PERILOUS POSITION OF ST. PETER BURG. - It melancholy to contemplate the constant danger in which this brilliant capital is placed. If Mr. Lohl's picture is not over charged, the occurrence of a strong westerly wind and high water just at the breaking up of the ice, would at any time suffice to occasion an inundation sufficient to drown the whole population and to convert the entire city with all its sumptuous palaces into a chaotic mass of ruin. The Gulf of Finland runs to a point as it approaches the month of the Neva, where the most violent gales are always those from the west, so that the mass of waters, on such occasions, is always forcibly impelled towards the city. The island forming the delta of the Neva, on which St. Petersburg stands, is extremely low and flat, and the highest point in the city is probably not more than twelve or fourteen teet, is therefore, enough to place all St. Petersburg under water, and a rise of thirty feet is enough to drown almost every human being in the place. The poor inhabitants are therefore, in constant danger of destruction and can never be certain that the whole 600,000 of them may not, within the next twenty-four hours be washed out of their houses like so many drowned rats --The truth, the subject ought hardly to be spoken of with levity, for the danger is too imminent, and the reflection often makes many hearts quake in St. Petersburg The only hope of this apparently doomed city, is, that the three circumstances may never occur simultaneously, viz: high water, the breaking up of the ice, and a gale of wind from the west. There are so many points of the compass for the wind to choose among, that it would seem perverse in the extreme to se critical a moment; nevertheless the wind does not blow often from the west during spring, and the ice floating in the Neva, and the Gulf of Finland is of a bulk amply sufficiently to oppose part of the river. Had the ancient sages of Ohk ta kept metoriological records, one might perhaps be able to calculate how often in a thousand years, such a flood as we are here supposing might be likely to occur. As it is, the world need not be at all surprised to read in the news-

them like a will-o the wisp. May heaven pro tect the city !- Foreign Quarterly Review. THE GREGORIAN OR NEW STYLE .- Pope Gregory the XII, made a reformation of the Calendar, ways entitled, or old style, which had, before that time, been in the Julian calendar, consisted of 365 days and 6 hours; which 6 hours being one fourth part of a day, the common year consisted of 365 days and every fourth year one day was added to the month of February, which made each of those years 366 days; they are usually called leap

papers one of these days that St. Petersburg, af

rising like a bright meteor from the swamps

of Finland, has suddenly been extinguished in

This computation, the near the truth, is more than the solar year by 11 minutes, which in 131 years amount to a whole day. By which the vernal equinox was anticipated 10 days, from the time of the general council of Nice, held in the year 325 of the Christian cra, to the time of Pope Gregory; who, therefore, caused 10 days to be taken out of the month of October, in 1582, to make the equinox fall on the 21st of March, as it did at the time of that council. And to pre vent the like variation in future, he ordered that 3 days should be abated in every 403 years, by reducing the leap years at the close of each cen tury, for 3 successive centuries, to common years, and retaining the leap years at the close of each

fourth century only. This was at that time esteemed as exactly conformable to the true solar year, but Dr. Halley makes the solar year to be 365 days, 5 hours and 48 minutes, 54 seconds, 41 thirds, 24 fourths, and 31 fifths; according to which in 400 years, the Julian year of 365 3 d. 1 h. and 55 min. which is near two hours, so that in 50 cen-

turies it will amount to a day.

Although the Gregorian calendar or new style had long been used throughout the greatest part of Europe, it did not take place in Great Britain and America, until the 1st of January, 1752; and in September following, the 11 days were adjusted by calling the 3d day of that month the 14th and continuing the rest in this order. '

A GREAT CHIMNEY .- One of our English papers received by the Acadia contains the following account of an immense chimney which was at the point of completion at Glasgow.

St. ROLLOX CHIMNEY .- We understand that this chimney will be finished to-day, when the citizens of glasgow may be gratified with seeing her majesty's flag floating at an elevation of nearly 500 feet above the adjacent grounds. In a few days we hope to give the statistics of this extraordinary work, by Mr. Andrew Thompson, the able engineer who has superintended its erection. The extreme height, from the ground to the copestone, will we believe, be about 450 feet; and, rising from a base forming the highest table-land of the city, the stalk is seen from a great distance in the surrounding country. In elative height, independent of the elevation o its base, it is little inferior to the loftiest superatructures in the world, in absolute height, it towers into the air incomparably higher. The great pyramid, Cheops, rises 498 feet, but this includes a base of 150. The Strasburg Cathedral is 474; St. Peter's, in Rome, from ground to pinnucle, 450, being axactly the altitude of the moustre chimner; St. Paul's, in London, 370, The have of the chinney under ground, is 46 feet in diameter; at the ground, 40; at the point attained on Thursday forenoon (being 426 feet in height;) the diameter was 13 feet 9 inches, and at the top it will be 13 feet 6 inches.

