Arrival of the Britania at Boston-thirty | T7 POTISVILLE ATHENIAN INSTItle the difficulties between the two Coun-

The Steamer Britannia arrived at Boston, on Sunday last. The news is interesting and important, particularly the financial and commercial, which show a much more favorable aspect there was generally anticipated. We glean the following from our exchange papers, principally the N. Y. Sun.

Foremost in importance is the intelligence of the appointment of Lord Ashburton as a special Minister to the United States for the purpose of entering into negociations for the final settlement of all difficulties between the two countries. The repudiation doctrines about which so much

has been said in this country, caused no excitement whatever in London. The papers scarcely alluded to the sul jeet at all.

In the grain and flour market, it will be seen that prices had fallen off.

There is nothing later from China than has been received direct at this port. The boisterous weather on the English coast had prevented the packets from leaving at their appointed time. The England did not sail till

The Great Western reached Bristol on the 16th of December, having made the voyage in thirteen days. The Roscius on the 15th, after a passage of eighteen days. The Calcdonia on the 16th, in eleven days from Hulifax. The Acadia on the 31st, in the same time.

the 18th. There had been several shipwrecks

The attention shown to Lord Morpeth in this country are spoken of by the English press, especially the more liberal portion, with much pleasure. The Liverpool Chronicle remarks, in reference to the sentiments expressed at the dinner given to his lordship here, that "they will go far to neutralise the irritation and bad feeling engendered by a few-thank heaven that they are but few !- puny and malicious scribblers on this side of the water, who delight in representing the Americans as being every thing that is mean, dishonest, and infamous."

LORD MORPETH AND THE REPRESENTATION OF DUBLIN.... The Liberals of the city of Dublin have determined to bring forward Lord Morpeth as a canditate for that city, in the place of the late amiable and lamented conservative member, Mr. West, who died last week, after a very short illness. If they had sought the whole empire through they could not have found a man more likely to succeed, or more deserving of success. The message of President Tyler had been received, and read with much interest and satisfaction. Its pacific tone caused an immediate rise

in the funds. Among the passengers in the Britannia are Mr. Charles Dickens, the celebrated author, and his lady; Mr. Mosely, bearer of despatches, and

Earl Mulgrave. . The news from Turkey and the East indicate further disturbances. There has been a change of ministry at Constantinople.

The French Chambers were opened by a speech from the King on the 25th ult. Every thing was quiet at Paris, and the reduction of the army

was progressing. There had been several frightful railroad accidents in England, attended with extensive loss

Western Railway, was suddenly arrested by coming in contact with a mass of the embankment, that had fallen upon the rails at the deep cutting | The Moor of Venice, in the act of Stabbing Des called the gutter. A frightful scene occurred. The engine, tender, and cars were dashed to

atoms; eight passengers were instantly killed, and fifteen or twenty very seriously, some of them Harriet, Joseph, the Virgin and Child, Alexander, mortally wounded. They were mostly industrious laborers and mechanics.

STATE OF TRADE, MANUFAUTURES, &c .says; "The improvement which we noticed in our last, in the feeling of all parties connected with the commerce and manufectures of this districts continues, we are happy to state, to animate our various markets. The arrival of the New York packet ship Independence, with accounts of a generally favorable nature with respect to the prospects of business in the United States, during the ensuing season, added to the pacific tone of President Tyler's message to Congress, has infused considerable confidence into the minds of parties connected with the trade of those important markets; and besides, the prospects which present themselves on every side, of increased demand from foreign markets generally, the position of the Bank of England to afford facilities for, or at least to refrain from contracting the operations of our merchants, is viewed as highly favorable, when compared with its position for some years past.

WAX FIGURES .- The Wax Figures now exhibiting at the Town Hall, by Mrs. Schenk, are worth seeing. They are well executed, particularly a Miner in his full regalin, which Mrs. S. has added to her collection within a few days .-The price of admittance is so small, that all can go, see, and judge for themselves.

The Harrisburg Chronicle takes strong ground a gainst the tax on Coal.—Fenn. Inq. So will every other person who understands the true interests of the State.

a letter in which he says two of his daughters had suffered severely with an obstinate cough, frequent pains in the breast, &c., and appeared be going into a rapid decline. By the use of few bottles of this medicine they have entirely ecovered and now enjoy excellent health.

Asthma Cured.—Mr. Jacob Enyder has auhorized us to say that he was afflicted with this annoying complaint for several years and had

constant wheezing, a troublesome Cough, Spitting of Phlegm, Pain in the Chest, and sometimes in the region of the Heart, and nothing else ever gave him relief. Chronic Cough .- Mr. Isaac Rogers was also

afflicted with an obstinate Cough, originating from a disease of the Lungs and Chest, and never found any thing to give him relief but this Balsam.
Such in fact is the nature and simplicity of this medicine, and so extraordinary have been many of the cures it has performed, that it has already attained the highest reputation, and al-

though scarce two years have elapsed since it was first made public, we can proudly say, its fame has spread in every direction, and it is rapidly acquiring a celebrity unequalled by any nedicine ever offered to public notice.

DRUGGISTS AND DEALERS In every section of the country, will find this

medicine an important and valuable addition to their stock, and should
ALWAYS KEEP IT ON HAND, As it is not in our power to place it within the reach of all those afflicted, and there are doubtless; thousand suffering who would resort to it for relief if they could obtain it conveniently. To Be particular when you purchase, to ask for Dr. Wistar's Balsan of Wild Cherry, as there is an article called the "Syaur or WILD CHERRY," advertised, which is entirely a differ-
