SELECTING CARBAGE PLANTS .- A correspon dent of the New Genesea Farmer, advises thosewho on a rainy day, take from a bed of cabbaze plants, some for transplanting, to select the blue short legged ones-because the long-legged ones are mostly scullions, and wout have any heads.

A Card. On Saturday night last a fire occurred in Geo. W. Snyder's Stable, (adjoining mine,) by which my Stable was destroyed. It has been thought by many, and myself among the number, that the act was one of an incendiary. I cannot in my own mind discover anything that should have induced any one to act thus towards me. It has been mentioned to me that parious reports are in circulation charging me with having said many things, which were really so preposterous that I hardly thought them worth noticing; among other thingh it has been reported that I had said that the poor min of Pottsville all that certain should always remain poor, and that one meal a week of meat was as much as they ought to have, sifuate on the south-easterly side of Schuylkill and many other sisular charges, all of which I Avenue in said Brough, marked in Benjamin Pott's additional plan of said Brough No. 7, conindividual who originated them as a malfeious scoundrel and liar. I make this explanation from no motive or feeling other than to have the truth Said Lot is cleared and enclosed. A good title fairly and honestly before the public. GEO H. POTTS.

Works of Narthee .- In a state of health the intestinal canal may be compared to a river whose waters flows over the adjoining land, through the channets nature or art has node; and improve their qual-nus; and to keep up the comparison of the river, so long as it runs on sin to his the channels are kept pure and healthy: but if by some cause the course of the river is stopped, then the water in the canals is to longer pure, but soon becomes signant. There is but one law of circulation in paging. When there is a superabundance of humorial fluid; erosit) in the intestinal tubes, and continuous takes place, it flows back into the blood vessels, and fibrates useff into the circulation. To establish the free course of the river, we must remove the obstructions which stop its feec course, and those of its rr bulary streams. With the body, follow the sague nearl cracialle—remove by that valuables purgative medicine—called Bran-DEETH'S SEGITABLE UNIVERSAL PILLS, which are this practice, the ways of the circulation will then be restored to the full exercise of their natural function and a state of health well be fruily established. Remember, never suffer a drop of idoed to be taken from you. Evacuate the humors us often and as long as they are degenerated, for as long as you are sick.

JOHN G. WOOLISON, Sheriff. Sheriff's Office, Orwigs-burg, April 26, 1842.

From the Courier and Enquirer. It would be preposterous in a writer for the readis of such a Journal as the Courier, to address the. ers of such a Journal as the Courter, to address the reprojedices, passions or superstitions. Good common sense should at least be possessed by the readers of this paper, and those possessed of such and those only, do we care to attract. We will now assert, in the most unqualified terms, that an impocent remety has been found, that will absolutely cure fifthermatizm, and stiffness of joints, if of twenty years standing. The assertion is so broad, that it will hardly obtain eredence, we are aware, unless supported by uncommon testimony. Now the testimony given to so many worthless quackeries is so abundant, that to discuss the support of first testing the support of the s many worthless quackeries is so abundant, that to discriminate between such, and real matter of fact testimony, is very difficult. To come at once at a point that cast at once be appreciated, the proprietors have resolved to give this remedy to the poor, and to cure those able to pay for it, before they ask pay, and then leave it to the sufferer to pay what he chooses. We entreat, therefore, seff-vers to call at 71 Maiden Lane, for some drops (Indian Elixir) to be taken, and a Nerve and Bone Limment to use outwardly; and if they will not, by one week's use, become more surprised and delighted than they ever expected, we will now suffer for the want of this mild, innocent, and all potent remedy? If they refuse it, we pity them indeed.—[N.Y. Cour. & Eng. Feb. 19.1812.
