ENLARGEMENT OF THE MINERS' JOURNAL.—Not to be behind the spirit of the times, or the spirit of the age, we have determined to enlarge the MINERS' JOURNAL to a double medium size, and otherwise improve its appearance so as to render it still more acceptable to our friends and patrons.

The MINERS' JOURNAL will be enlarged at the commencement of the next volume, and furnished to subscribers at the old price, but invariably in advance it will be printed on good white paper, and every attention paid to its typographical appearance.

De Torqueville in his great philosophical work on this country, says that the effect—as to be attributed to the vast number of newspapers published in the United States. De Torqueville is right. In all humility he said, we are an intelligent people, and to our newspapers are we indebted for a portion of such knowledge as we may possess.

Mr. BIDDLE'S THIRD LETTER.—Mr. Biddle's third letter, relative to the United States Bank, has made its appearance. In his two former letters he acted entirely on the defensive; but in this epistle which may be considered the coup de grace to the whole controversy—he has completely changed his mode of tactics.

Without meaning to give any opinion about that case, the simple fact that the Bank had just brought suit against Mr. Charles Massey, was of itself sufficient to prevent his being a member of that Committee of Investigation.

Mr. Biddle complains that the Committee of Investigation can find no cause, reason, or transaction, to account for the present prostration of the Bank, that is not two years old.

The Board of Directors passed resolutions authorizing the Exchange Committee to make investments at any rate of interest not less than four and half per cent.

Who was this Committee? What Directors were they, so lost to their duty as not to have examined these things and exposed them? Who, above all, was the Chairman of that Committee, the natural leader of the reform?

Mr. Biddle says that in June, 1838, every item of the different loans of the Bank, besides its cotton operations, was placed before a Committee whose business duty it was to examine them.

FIFTEEN DAYS LATER FROM EUROPE.—The steamship Columbia arrived at Boston on Monday evening last from Liverpool, whence she sailed on the 4th instant.

The excitement in England about American affairs had in a measure subsided. Of course nothing later from China. Tears continue firm.

Trade is in a languishing condition. The cotton market, at the last accounts, was inactive, and the prices have declined slightly.

ALL SORTS OF ITEMS. About 200 Florida Indians left New Orleans on the 4th inst. for West Arkansas.

The Pittsburg Gazette of the 15th inst. says—The rivers continue in fine order and steamboats arrive and depart in quick succession.

We regret to learn that in consequence of the delicate state of his health, Joseph C. Neal, Esq., editor of the Pennsylvania, is on his way to Europe, where he will spend some time.

PRESIDENT TYLER.—Since Mr. Tyler's accession to the office of President, his reply to the Committee of the Harrisburg Convention, communicating to him his nomination to the office of Vice President, is very naturally brought up for review.

WILLIAMSBURG, Va., Dec. 16, 1839. GENTLEMEN.—The nomination which, as the organs of the late Harrisburg Convention, you have communicated to me is accepted, with a sensibility greatly augmented by the fact that, whilst it is a result in no way contemplated by me, it is attended with the unanimous concurrence of that enlightened and patriotic body.
