

POTTSVILLE.

SATURDAY MORNING, NOVEMBER 27

The Reading Railroad, High and Low Fares.

Mr. Norris's Guarantees, &c. The Reading Railroad is rapidly advancing to a state of completion.

It is the manifest interest as well as the duty of all who have the control or management of any great public or private work, to avail themselves of the lights of experience, and to pursue such a line of policy, which, while it benefits the community at large, promotes the interests that are bound to protect.

The fare between Pottsville and Philadelphia, by the railroad, should be placed at as low a sum as \$3, which is only a reduction of \$1.50 from the present rates.

The Depot which the Company are now building at Mount Carbon, will be finished in the course of a few weeks.

DEAR SIR:—In reply to your request for information as to the ability of my locomotives in their possession, on the Reading Rail Road, I have the pleasure of stating that my class B (the size of those in daily use on the Philadelphia and Baltimore, and the Baltimore and Washington, and various other roads) can, with every facility, do the following duty, per annum.

Table with 2 columns: Item and Amount. Includes 'One hundred and fifty trips from the Coal region to Philadelphia', 'The annual cost of maintaining one locomotive and tender', 'Repairs and depreciation of Engine and Tender'.

Thus showing that one of my locomotives of class B can, at a cost of \$5,000, per annum, (all charges included) transport from Pottsville to Philadelphia 30,000 tons of coal, per annum, which will give but 16 1/2 cents as cost of motive power, per ton, for the whole line of 94 miles, including the taking back of the empty cars.

I am so well assured of the above facts, from the performance of my machines during the last three years, that I WILL GUARANTEE ALL I HAVE SAID ABOVE, provided I have the selection and charge of the Engine-men.

Yours, very respectfully, WILLIAM NORRIS.

Portrait Painting.—A few days since, we passed half an hour, or thereabouts, in the most pleasant and agreeable manner, in the painting room of Mr. Earle, at the residence of his brother, on Centre street.

LORD MONTEITH is now in New York. The Gothams are vying with each other in showing to this distinguished stranger every mark of attention.

It takes a Yankee!—The New York American says that one of the largest merchant vessels of that city has been loaded with an entire cargo of beef, pork, tongues, butter and cheese, for England, and that the "advertising" will pay a profit.

OVERTRADING AND SPECULATION.—That there has been quite enough of overtrading and speculation since the year 1833, neither party, we believe, pretends to deny; but how such a state of things has arisen, it becomes men of all parties to inquire.

The majority of the commercial and trading classes, as well as the farmers, the mechanics, and the laboring portion of the community, throughout every city, town and village of this vast republic, know full well, and prior to the year 1833, we had a sound, uniform currency, that the difference of exchange between the furthest Southern, and the most Eastern, Northern or Western extremity, scarcely varying one per cent, and business every where prosperous.

The age of experiments had not at that time commenced. The jet bank system was, however, shortly afterwards established. New charters were soon thereafter granted for the formation of innumerable banking institutions in every State of the Union, banking institutions in every State of the Union, banking institutions in every State of the Union, banking institutions in every State of the Union.

When "the greatest and best" retired from the Presidential chair, he, in his farewell address, congratulated his fellow citizens upon the success of his experiments, in improving the currency of the country, and that he left the people "prosperous and happy."

The banks, throughout the country, suspended specie payments. "Overtrading and speculation" was thereafter the "war whoop" of the administration party.

The cruel and disgusting story started by an Eastern paper, that the late President died by poison, is thus effectually put at rest by the Cincinnati Republican:

We are authorized by the Committee who were appointed by the citizens of Cincinnati to remove the remains of our lamented President, from Washington to North Bend, to say that the statement in the New England Review is false, and entirely without foundation.

WISCONSIN.—The following extract from the Grand Gulf (Miss.) Advertiser, of the day before election, will show the arguments by virtue of which Locofreedom has triumphed in that State.

WESTERN MIXING.—The Galena, Ill. Advertiser of the 6th mentions the arrival at that place of two loads of copper from the mines of Mineral Point, Wisconsin, which it adds are destined at no distant day to be a source of large income to the Territory.

A GREAT SNOW STORM.—The South Bend, (Ind.) Free Press gives an account of a great snow storm which fell in that vicinity the latter part of October.

LORD MONTEITH is now in New York. The Gothams are vying with each other in showing to this distinguished stranger every mark of attention.

Answer next week. PRESIDENT TYLER'S FISCAL AGENT.—A Washington correspondent of the New York Express says:—The country is now to be on tip-toe for the fiscal agency schemes of the President, to which he was pledged in his last Veto Message.