Curious APPEARANCE OF THE EARTH.- Clayton recently made a successful ascersion in a bal-loon from Columbus, Onio, Among the remarks of his journal of the wrial trip, we were struck by

the following:
From the questions that I am frequently asked an idea seems to exist with many that eronaut: lose sight of the earth when at great heights. This is a mistake; they never do, except when clouds intervene, or night appears. On the contrary, the carth is always like an inimense concave map, painted different colors, which designate not the different townships or counties, as the coloring maps generally do, but the various products of the soil. That the earth, which, in reality, is convex, should appear to the wronaut to be concave, may at first seem strange to many, but a moment's reflection will render it clear. His burizon is frequently upwards of ahundredmile from him .- Draw a right-angled triangle, and make the base line fifty or sixty times as long as the perpendicular, the hypothenuse and base will then be nearly in the same line. The horizon appears to the erronaut to be on a perfect level with the car of the balloon; but the part of the earth directly underneath him seems at a great distance from him, consequently the whole sur-face of the scene must appear concave.

WRIGHT'S IDIAN VEGETABLE PILLS,

Of the North American College of Health. A appears by the following circumstances, are fast superseding the use of all other Pills as a UNIVERSAL REMEDY, for the purification of the blood, and as a consequence, the eradication al DISEASE from the HUMAN SYSTEM

THOMAS & JAMES BEATTY, HAVING been duly appointed County Agent for the sale, in large or small quantities, of the named article, suggest the following as strong presumptive proof, that the claim of this medicine to public confidence, is founded on unquestionable and we believe, unquestionable au-Letter from Mr. Camfield, Travelling Agent

for the United States. Messis. T. & J. BEATTY. I herewith enclose for your service in the way of advertising, the notice of Stichter & Mc-Knight, successors to Keim & Stichter, Reading, who are agents for Brandreth Pille, and perhaps for others. You will perceive the form of their language, under these circumstances, and my business is to apprise you of the testimony which the genlemen to whom they refer have already given,—four of them prior to the interence, and one, Mr. G. H. Miller, since the

reference, but without being informed of it by me, or in any manner alluding to it. STICHTER & M'KNOHT, (as successors to Keim & Stichter, Reading.) having been duly appointed county agents for the excellent and superior above named are now prepared to sup ply the demands of former agencies, and wil be gratified by the appointment and supply to new ones, on the usual liberal terms. "For the character of these pills, we refer

with confidence, but without asked consent, to the following named gentlemen, who have sold them long enough to know their true value in omparison with any others now in marker.-Their relative location gives every facility to the inquirer who desires to obtain, either for sale or use, a first rate article."

To take them in consecutive order, then Mr C. W. Porter, P. M., Maiden Creek, Jan, 26. took of me on commission, 6 doz. Since that time, he purchased of K. & S. Reading 6 dozen and on the 4th inst. took 6 dozen of me, stating hat he never had a medicine which brought back so good a report, nor one which had so ready a sale. As he is Post Master, any person can easily and cheaply ascertain whe her my veracity can be impeached and at the same time learn what other pills, he selfs or has sold.

Mr. G. H. Miller, late of Brickensville, had requested me to appoint him an agent for Wom-elsdorf, because-he well knew the value of the article; April 20th he took of me 4 dozer, and on

Womelsdorf, a new article, and bought 2 dozen This statement is similar to the foregoing. To Mr. M'Kinty, one dozen were sent at a enture, perhaps in December. Jan. 25, I left him 2 dozen on commission, and on the 11th-inst. he paid me for 7 dozen, stating, as do the others, that no medicine with which her is acquainted

the 24th inst. he had sold 26 boxes, it being in

has as good a name and so ready a sale.

