DINNER-OLOGY. Man is the only animal that cooks his dinner before he eats it. All other species of the same genus, are cartent to take the provisions of nature as they find them. But man's reason has designed port and roarling-jacks, and tin-kitchens, slow pany and bakers ovens; thus opening a wild field for the exercise of that culinary ingenuity which has rendered the names of Glasse and Kitchener, immortal, With what gusto does the gourmand est over in imagination, the rich dishes upon which he has been feasting. He seems to have as much pleasure in detailing ad nauseam, to every one whas is willing to listen to him, all the minutize of the courses upon which he has been feasting. He is not content to eat his dinner himself, but must make all his acquaintances eat it with him.

Of such importance is the gastronomic art tosome, that we question much if the "wooden walls" which afford them protection, are looked upon so important as their dinners. The ancients sought by the distribution of crowns and flowers, to stimulate the enterprising and reward the successful; but modern gourmands, despising such empts honors and distinction, tempt the diffident with a haunch of venison and reward the daring with real turtle.

If charity seeks the gid of the benevolent, she no longer trusts to the magic of oratory to " melt the tender roul to pity," and untie the purse-strings, but, grown wise by experience, sends her card in the shape of a dinner ticket, and thus appeals, if not to heart, at least to its next door neighbor, the stomach.

The hero is no longer conducted to the Temple of Victory amid the shouts of his admiring countrymen, but to the public hotel, there to have his plate heaped with the choicest viands, his glass filled with the richest wines, and his health drank with "three times three and a little one."

The bard has now to experience the happiest moments of his life amind the ringing of glasses, the rattle of dessert plates, and the stentorian vociferations of the toastmaster to " Charge your glasses, gentlemen-Mr. Dianysius Dactyl, the ornament of the age, with nine times nine, "and to paid out the flood of his gratitude with half a P. W. BYRNES, 36 Waterloo Road, Liverpool. glass of port in one hand and a table napkin in the other.

The grator who has been elected to a seat in Congress, expresses the deep sense of his gratitude for the honor conferred upon him by the lib eral distribution of invitations for the unrestrained consumption of meats, and the unlimited imbibition of foreign-and perhaps, domestic-wines. - How much, then, are we indebted to our cooks: those prospering professors of gastronomy and their valuable, assistants. Justice is said to be the foundation of all national prosperity; we contend that repletion is the only embodiment of fame, and that true glory consist in a gratuitous participation in three courses and a dessert.'

It becomes our melancholy office to state that Brnjamin Habnison, Esq. of Berkeley, is no more. He died on Sunday morning, after an illness of thirty-six hours, respected by all his acquaintances, beloved by his numerous friends, and with a large family whose happiness was wrapt up in him. Mr. H. was a man of fine eduention, of active mind, and various accomplishments. Many years have elapsed since he ceased to be a candidate for public life. The latter portion of it has been devoted to his large family and to his private affairs. He was the beloved nephew of WM, H. HARRISON, the late Presi dent of the United States, and he owned and lived at Borkeley, in Charles City county, where Gen. HARRISON was bern. "What shadows we are, and what shadows we pur-ue," has been said a hundred times, but it was scarcely ever more strongly illustrated than in the example of these two gentlemen. About this time last year, General Harrison was preparing to visit Virginia and the seat of his ancestors, crowned with honors, ardent with hopes, and about to fill the highest post in the world. No one was more gratified to withers his success-no man's heart beat so high at the idea of welcoming his uncle to Berk eley, than Mr. Benjimin Harrison: and now, both the Uncle and the Nephew are swept off to the silent tomb.

Mr. BENJAMIN HARRISON must have been figty-odd years of age. Richmond Enquier.

PERSEVERANCE AND TRIUMPH.-Some years sgr, there was a shoemaker boy in the lower part of Cumberland county, New Jersey, who was remarkable for his love of reading. All his leisure hours were employed with a book, while his companions were passing their's in idleness, or worse than idleness-the celebration of Crispinmas. At length he took his stick and bundle and started for the southwest. Time passed on, and the studious shoomaker continued his studies with unabated seal. His companions, intent upon their amusements, had almost forgotten him; they continued their devotions to their patron saint for the best part of their weeks, and plied the awl and thread for the balance, unhonored by others because unrespected by themselves. And thus they will continue to resp the bitter fruits of misspent youth, until a welcome grave closes over them, while Jony HENDERSON, their fellow apprentice, with the same chances, but a higher aim is one of Mississippi's hono able representatives in one of tho most dignified Senate that ever deliberated.

CHARACTER OF A Sor. He is like a statue placed in mosit air. All the lineaments of humanity are mouldered away, and there is nothing left of him but the tude lump of the shade of man. Ho has drawned himself. as it were, in a butt of wine. He has swallowed his humanity and drank himself into a beast. He is like a spring tide, when he is drunk to water mark, he swells and looks big and overflows every thing that stands in his way. But when the drink within him is at chb, he shrinks within his banks, and fulls so low and shallow that cattle may pais over him.

A Wonderful Recovery.—Mrs. S. E. Austin A Wonderful Recovery.—Mrs. S. E. Austin was attacked with this disease in the fall of 1838, originating from a violent cold which settled upon her lungs. Various remedies were resorted to—the most skilful physicians were consulted—the resort has fearful disease consumation. yet step by step that fearful disease, consumption began to prey upon her. She became subject to violent fits of coughing, expectorated large quan-tities of matter and was evidently sinking very inst. In this distressing situation, after all the various remedies had been tried in vain, and when naught but the grave seemed to afford her any prospect of relief, the invaluable Balsam restored her to health; and now, in the place of that emeciated form, withering to decay, she is mingling in society, in better health and spirits than she has enjoyed for years. Disinterested Testimony. Having witnessed the surprising efficacy of Dr. Wistar's preparation of Wild Cherry, in the case of Mrs. Austin, I cheerfully recommend it as a valuable remedy, and acknowledged his statement true and correct.

