IMPORTANT WORK. NOW IN THE COURSE OF PUBLICATION A DICTIONARY OF Arts, Mnu fctures and Mines.

By Andrew URE, M. D., F. R.S. Sc. Illustrated with 1241 Engravings! IIIS is unquestionably, the most popular work of the kind ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the learned author ndeav orsto accompli

1st. To instruct the Manufacturer, Metallurgist and Tradesman the principles of their respective processes, so as to render them in reality the masters of their business, and to emancipate them from a state of bundage to such as are too commonly governed by a blind prejudice and a 2dly. To afford Merchauts, Brokers, Drysal-ters, Druggists and Officers of the Revenue char-

acteristic descriptions of the commodities which pass through their hands. 3dly. By exhibiting some of the finest devel-opements of Chemistry, and Physics, to lay open an excellent practical school to students of these

4thly. To teach Capitalists, who may be desi-rous of placing their funds in some productive branch of industry to select judiciously among plausible claimants. 5thly. To enable gentlemen of the law to be come well acquainted with the atture of thos patent schemes which are apt to give rise to liti

6thly. To present to Legislators such a clear exposition of the staple manufactures as may disnade them from enacting laws which obstruct ndustry, or cherish one branch of it, to the injury of many others.

And listly, to give the general reader, intent chiefly on Intellectual Cultivation, in effecting those general transformations of matter to which Great Britain and the United States owe the paramount wealth, rank and power among the nations of the earth. The latest statistics of every important object of manufacture are given from the best, and, usually, from official authority, at the end of each

The work wall be printed from the second London Edition, which sells for \$12 a copy. It will be put on good paper, in new brevier type, and will make about 1400 pages, large royal octavo. It will be issued in twenty one semi-monthly numbers, (in covers) at 25 cents each. To agents this affords a vare opportunity, as we can put the work to them on terms extraord nary favorable.
