We're getting quite poetical, We people of the papers, Repecially we trumpeters Are culting some queer capers, One of us seems to be in love. And writes to dear Miss Dash-All sorts of soft and tender things, And some things rather rash.

He kinder sorter loves the girl And then he corter don't, And seems to sometimes think he will, And then conclude he won't: A curious sort of way he's in.

Especially of late;
And doe'nt ask her for her love
Nor "depredate her hate." The things young men in love will do

Are very often puzzles: One gets quite melancholy, and Another champagne guzzles, And some will poetise a girl Whether she like or lump it, And put their most bewitching strains In our two penny Trumpet.

I'd like to ree the pretty she, Would set my heart a bumping And keep that curious lump of flesh Against my liver thumping, Taking away my appetite And such a rumque making, And setting all my inward parts

A shivering and shaking.

I say that I would like to see That petticoated creature, For she must all perfection be, Angel in form and feature, A marvel and a mystery, The world's ninth greatest wonder: And when I come across that girl I'll marry her by thunder!

SCRAPS FROM THE RICHMOND STAR. The editor of the Mobile Register, flurried by the near approach of our dear FANNY, comes out plainly, and avows his desire to see her flirt her heels.' His aspirations are too modest, by rather more than half, and the heels will be the least of his gratification when he comes to gazo upon the graceful exhibitions of the beautiful Fan-kiee.

January 2, SWAIM'S VERMIFUGE The most useful Family Medicine ever of fered to the Public.

HIS well known Anti-Dysenteric and Worm Med-

icine has proved successfully these twelve years past, and is universally acknowledged by all who have tried it, to be far superior to any other medicine ever employed in the diseases for which it is recommended It is perfectly safe, and no child will refuse to take it. Worms being especially apt to infest persons of debilstated digestive organs and emaciated constitutions much mischief is often done by the ordinary worm med-icines, which generally consists of the strongest purgatives, calomel, that destroyed of the constitution, bitters, pink root, spirits of turpentine, wormseed oil &c. &c. Articles of this kind may destroy worms, but they debilitate the stomoch, and often materially injure the general health, without removing the cause. Swaim's Vermifuge has the peculiar advantage of removing the general health, without removing the cause. Swaim's Vermifuge has the peculiar advantage of removing the cause of the worms, by giving vigour and healthy action to the stomach, bowels and organs of digestion, thereby relieving measles, croup, hooping cough, &c. This relieving measles, croup, hooping cough, &c. This medicit e, by invigorating the internal functions strengtiening the organs of digestion, and removing the primary Cause which creates morbid secretions, will relieve Bowel Complaints Cholic, Dysentery, Despensia, and the whole train of biliary affections, Sick Headache, Acidity of the Stomach, Foul Breath, Bleeding Piles, &c. It is an antidotein the early stage of Fever and Cholera Morbus.

As general Family Medicine, it stands unrivaled, as

the applicable to most of the diseases to which children are subject. Swam's Vermituge will be found of some utility to persons who occasionally indulge in the con-vivality of the table; a dose taken before dinner will anticipate the effects of acidity of the stomach, not unfrequently produced by wine. In the neglect of this however, a dose in the morning or the following morning will, in most instances, restore the tone of the Stom

Families resident in the country, and insolated in rannies resource to the country, and insolated in a measure from medical advice, travellers journeying to the far west, or bound to distant ports, seminaries and all public institutions and charitable associations will find this remedy, constantly at hand, of great utility.

SITUATE on the west side of the Schuylkill river, about half a mile below the new bridge at Gray's Ferry; containing about twenty-four acres. Bounda on the west by Philadelphia, Wilmington, and Raltimore Railroad, and on the east by the river Schuylkill, on which it has a front of twelle hun-

The property is delightfully situated on the banks of the Schuylkill, commanding a most picturesque iew of its termination in the river Delaware; and for the purpose for which it has been, used during the last century, is certainly one of the handsomes situations in the county of Philadelphia.

For a cometery it presents superior advantages. The grounds being already handsomely laid out and stocked with the best and largest variety of shrub bery and ornamental trees in the United States, will require little or no expense to convert into a place suitable for the purpose. The mansion house can. at a very trifling expense be converted into a chapel And the extremely low price at which it will be of ferred for the purpose, will bring it within the reach of any one of the numerous religious bodies in the city of Philadelphia who want a place for burial The road being good it is easy of access at all seasone of the year. There is a good stone quarry, and

excellent sand and gravel on the property. The improvements consist in a stone mansion nouse fronting on the river, a good barn, outbuild ings, tenant's house, and extensive green houses A large and substantial wharf has been constructed on a portion of the river front, and there are mate rials convenient for filling up others. Its location for wharves for the purpose of shipping coal is prob ably superior to any other on the river : being below the Gray's Ferry Bridge, large vessels may load there without the risk of passing through the nar row channel of the Bridge. The wharf already canstructed can be rented to good advantage, and the Garden having been to long established as a summer retreat, as well as the whole river front being suitable for wharves, it is believed that sufficien may be rented off to pay a large proportion of the in

terest on its costs. The greater part of the purchase money may remain on the mortgage on the premises for a number of years if required. For further particulas apple Mr. Carr, on the premises, or to
