So saying Major Fitzconnel bounced out of the chamber, hastened to the bar and called the landlord His interesting bride followed on tiptoe, and listened unobserved. The Major inquired at what hour the mail stage would pass by for New York.' About midnight.' was the reply. Please to secure me a scat,' said the Major, and let me be wakened at the proper hour.' the major paid for seat. The major and his bride retired to separate chambers; the former was soon locked in the arms of sleep, but the latter expelled the drowsy god from her eyelids. When she heard the stage drive up to the door of the inn, she hastily rose, and having previously made up her bundle, without which a tady never steals a march, hastened down stairs. This is a good story told about a steamboat captain, says the Cincinnati Message, which is altogether too good to be lost. The captain had become popular on the river as a commander, and was about to take charge of a new boat, one of the handsomest that ever was built in the west. to leave port, he was induced by one of the plication at the Miners Journal office. owners to visit his house, where there was to be a party of ladies, some of whom were to be his passengers to New Orleans. The captain felt a little queer about going; he was more at home on the hurricane deck, or the social hall of his boat, than in the drawing room among ladies.introduced to the company. Capt. D. said one of his lady passengers, you must be a happy man, to be master of so beautiful a boat." She is a beautiful boat madam - sets on the water like a duck.' He was in town,' as long as the conversation was about steamboats. Capt. D. P. M. said another lady, a blue-stocking of the Lady ville in time to take Stage for Shamokin, Sunmortal Shakspeare?' INFLUENCE OF RAILWAYS IN DEVELOPING THE MINERAL RESOURCES OF A COUNTRY. - OH our recent trip to Darlington, at the opening of the Great North of England Railroad, the probable influence of that undertaking on the commercial interest of the districts through which it passes was naturally a subject of inquiry. While optaining information as to this point, in reference . to the line just completed, we learned a number of facts in relation to several of the previously existing northern railways, which appear worthy of being recorded to illustrate the power of the great means of communication to develope the resources of a country. Before the opening of the Stockton and Darlington Railway, the export trade in coals might be said to be confined to the rivers Tyne and Wear. That railway was originated chiefly in order to supply the wants of the district it traverses in reference to fuel: and the estimate then made of the probable quantity of coals which would pass along the line, was, that there would be 80,000 tons for the neighborhood, and 10,000 for exports annually. The number of tons now carried by the company is, for the neighboring districts, 180 000 tons; for exportation, 560,000 tons yearly. In the mean time, the Clarence Railway, terminating on the Tees, has been brought iuto operation, and contributes to the coals exporiuto operation, and contributes to the coals exported probably not less than 150,000 tons per annum. At a later period the Marquis of Londonderry constructed his harbor of Scaham, a port about four miles south of Sunderland; it is difficult to state the quantity thence exported yearly. but it probably exceeds 300,000 tons. At a still more recent period, the ancient fishing town of Hartlepool has become the scene of the export of a still larger quantity. How striking is the contrast between the state of Durham at the present time; and at the period when Domesday Book was compiled! The amount of money annually received within 30 miles of Darlington, for coals alone, may be roughly stated at four millions sterling (of course this area embraces Newcastle and its vicinity;) but a large proportion of this enormous revenue flows into that country, of which nothing better could be said by the surveyors of William the Conqueror, than "Durham is waste." -Leids Mercury.

The above medicine has proved itself one of the effications ever employed in the above affections. It is well known by thousaids, but, in order to make it more generally known, the proprietor thinks it necessary to publish the following proofs, which constitute but a small portion of the testimony that might be adduced in proof of its efficacy.

Throughout Germany it is used and employed more than any other preparation for Colds, &c., and there so well known for its efficacy, that they call it the "IFE PRESERVER." Price 50 cents a bottle, (half pint)

Dear Sir :- I should consider it ungrateful, if did not inform you (and with my consent allow you to publish this,) that after having tried by the recommendation of my friends, almost every kind of medi-cine for coughe, colds, &c... I never found relief until lately having used Dr. Bechter's Pulmonary Presersative, recommended to me by your agent in this place, and which cured me of a violent cough, spitt ing of blood, pain in my breast, and shortness of breath, with all of which I have been afflicted for two ears past. I am now however enjoying as good health as ever, and owe my recovery to the above valuable

DR. LEIEY, at Philadelphia.

Respected Sir:—I was much pleased after my arrival in this country, to find that Dr. Bechter's valuable preparation, so long successfully used in many parts of Germany, is no x prepared by you. I have seen many wonderful cures made by it in the old country. Many persons whose lungs were supposed to be almost entirely destroyed, and pronounced incurable, have been restored to good health by it. I know where one case was beyond the hopes of ever recovering, and was for years helpless, and confined to bed without being able to sit up, but was raised by the wonderful effects of Dr. Bechter's Pulmonary Preservative, and so fir cured as to be able to ride by the wonderful effects of Dr. Bechter's Pulmonary Preservative, and so far cured as to be able to rude and walk about A great many instances have been cured in the various Pulmonary affections, and I myself have received great benefit from it, both here and in my own native country. I hope it may be as successful in this country as at has been in Germany. When oroperly known no family will be with-When properly known no family will be with-

WINSLOW Rochester, N. Y. THE innocence and universally admitted pectoral virtues of the Herbs from which the BALSAM OF HOREHOUND is made, are too generally known to require recommendation: it is therefore only necessary to observe that this Medicine contains the whole of their Medicinal properties, highly concen-trated and so happily combined with several other vegetable substances, as to render it the most speedy. mild and certain remedy, now in use, for the com-plaints above mentioned.

