trol of the Eastern Coal markets to Great Britain. unanimously in favor of protecting American Abaission of TEXAS INTO THE UNION-Mr. King, of Alabama, has presented to the U. S. Senate the joint resolutions which passed the behold the immense capital no a invested in this Legislature of Alabama, in favor of admitting Texas into the Union. Texas is destined to become a great Cotton growing country, and the South is fearful that commercial relations may be entered into between Great Britain and Texas, that may materially interfere with their Cotton trade. Hence this movement in favor of the been discovered which can be compared with our admission of Texas into the Union.

Are our Colliers prepared to meet these great changes which will inevitably result from this great reduction of duty ? Will they await supinely the effects of the Compromise Act, and

region, lost to the present owners beyon 1 a hope of redemption-our flourishing towns and villages, embosomed among our mountains, sink into decay and ruin-and the whole population reduced to a state of comparative poverty, from the great reduction that must inevitably take place in their wages, to meet this state of things ? We trust not-and it is therefore to be hoped that

there will be a general turn out of the region on Monday evening next, to appoint Delegates to the Harrisburg State Convention, and expres their opinion with regard to the effects the reduc t on of duty will have upon the long-cherished and dearest interests of this community.

DERADETL MURDER AT READING .- We learn that a shocking murder was committed at Reading, on Sunday last. We have gleaned the fol-Iowing particulars: on Saturday a man and wo man arrived at that place in the Cars--took lodgings at a tavern in the suburbs-On Sunday morning they walked out together --- shortly after which the man returned alone. This, together with the unsatisfactory excuse he gave for the disappearance of the woman, excited suspicion -search was made, and the next day the lifeless lar Judge. body of the woman was found secreted in a field near Reading, with marks of violence on her person, and her head bruised in a most shocking manner. The murderer has so far escaped detection, but a person seen with him has been arrested and committed to prison.

NEW LOCOMOTIVE .- The Philadelphia and Pottsville Railroad Company have procured another Locom tive of the larger class for Coal transportation, from the establishment of Messrs. Baldwin, Vail & Hufty. The North American says that it differs from the other engines essentially in its form and power. The driving wheels are under the engineer's platform, and the motion is extended to the after wheels by a shaft connecting one with the other. The locomotive possesses extraordinary power and is somewhat movel, as it is new in its construction.

Judge Parsons, of this district, has been ted Secretary of State, by Governor Porter, in the place of Francis R. Shunk, Esq., between whom and the Governor there appears to have been a misunderstanding. E. W. Hutter, Esq., has been appointed Dep-

uty Secretary of the Commonwealth, in place of Mr. Petriken.

HENRY CLAY-We regret to learn from Washington, that this distinguished Statesman contemplates retiring from the United States Benate, as soon as he records his vote against a Tyler Meeting, held in Philadelphia on Monday repeal of that humane and merciful Bill, the Bankrupt Law.

The New York Aurora comes to us with it dimensions considerably enlarged --- and improved, we were going to say-but that is impossible Nichols, is a glorious fellow for fun.

Merrick & Towne, of Philadelphia, have contracted to build the Engines for the new Government Steamer, to be constitucted with Erickson's propellers.

Inconnect .- The report that the Lehigh Coal Company had leased the Morris Canal for the ter. present year.

J. Orville Taylor is lecturing in Philadelphia on his favorite subject, Education.

URE'S DICTIONARY OF ARTS AND SCIENCES. -An opportunity is now offered to place this seful work within the reach of all those who ought to be acquainted with the Arts and Sciences of the civilized nations, together with a large mass of other interesting information worthy the attention of manufacturers, mechanics, and the Congress: man of leisure. It is proposed to issue it in a series of 21 numbers, at 25 cents per number .---The English edition of this work is selling for

office. See prospectus in another column. CONSUMPTION OF COAL IN |RON WORKS .-We learn that one single Iron establishment beween this place and Philadelphia, will (should this branch of business be sufficiently protected from foreign competition) require about fifteen thousand tons of Anthracite Goal the ensuing year, for refining and mauufacturing Iron.

If the property holders in Pottsville, purchase their Furniture, Clothing, Grocerics, &c. in Philadelphia, and drive out our mechanics and traders, even admitting that they can procure those articles a little cheaper, would they not lose four times as much as they saved on these articles, by the depreciation of the value of their property ?

Let every property holder in Pottsville, either Resolved. That in the opinion of this meeting in or out of business, remember that it is his inthe Coal lands of Schuylkill county in general, are terest to encourage home productions. Our traalready assessed as high, if not higher, then any lands in the Commonwealth ; although said lands the place, and have claims upon the support of for this disastrous state of affairs ? without the Coal would perhaps not be worth one the community, that persons at a distance candollar per acre; and also that twenty-five cents per not have.

A resolution has passed the Senate of Ohio requiring the Banks of that State to resume spe cie payments on the 4th of March next. Th Banks of Maryland prefer waiting until the 1st of August before they resume.

It is the mechanical and manufacturing interests that build up every inland town. It therefore becomes the duty of our citizens to foster, protect, and support these interests at home, if they wish the place to flourish and increase in population.

The machinery of the Steamer Mississippi, has peen tried, and works well.

THE YOUNG PEOPLE'S BOOK .- The object

this work, says the Charleston Courier, in a highly complimentary notice, is " to interest and instruct young people in every branch of knowledge, as well as for the cultivation of the intellect as the conduct of life, by presenting it to them in a familiar and popular shape, and especially to inspire them with a national spirit, by inculcating the duties which every American scholar owes to his country, and by exhibiting the capabilities of early history, our traditions,

Subscriptions procured at this and party denunciations. Affliction has chastened them ; real and deep-felt suffering has corrected the false taste which has so long endured this vituperative slang. Party leaders are beginning to lose their consequence in the public eye. Men feel the necessity of deliberate councils, sober wisdom, and honest devotion to duty in those who are entrusted with authority."

Sound the ALARM .- The present duty on foreign Coal is about \$ 1 26 per ton. On the 30th of June next, it will be reduced to about 40 cents per ton, making a reduction of EIGHTY-SIX CENTS, about the present average price of mining a ton of Coal in this region. To compete successfully with the foreign article, a reduction of nearly one dollar per toa must take place in our staple-which on 600,000 tons of Cosl, would amount to about six hundred thousand dollars per annum, nearly all of which will be drawn from the wages of labor, and lost to the ders contributes to all the public institutions of region. Miners and laborers, are rou prepared