LONDON BROWN STREET.—E. Q. & A. Henderson, and that he left the people "prosperous and happy." President Van Buren comes into power and he found the country as President Jackson had left it, prosperous and happy; but being always partial to banks and the paper system, and to speculation, he appeared to be as unconscious a child of ten years old, of the evils the administration were inflicting upon the people's prosperity.

"A FRIEND TO JUSTICE" is inadmissible; although in his hands, "Justice" will most assuredly receive her full due. We are ten-times more than ever impressed with her everlasting qualities:

She is immutable, immaculate, And immortal! And though all the guilty Globe should blaze, she will spring up amid the cracking pile, with not a downy feather Ruffled by its fierceness!

WOOD, GRAIN, and all other kinds of marking, will be received in payment for subscription to this paper.—Williamsport Empirion.

What's in a name?—The friends of Gen. Scott have dubbed the hero of Chippewa, "Old Chips." Such a name is enough to ruin any man or any party's prospects. "Old Chips," farewell!

THE ANTI-BURN PAYING PARTY have carried Mississippi by about 2000 majority.

THE WEATHER, on Tuesday and Wednesday last, was glorious. Cool, clear, and bracing.

THE TOWANDA BANK is still in bad odor. Wonder who will eventually suffer by its issues!

HUMBUNG.—The word "humbung" is a great word. You may say what you like of any body you dislike, if you only know how to use the word "humbung."

THE BARBER.—We like to encourage modest worth, and therefore would recommend our old friend, W. H. Sumers, to the patronage of the public, although he has some dark shades in his character.

THE RICHMOND SHERIFF is the title of a new paper published in the Capital of the "Old Dominion." It is a hot and spicy affair. Take the following as a specimen of its quality:

SINGLE BLENDERS.—There is good advice in the following. All ye who are spinning (or the conundrum state, read, and take warning!

ANSWER TO THE GEOGRAPHICAL ENIGMA of last week:—Gilbert Motier De Lafayette. SOLUTIONS:—Elba, Tugay, Lima, Toledo, Alon, Tralee, Rome, Fayette, Bilbon, Goya, Tete, Dog, Bisira, Abo, Arabia, Red, Italy, Alabama, Aral, Georgia, Oly, May, Florida.

HEAVY LOSS.—A Mr. Richardson, of Cincinnati, on his way to New Orleans, a short time since, lost his money bag, containing \$22,500. Poor fellow!

FOREIGN NEWS.—The foreign news brought by the Calcedonia at Boston, is not worth two straws. The Prince of Wales has not yet arrived.

PIEPES, of the St. Louis Penitentiary, has tender sensibilities. Passing a slaughter-house, the other day, he exclaimed, "this is an awful sight!"

GO WAY, NIGGER!—The town of Townsend, in the old Bay State, has elected a colored man to the Legislature.

DR. LARDNER is lecturing to crowded houses in New York. Right.

THE TOWANDA BANK is still in bad odor. Wonder who will eventually suffer by its issues!

THE CALCEDONIA brought out 14,000 letters.

All Sorts of Items.

Poor Dixon H. Lewis, of Alabama, is dead! We might have better adopted a better man.

The trial of the Hon. Charles F. Michell, for forgery, terminated at New York on Tuesday last. After an absence of two hours and a quarter, the jury returned into Court with a verdict of GUILTY—one of the jurors recommending the prisoner to mercy.

Bulwer has renounced novel writing. "Mind your own business."

THE BOSTON POST relates the following conversation between the two of the Tremont and one of the company:—Gilbert is continually poking fun at the manager, Andrews, reading of Eclesiastes' liberality at the Catholic Fair, observed: "Well, really, this woman seems to be full of the milk of human kindness."

THE PRINCE OF JOINVILLE will take his departure from our shores in a few days. In the meantime, he is to be dined, balled, and feted, both in Boston and New York.

THE IMPORTATION of boots and shoes into the United States, from France and Germany, is greatly on the increase.

FLOUR AT NEW YORK, \$ 6 75. The Great Western took out \$ 200,000 in specie. The R. V. W. G. Jackson has been appointed a Chaplain in the U. S. Navy.

THE POPULATION of Great Britain and Ireland, according to the late census, is 26,856,028 souls.

THE GREAT WESTERN took out only 30 and the Britannia 18 passengers. The Atlantic steamships will eventually be obliged to discontinue the use of bituminous coal for fuel.

THE WARREN (O.) CHRONICLE says:—On Friday last, a flock of over one thousand merino sheep passed through our village, on their way to Illinois.

THE LOSS OF PROPERTY by the late fire in Vicksburg is estimated at \$ 60,000.
