George F. L this season of the year, as an alterative and a purifier of the blood. It gives a tone and vigor to debilitated constitutions, which invalids are unconcious of until they have experienced its effects. It is also recommended in Diseases where the lungs and breast are supposed to be affected, and also where the constitution is broken down by the use of Mercury or Quinine; THIS MEDICINE has the singular fortune a

just tribute to its great merit, of being reccommended by the most celebrated Practitioners of Medicine in the United States and Europe; whereas not one of the spurious mixtures, made in imitation of it, has the least support from the Medical Faculty. This fact offers an argument so plain and conclusive, that it needs only to be mentioned to enforce conviction. Swaim's Panacea is recommended to all those invals for whom Physicians prescribe Sarsaparilla Syrs, Extracts, &c. Prepared at Swaim's Labaratory, Philadelphia. Sold by B. THE perfectly safe, unerring, and successful treat-ment of almost every species of disease by the use of MOFFAT'S LIFE MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. have come to the knowledge of Mr. Moffat, where the patient has, to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Mo-dicines-some eight or ten of these had been consider-ea beyond all hope by their medical attendants. Such happy results are a source of great pleasure to Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow-citizens. The LIFE MEDICINES are a purely VEGETABLE preparation. They are mild and pleasant in their ope-ration, and at the same time thorough-acting rapidly upon the secretions of the system--carrying off all acri-moneus humors, and assimilaring with and purifying the blobd. For this reason, in aggravated cases of Dyspepsia, the Life Medicines will give relief in a shor ter space of time than any other prescription. In fover