ANOTHER FACT.

Mr. Winslow—Sir: Having derived the most astonishing benefit, by the use of your "Balsam of Horehound," I am anxious in some way, to aid in extending ts benefits to others, and will therefore state the facts in my own case. In January last, I had been afflicted with an alarming Cough and Bleeding at the amicted with an alarming Cough and Bleeding at the Lungs, for nearly five months, during which time I used every thing almost, recommended in similar cases, but found little or no relief. Having given up my business entirely, and by the advise of Physicians made preparation to go South as soon as practicable, I was advised to make trial of the above Medicine, and to my great surprise, found almost in-stant relief, and by using only four bottles was entirely restored to health

INDIAN VEGETABLE PILLS, Of the North American College of Health. As

appears by the following circumstances, are fast superseding the use of all other l'ills as a UNIVERSAL REMEDY, for the purification of the bloud, and as a consequence, the eradication of DISEASE from the HUMAN SYSTEM THOMAS & JAMES BEATTY.

AVING been duly appointed County Agent for the sale, in large or small quantities, of the named article, suggest the following as strong presumptive proof, that the claim of this medicine to public confidence, is founded on unquestionable and we believe, unquestionable au. Letter from Mr. Camfield, Travelling Agent

for the United States.

Messrs. T & J. BEATTY. I herewith enclose for your service in the way of advertising, the notice of Stichter & Mc-Knight, successors to Keim & Stichter, Read. ing, who are agents for Brandreth Pills, and perhaps for others. You will perceive the form of their language, under these circumstances, and my business is to apprise you of the testimo. ny which the gentlemen to whom they refer have already given,—four of them prior to the n-terence, and one, Mr. G. H. Miller, since the reference, but without being informed of it by

me, or in any manner alluding to it. STICHTER & M'KNGHT, (as successors tolkem & Stichter, Reading.) having been duly appoint ed county agents for the excellent and superior medicine above named, are now prepared to supply the demands of former agencies, and will be gratified by the appointment and supply of new ones, on the usual liberal terms.

"For the character of these pills, we refer with confidence, but without asked consent, to the following named gentlemen, who have sold them long enough to know their true value, in comparison with any others now in market.-Their relative location gives every facility to the

inquirer who desires to obtain, either for sale or use, a first rate article." To take them in consecutive order, then Mr. C. W. Porter, P. M., Maiden Creek, Jan. 26, took of me on commission, 6 doz. Since that time, be purchased of K: & S. Reading 6 dezen. and on the 4th inst. took 6 dozen of me, staing, that he never had a medicine which brought back so good a report, nor one which had so ready a sale. As he is Post Master uny person can easily and cheaply ascertain whether my veracity can be impeached and at the same time learn what other pills, he sells or has sold.

Mr. G. H. Miller, late of Brickensville, had requested me to appoint him an agent for Womelsdorf, because he well knew the value of the article; April 20th he took of me 4 dozer, and on

Womelsdorf, a new article, and bought 2 dozen This statement is similar to the foregoing. To Mr. M'Kinty, one dozen were sent at a venture, perhaps in December. Jan. 25, I left him 2 dozen on commission, and on the 11th inst. he paid me for 7 dozen, stating, as do the others, that no medicine with which he is acquainted has as good a name and so ready a sale. Peter Kline, Post Master, has sold to a man who has the white swelling, probably near 60. concentrated virtues of Horehound, Boneset, whom I seen, and who states, that no other remedy has rendered him any service, but that this has, and now that he is personded to persevere, I am fully persuaded he will entirely recover. Samuel Heckler, Post Master, sells the other

the 24th inst. he had sold 26 boxes, it being in

pills, but states, that he finds 4 of these equal to 8 or 9 of them—that the' he had these less than 4 months, and the others several years, of these he now sells about 10 boxes where he has a call for one of the other sort. He mentioned a woman who has during 'everal years suffered by the rheumatism, and though other remedies had been invoked, she has not found any benefit, save in the use of these pills. I would add much general and particular in-

formation, but shall defer to a more convenient opportunity an exposition which must be interesting to all who are liable to diseases. To the business in hand, the reference, I have paid the altention it seems to merit, and I thus leave it with the earnest desire that it may be read with candor, and produce the effect to which truth it lways entitled. Respectfully,

R. CAMFIELD, Travelling Agt. United States. Pottsville, May 29 The following named gentlemen compose the ist of agents for this county and vicinity, so far as they are at present received.