Peter Kline, Post Master, has sold to a man who has the white swelling, probably near 60 whom I seen, and who states, that no other rem. edy has rendered him any service, but that this has, and now that he is persuaded to persevere, I am fully persuaded he will entirely recover. Samuel Heckler, Post Muster, sells the other ills, but states, that he finds 4 of these equal to or 9 of them-that the' he had these less than months, and the others several years, of these he now sells about 10 bozes where he has a cal for one of the other sort. He mentioned a waman who has during several years suffered by the henmatism, and though other remedies had been

the use of these pills. . I would add much general and particular in formation, but shall defer to a more convenient opportunity an exposition which must be interesting to all who are liable to diseases. To the bu siness in hand, the reference, I have paid the atention it seems to merit, and I thus leave it with the earnest desire that it may be read with can-

dor, and produce the effect to which truth is al-ways entitled. Respectfully, R. CAMFIELD, Pottsville, May 29 The following named gentlemen compose the set of agents for this county and vicinity, so far

as they are at present received. Other no will be added as agents shall be appointed.

Remarkable Cure of Consumptions I have been an invadid for three years, and have r nave ocen an invadin for since years, and have suffered every torture from confirmed consumption. But Dr. Taylor has wholly cared me. The large quantities of matters he used to raise has subsided my cough has ceased, and I am fleshy again, my health being wholly restored by using three bottles of his celebrated Balsam.

No. 139, Maiden Lane, New York.

Shortness of Breath.
For this disease Dr. Taylor's Balsam of Liverwort has no equal. Having the Asthma, a severe pain it my left side, and some cough; I was induced to try the above medicine, and great was my joy to find it cure me in about two weeks. It also cared my mother of a severe attack of the Liver complaint, with which the had suffered two years. J. C. STONE.

He was bloated; his skin was filled, and his physician said there was no favorite symptom about him, that he had a confirmed consumption. At that time, we procured a bottle of that valuable medicine, Taylor's Balsam of Liverwort. After taking one battle we began to have hopes of his recovery. He contined until he had used five bottles. It is now a year from that time; and his health is better than it has been since an infant. bavid & HANNAH ROGERS,

Wistar's Balsam of Wild Cherry. THE GREAT REMEDY

ROR CONSCRIPTION and LIVER CAPTAINTS, ASTHMA, BRONCHITIS, CROUP IN CHILDREN, WHOOPING COUGH, PAINS OR WEARNESS OF THE BREAST, CHRONIC, Cotons, and all diseases of the Culmonary Organs.

READ WHAT IT HAS DONE. A Wonderful Recovery. Mrs. S. E. Austin was attacked with this discuse in the fall of 1838, riginating from a violent cold which settled up. on her lungs. Various remedies were resorted to—the most skilful physicians were consulted yet step by step that fearful discare; consumption began to prey upon her. She became subject to iolent fits of coughing, expectorated large quantities of matter and was evidently sinking very fast. In this distressing situation, after all the various remedies had been tried in vain, and when naught but the grave seemed to afford her any prospect of relief, the invaluable Balsam reored her to health; and now, in the place of that emaciated form, withering to decay, she is mingling in society, in better health and spirits than she has enjoyed for years. II See description of this interesting case in Dr. Wistar's Tre atise on Consumption.

Disinterested Testimony ... Having witnessed the surprising efficacy of Dr. Wistar's prepara. tion of Wild Cherry, in the case of Mrs. Austin, I cheerfully recommend it as a valuable remedy, and acknowledged his statement true and cor,

New York, April 12, 1841.

A Surprising Cure—Mrs. Martha Wilson. poor but highly respectable member of the Methodist church, was also afflicted with Consumption in its worst forms, and considered past re-covery by all her friends. A bottle of this Balsal was presented to her, which relieved her immediately. This circumstance being ninde known to the members of the church, they purchased several bottles for her, which relieved her entirely. The same society have purchased over forty-bottles, for persons in indiligent circumstances, and positively assert it has not been used in a single instance where it has not given

urprising relief.

We, the undersigned, members of the Der. bin Benevolent Society of the Methodist church, having examined the above statement of Mrs. Wilson's case, hereby certify it is in all respects true, and cornestly recommend Dr. Wistar's remedy to all who are afflicted.

GEORGE MILLER, MARY GARDNER,
THOMAS COOMES, ELIZABETH JACOBS. Liver Complaint .- Mrs. Eliza Thompson was afflicted with this complaint for nearly five years, during which time she was under the most skil-ful physicians—had tried Mercury, Botanie, and Homocepathic remedies, and every thing that af-fored her any hopes of relief. She had dull, wandering pains in the side, sometimes in the houlder and small of the back, a hacking cough, frequent pains in the breast, and has been una ble to sleep on the right side for three years. By the use of this Balsam, she was cured in a few

weeks, and remains well to this day.