A Surprising Cure—Mrs. Martha Wilson, a

poor but highly respectable member of the Methodist church, was also afflicted with Consumption in its worst forms, and considered past re-covery by all her friends. A bottle of this Balsal was presented to her, which relieved her immediately. This circumstance being made known to the members of the church; they purchased several bottles for her, which relieved her cumsiances, and positively assert it has not been used in a single instance where it has not given

Liver Complaint.—Mrs. Eliza Thompson was afflicted with this complaint for nearly five years, uring which time she was under the most skilful physicians-had tried Mercury, Botanic, and Homecepathic remedies, and every thing that af-fored her any hopes of relief. She had dull, wandering pains in the side, sometimes in the shoulder and small of the back, a backing cough, requent pains in the breast, and has been una ble to sleep on the right side for three years. By the use of this Balsam, she was cured in a fer weeks, and remains well to this day. ELIZA THOMPSON.

I have seen many wonderful cures made by it in the old country. Many persons, whose lungs were supposed to be almost entirely destroyed, and pronounced incurable, have been restored to good health by it. I know where one case was beyond the hopes of ever recovering, and was for years helpless, and confined to bed without being able to sit up, but was raised by the wonderful effects of Dr. Bechter's Pulmonary Preservative, and so fir cured as to be able to ride and walk about. A great many instances have been cured in the various Pulmonary affections, and I myself have received great benefit from it, both here and in my own native country. I hope it may be as successful in this country as it has been in Germany. When properly known no family will be with-

Friend Leidy:—Thee will be much surprised at my communication, when I inform thee of my perfect recovery, after having used six bottles of thy medicine. Thee knows how miserable and distressed I was. Pale, and sickly, without appetite, full of pain, with much cough, and oppression in my chest, fulling in my throat te. I am now enjoying good health, and though 60 years of age, feel young in spirits, and must attribute my good health to the good effects of thy Pulmonniy Perservative.

ANOTHER FACT. ANOTHER FACT.

Mr. Wins'ow—Sir: Having derived the most astonishing benefit, by the use of your Balsam of Horehound." I am anxious in some way, to aid in extending its benefits to others, and will therefore state the facts in my own case. In January last, I had been afflicted with an alarming Cough and Bleeding at the Lungs, for nearly five months, during which time I used every thing almost, recommended in similar cases, but found little or no relief. Having given up my business entirely, and by the advise of Physicians made preparation to go South as soon as practicable. I was advised to make trial of the above truly valuable Medicine, and to my great surprise, found almost instant relief, and by using only four bottles was entirely restored to health.

Letter from Mr. Camfield, Travelling Agent for the United States.

Messrs. T. & J. BEATTY.

I herewith enclose for your service in the way of advertising, the notice of Stichter & Mc. Knight, successors to Keim & Stichter, Read. ing, who are agents for Brandreth Pills, and perhaps for others. You will perceive the form f their language, under these circumstances, and my business is to apprise you of the testimony which the gentlemen to whom they refer have already given,—four of them prior to the n-terence, and one, Mr. G. H. Miller, since the reference, but without being informed of it by

me, or in any manner alluding to it. STICHTER & M'KNGHT, (as successors to Keim & Stichter, Reading) having been duly appointed county agents for the excellent and superior medicine above named, are now prepared to supply the demands of former agencies, and will be gratified by the appointment and supply of new ones, on the usual liberal terms. "For the character of these prils, we refer with confidence, but without asked consent, to

the following named gentlemen, who have sold them long enough to know their true value in comparison with any others now in marker .-Their relative location gives every facility to the inquirer who desires to obtain, either for sale use, a first rate article." To take them in consecutive order, then Mr. C. W. Porter, P. M., Maiden Creek, Jan, 26, took of me on commission, 6 doz. Since that time, he purchased of K. & S. Reading 6 dozen, and on the 4th inst. took 6 dozen of me, stating,

that he never had a medicine which brought k so good a report ready a sale. As he is Post Master, any person can easily and cheaply ascertain whether my verneity can be impeached and at the same time learn what other pills, he sells or has sold. Mr. G. H. Miller, late of Brickensville, had quested me to appoint him an agent for Womelsdorf, because he well knew the value of the rticle; April 20th he took of me 4 dozer, and on the 24th inst, he had sold 26 boxes, it being in

Womelsdorf, a new article, and bought 2 dezen

This statement is similar to the foregoing. To Mr. M'Kinty, one dozen were sent at a venture, perhaps in December. Jan. 25, I left him 2 dozen on commission, and on the 11th inst. he paid me for 7 dozen, stating, as do the others, that no medicine with which he is acquainted has as good a name and so ready a sale Peter Kline, Post Master, has sold to a man who has the white swelling, probably near 60 whom I seen, and who states, that no other rem. edy has rendered him any service, but that this has, and now that he is persuaded to persevere, I am fully persuaded he will entirely recover. Samuel Hockler, Post Master, sells the other pills, but states, that he finds 4 of these equal to 8 or 9 of them -that the' he had these less than months, and the others several years, of these he now sells about 10 boxes where he has a call for one of the other sort. He mentioned a woman who has during reveral years suffered by the rheumatism, and though other remedies had been invoked, she has not found any benefit,

save in the use of these pills. I would add much general and particular in-togration, but shall defer to a more convenient opportunity an exposition which must be interesting to all who are liable to diseases. To the business in hand, the reference, I have paid the attention it seems to merit, and I thus leave it with the carnest desire that it may be read with candor, and produce the effect to which truth is always entitled. Respectfully,
R. CAMFIELD,

Travelling Agt. United States.
