Important. Let every citizen bear in mind, that it is not only his interest, but his duty, to purchase every thing that he can at home. By pursuing such a course, he encourages the mechanical industry of his own neighbor-bood, on which the prosperity of every town and city mainly depends—and besides, every dollar paid out at home forms a+circulating medium, of which every citized derives more or less benefit, in the course of chizen derives more or less bencht, in the course of trade. Every dollar paid for foreign manufactures purchased abroad, is entirely lost to the region, goes to enrich those who do not contribute one cen domestic institutions, and oppresses our own cuizens.—
To obviate this evil is one of the objects contemplated by the establishment of the Home League.

To those who have been here, we say nothing; but to those who are ignorent of our location and its advantages, we say come and see us! As a refuge for invalids during the oppressive heat of summer this place is unrivalled. The sambrity of the mountain breezethe facility for good healthy exercise, and the attentive zeal of our landlords; all hold out extra inducements for such to visit us.

Borough Election .- Our annual Borough Election came off on Monday last. As the ques tions of " Up Town," " Down Town, " " Gambling" and "Improvements," were involved in the question, it caused quite an excitement among ouexcitable citizens, and resulted in the choice of the following officers for the ensuing year:

MB. BEVADE'S VIEW OF POTTSVILLE .- We learn that this View, the painting of which waso much admired by our citizens, is now in the course of publication, and will shortly be ready for no doubt give general satisfaction.

A sufficient number of the Views not yet having been subscribed for to remunerate Mr. Benade for the publication, it is to be hoped that our citizens who wish to produce the View, will come forward and subscribe at once. Only a liquited number of copies will be struck off,

The dog tax should be assessed at once, and this course, if pursued promptly, will have the effect of curtailing the number to a considerable extent.

The new Chief Burgess, Mr. John M. Crosland, was sworn into office on Wednesday last, will be no occasion for the use of these troops; but and he has already given notice that his onth requires a rigid adherence to the duties of his office, and that all Ordinances of the Borough inust and will be enforced. This is all right-it any of the Ordinances should prove obaoxious, let them be repealed.

Council Meetings - We hope our citizens generally will attend the Council Meetings. Our Military-Target Firing-Reading Encampment, &c.

The Military of this region are already feeling he excitement occasioned by the approaching Enempment to be held at Reading. On Monday ast, Capt, Wynkoop's Piret Troop Schuylkill County Cavalry paraded according to notice for Parget firing. The spot chosen for this trial of skill, was a field on the York Farm, a short disonce from the Borough; which was an excellent place for the occasion. The running was admirable, and the firing skilful, showing that the nicmbers were all in excellent practice. The prize (a pair of pistols) was token by Private Brill. Many other good shots were made, and considering the uncertainty attendant upon a running shot, the appearance of the target was a credit to the

On the Thursday following, Capt. Dean's fine Company of National Light Infantry, also paraded for Target firing. The prize, a handsome medal, to be worn by the best shot. After firing three rounds at eighty yards, the prize was adjudged to belong to Private Henry Strauch, for the two best shots in the board. The shooting was excellent, and if our Schuvikill County Companies carry with them to Reading, the skill they have manifested in the last two trials; they need experience no suxiety in relation to the splendid prizes there to be awarded.

A party of twenty seven boys, belonging to the Farm School on Thompson's Island, went out with their teacher and the boatmen on a fishing excursion. The boat was capsized by a flaw of wind when about half a mile from the land, and out of all on board only four were saved. Three of these caught a box which flusted away from the heat, and clung to it until they were taken off by a schooner which came into the harbour from Trinidad. OUR FOREIGN RELATIONS .- The following is an extract from a letter in the Commercial Adverti-er of yesterday-said by that paper to be from a distinguished source and well advised: "Nothing is known of what is doing with the English Minister. He goes to the Department of State unattended by his Secretaries, every day .-This looks as if the parties had not yet got to the point of protocols, or of putting any thing in writtog. Lord Ashburton's demeanor is good, and under fuel independence cannot really exist, while he' is quite well received. Mr. Webster books grave, and a little care-worn, and is of course silent. My own inference is, that he thinks there are grounds for real anxiety, and yet for some arber hope as to the result. You will see the course he has adopted in regard to the boundary question; that is to call upon Massachusetts and agara Falls far surpasses in beauty and grandeur | Maine to send Commissioners to confer with the Government, and to see if a compromise of the question cannot be agreed to. Every body here apprived this proceeding thus far, whatever may be the result. The lite rule fal violent attacks of the ultra papers, instead of jostling Mr. Web-