ELIZA THOMPSON. Roxborough, September 12, 1841. Dear Sir-Please send me two bottles more of your Balsam of Wild Cherry, like that you sent me before. I have taken nearly all of the first, and confidently believe this medicine will cure me. I have used a great many remedies within the last year, but have never found any thing that the last year, and have been all the stopped my cough entirely, checked my night sweats, and I sleep better at night and feel better in every way

than I have for many months. Youst, respectfully, Holmesburg, September 12, 1841. Friend Wistar-I must again trouble thee to send me two bottles more of thy invaluable Balsam. I have now taken three bottles in all, and can assure thee that it has done me more good than all the medicine I have ever taken before. Send me by the stage as soon as possible, and oblige thy friend.

Jacob Holloway.

and oblige thy friend. Jacob Holloway.
Bristol, September 8, 1841. Dear Doctor,-Hearing so many people talk about the wonderful cures your Balsam of Wild Cherry has made in Consumption, I sent to one of your Agents the other day for a bottle, and have found it to relieve me so much, that I want three bottles more sent soon, as I believe it will cure me too. I have used a great-many baliants of different kinds, have tried Jayne's Expectarant and other medicines besides, but nothing has ever done me as much good as yours has. Send

by the steamboat Bolivar. Yours truly, WILLIAM THOMAS. PAINS IN THE BREAST, DEBILITY, WEAKNESS AND Cough.—The Rev. Dr. Dunlap has addressed us a letter in which he says two of his daughters had suffered severely with an obstinate cough frequent pains in the breast, &c., and appeared to be going into a rapid decline. By the use of ted, even a few bottles of this medicine they have entirely

recovered and now enjoy excellent health. Asthma Cured.—Mr. Jacob Enyder has authorized us to say that he was afflicted with this annoying complaint for several years and had tried every thing in vain. He was subject to constant wheezing, a troublesome Cough, Spitting of Phlegm, Pain in the Chest, and sometimes in the region of the Heart, and nothing else ever

Chronic Cough. Mr. Isane Rogers was also afflicted with an obstinate Cough, originating from a disease of the Lungs and Chest, and never found any thing to give him relief but this Bal-

Such in fact is the nature and simplicity of this medicine, and so extraordinary have been many of the cures it has performed, that it has already attained the highest reputation, and alarready attained the highest reputation, and although scarce two years have elapsed since it was first made public, we can proudly say, its fame has apread in every direction, and it is rapidly acquiring a celebrity unequalled by any medicine ever offered to public notice.

DRUGGISTS AND DEALERS

In every section of the country, will find this medicine an important and valuable addition to heir stock, and should

ALWAYS KEEP IT ON HAND, As it is not in our power to place it within the reach of all those afflicted, and there are doubtless; thousand suffering who would resort to it for relief if they could obtain it conveniently. The particular when you purchase, to ask for Dr. Wistan's Balsam of Wild Chenry, as there is an article called the "Synup or WILD CHERRY," advertised, which is entirely a differ-

NATURE'S OWN PRESCRIPTION. A purely vegetable and highly approved Com-A purely vegetable and nightly approved compound preparation of the Prunus Virginiana, or "Wild Cherry Bark"—approved by the College of Pharmacy, recommended by the medical faculty; and universally acknowledged the most valuable Family Medicine' ever discovered.

No Quackery! No Deception. The physician may boast of his skill in many diseases—the quack may puff his wonderfu cures, but of all the remedies ever discovered for diseases of the pulmonary organs, it is university admitted nothing has ever proved as successful as that unrivalled medicine, Dr. Wistar's Balsam of Wild Cherry, which has effected ome of the most astonishing cures ever recorded in the history of medicine.

Such indeed are the astonishing healing and

restorative properties of this Balsam, that eres in the advanced stages of consumption, and in Liver Complaints, diseases which have balled the skill of the most distinguished physicians. when patients have suffered with the most distressing cough, great difficulty in breathing, night sweats, bleeding of the lungs, &c. after the most esteemed remedies of our Pharmaconias have failed, this invaluable remedy has not only gree surprising relief but actually effected cures, stat

all hopes of a recovery had ocen entirely despaired of Besides its surprising efficacy in these formidable complaints, it has proved a very superior remedy for diseases of children, such as Crest Whooping Cough. &c., and in those disorder that prevail so extensively throughout the winds season, such as Coughs, Colds, Pleurisy, laftenza, and Pains in the Breast, proceeding from neglected Colds, it stands unrivalled.
