This tariff bill put a duty of \$1 75 a ton on British coal, and yet PETER NEWHARD, representing the Schuylkill coal region, BENJ. A. Voting as British agents would desire them to pote-TO PROSTRATE THE IRON TRADE OF PENNSYLVANIA! Will the People sustain men to mock at the misfortunes of the country, and to deny them relief, in this hour of distress and need? We very much mistake the temper of the times, if such men can deceive Pennsylvania any longer. They have also voted to reduce the free republican labor of this State to the condition of the serfs and starvelings of Europe. They would rejoice to see the poor man work for ten cents a day, while they receive eight dollars; and while they hypocritically pretend to be democrats, they wish to build up an odious aristocracy to fatten upon the earnings of the laborer.

: THE MORNON TEMPLE .- The Lynn Freeman gives the following description of the new Mormon Temple now in progress of erection, at Nauyou. We think the recent excitement will put a stop to the humbug before it reaches a dangerous height :-

The Temple is to be 140 feet by 90, height of the spire 150 feet. When asked the style of ar. rhitecture, he replied, It was all Smith rerealed to him from heaven.' The material is a species of lime stone found on the spot, a portion of which we have in our possession. It is easily wrought, and must make a fine appearance. The basement story is divided into rooms 10 or 12 feet square, with small windows, and walls three feet thick, which causes much conjecture. Over this

surrounding darkness; the cap is surmounted by the sun, emblem of the glory of Mormonism, bursting forth upon the world. Above the sun are numpets proclaiming the glad tidings. Over the guarded by flaming swords. A paved area, simiir to St. Peter's at Rome, is designed as an out, er court for service in pleasant weather. Their city into ten wards, and requiring each division a) labor a tenth part of the time.

FURTHER FROM THE MORMONS.—It is stated speech was made by Joe Smith, in front of the Ples of the President came rather late in the day. Mormon Temple at Nauvoo on the previous Thursday, in reference to Bennett, Mr. Pratt, and others, in which he swore like a pirate, used the most obscene language, and appeared to be greatly excited." Joe is said to be laboring hard to make up the breach with Rigdon, Pratt. and others, by offering special favors, but without success, it would seem, from a statement in the Warsaw Signal, published near Nanvoo. That p-per states that "information had been received at Warsaw, of the sudden disappearance of Elder Orson Pratt, a prominent Mormon. He left a paper stating that his disappearance was caused Joe Smith's treatment of his wife, and by some wrong doing in the church. He confirms General Bennett's statement relative to Jue Smith's attempt to seduce Mrs. Pratt. It was supposed by some in Nauvoo, that he had committed suicide, and about 500 persons were out in search of him."

Joe. it is said anticipates a requisition for his person from the Governor of Missouri, in reference to the attempted murder of Ex-Governor Boggs, and manifests the utmost horror at the idea of being given up. It is not a little surprising that he is allowed to retain possession of the State arms and ammunition.

THE MANUFACTUREUS .- The Philadelphia Gizette gives the following extract of a letter com-

ing from a gentleman of Boston: Our large manufacturers in cotton and wool. len have held a private meeting this morning, and spointed a large committee to report on the futue action, and the result will be the suspension of much machinery and the entire stopping of and articles of manufacture—dismission of an Mahantongo streets, on Tuesday evening next, immense number of laborers, and great reduction in the wages of any what may be retained .-Worst is now coming to worst, and we will now tee who can meet it best, the slave holding States or the free States-the manufacturing States or. the grain growing States. Thank God, we can catch fish, and eat potatoes, and wear our old clothes just as well as any other citizen of these United States."

BON STEAMERS .-- The Stockton fron steamers unning from this city to Hartford and Albany, Raritan Canal and New York Bay, seem to THE partnership heretofore existing between reite great interest in those places. They are bided with coal at the wharves on the Schuylkill, and by " cutting across lots" through New Jerref, they contrive to arrive in advance of river firm, are requested to call on James H. Fitzeimcraft. The Albanians are delighted, and the Con- mons for settlement. recticut people are in ecstacy with these iron steamers .- Even. Journal.

629 printed Reports of Committeer. Statement of business done during the long Ses sion of the 27th Congress: 514 bills reported up to June 24th 222 " passed the House-" 32 Senate bills passed the House ".

881 printed Reports of Committees. The above is a comparative statement of the progress of business in the House of Representa-iver in this Congress and all preceding Congresss. The House of Representatives in the Congress (26th) did more business and did it faster than any that preceded it. This shows you how far the present Congress exceeds all others in industry, fidelity and merit.

In quality, the printed reports of the present House surpass those of preceding Houses even ore than in quantity and number. I need but refer you to such as those of the committee of and Means, Manutactures, Commerce, Public Expenditures, Revolutionary Claims, For eign Affairs, Claims, &c. All these are with. out a parallel in preceding Houses, for extent o esearch and investigation, calculation, compila-

tion, study and composition.

This comparative view of legislative business s an authentic statement, drawn up at my rejuest, in the office of the Clerk of the House of depresentatives, where it was made up on the 26th of June, by the principle Clerk, by a careful examination of records.

Extract of a letter from George Washington

to Edmund Pentledon, 23d Sept., 1793: "You do me more than justice when you supse that from motives of respect to the Legislanie, (and I might add, from my interpreta tion of the Constitution) I give my signature to many bills with which my judgement is at rariance. In saying this, however I allude to no particular act. From the nature of the Constitution I must approve all the parts of a bill or reject it in toto. To do the latter, can only be justified upon the clear and obvious ground of propriety, and I never had such confidence in my own faculty of judging as to be over tenscious of the oniuions I have imbibed in doubtful cases.."

CURE FOR HYDROPHOBIA .- Couterize ; the wound immediately. From the sixth to the tenth day watch for the formation of pustules or blisters on each side of the ligament that hinds the tongue to the lower part of the mouth; when liscovered, lunce and burn them; bleed, if the pulse justifice, and give a tisande Muguet Jaune, which is, I believe, the Lify of the Valley, (Convallaria Majoris.) It is proper to state, that the patient also took a few grains per day of the Grain a'la Rage," a seed in which the Spaniards of Terre of Bouf have great confidence in this horrible maledy. Keep the patient's mind agreeably occupied. This treatment is taken iom the Russian practice.

The practice in German hospitals is not to close the wound after cauterizing for several months, but keep it open. It is healing the wound of a bite, and enclosing the virus for absorption, which creates the difficulty.