ster, have confirmed him in his sout. The Journal of Commerce thus generously and wisely counsels strangers visiting New York: Strangers who visit the city must be on their guard at every corner. They will be robbed by pickpockets in any crowd; cheated by swinding auctions, some of which are in the most conspic aous places, and cheated when they buy their tickets for the steamboat. To avoid this, put your m mey inside of your waistcoat, buy no cards of penknives or assorted trinkets, and pay your fare to nobody but the captain or clerk on board the hoat, at the captain's office. And do not pay your passage to any body further than the boat goes which you are on board of. One of the most infamous cheats is practised by fellows who put up flaming signs and sell passage tickets to any port in the Union. The ticket for the first steamboat is generally a good one, but that is all. New York is a perfectly safe placelfor men who know how to take care of themselves, but the careless and credulous are soon gammoned.

He became the proprietor of the lands along the river below the city, and some missionaries of the Swedish church, to which he belonged, coming over, he gave them a life lease of this land, or condition that after their death, or in case they apostatize from their church, it should revert to his heirs. Although four of the said missionaries Gov. Porter for issuing half a million of scrip; did afterward abandon their faith, and join the Episcopal church, in consideration of the fifth who remained true to the cause, the lease was not disturbed. In the mean time the city extended down the river, covering all the land in question, and nothing appears to have been done, until death closed the contract of Mr. Nethermark by carrying off the last of the lessees about six who are not numerous, and some of whom are wealthy, have been preparing for the struggle, and they have now commenced suit under auspices so favorable, that two capitalists of Philadelphia voluntarily proposed to risk all the ex-

A NEW Move. - Three individuals in the district of Southwark were brought before Alderman McCall, on Saturday last, charged with keeping tippling houses, and held to bail in \$500 each to answer at the Sessions. The informers in these cases were a Committee of the Howard Temperance Society. Not to break their pledge, they operate thus: The informer enters a grog shop, calls for liquor, pays for it, empties it into a tin vessel which he has with him and then goes before an Alderman and sues the keeper. It is said that the Howard Society intend to prosecute a l the tippling house keepers in the district. - Daily

EDUCATION. - The less that children, under eight years of age, predisposed to consumption, or any form of scrofula, see of the inside of a school room the better. This, to some, may seem strange; but it is no more strange than true; and whoever disbelieves the doctrine, and persists in treating their children like hothouse plants forcing their intellect at the expense of the body, may prepare themselves to follow their children to an early grave, and in after life, may suffer from self-reproach for having- been the cause of their untimely death. - Dr. Ticknor.

It appears that there are seventy ships, thirtyour barques, ninety-five brigs, and two hundred and fifty schooners at New York city, and sixtyone of all classes at Brooklyn, making in round numbers, an aggregate of five hundred vessels in the waters of the southern district of New York. One third of these, or upwards of one hundred and seventy vessels, are lying idle, with no captains, no crew, no freights and no prospect of getting any for some time to come. Most of this number for sale, and no buyers in the market.

The editor of the Troy Whig, in speaking of the conduct of the loco focos in that section in advocating free trade, and opposing a tariff, very roperly remarks: "That is, to our mind, a curious kind of " De

ocracy" which begins with making beggars of the great mass of the people, and then, as if poverty itself were not sufficiently oppressive, imposing on them a direct tax to pay the expenses of the very Government which has imp them. In plain; language, we should call such a procedure the most outrageous and unpardonable insult ever offered to-a free people."
