King said he had nothing more to say, but took his seat and wrote a note, which he handed to Mr Clayt. An answer was returned by the latter, and, without taking the question on the resolution, the Senate almost immediately adjourned. Letters from Washington, says the Baltimore American, refer to reports current in that city, that the British minister, in conformity with instructions. brought out by the Steamer President, had addressel a letter to Mr. Webster, containing a demand for the immediate liberation of McLeod. What reply was made, if any, is not stated. We learn that on Saturday a conference in person was held between Mr. Webster and Mr. Fox.

We learn from the Harrisburg Chronicle that Mr. Williams stated a fact in his'speech on Saturday last, that should be known to every man in the Commonwealth. He says and the documents prove it, that there has been expended for repairs on the Susquehanna, North and West Branch Divisions of the Pennsylvania Canal, since their completion, about nine hundred thousand dollars, while only about ONE HUNDRED THOUSAND DOLLARS have been received for tolls ? And those works cost about FIVE MILLIONS OF BOLLARS ! Is not this a startling fact.

The Berks and Schuylkill Journal states that a considerable lot of 5 dollar notes of the broken Commercial Bank of Millington; (Md.) has been put in circulation in the Borough of Reading. They are altered so as to read " Commercial Bank of Pennsylvania "-dated October 10, 1839, and signed G. Wharton, Cashier. C. Spackman, President.
