And now we find him with intellectual powers unimpaired and with a heart as true to the cause to which his boyish hours were devoted as when he stood by his father's side on the quarter-deck of the Boston more than half a century ago. The American people-the Whige of this country should be grateful that in a crisis like the present such men should be spared to them, and that the living testimony of one, thus educated should be heard in defence of their rights against tyranny and op-

I have never regarded the office of Chief Magistrate as conferring upon the incumbent the pow er of mastery over the popular will, but as granting him the power to execute the properly expressed will of the People, and not to resist it. With my mother's milk did I suck in the principles on which the Declaration of Independence was founded. That Declaration complained that the King would not let the People make such laws as they wished. Shall a President or an Executive officer undertake at this time of day to control the People in the exercise of their own rights ! And it is the day of the Executive to abstain from interfaing in or thearing the sacred exercises of the law making functions of their Government Gen. Herrison's Speech at Dayton Sept. 10,

EXTRAORDINARY CASE.

In ground!

DEAR SIR:—An article called Dr. Hewes "Nerve and Bone Liniment," came to my knowledge about two manths since through our friend Mr. Campbell, and I procured a bottle and had used it for about a week without any material change, until one morning I found myself under the exercise of very oncoming to all who are liable to diseases. To the business in hand, the reference, I have paid the attention it seems to merit, and I thus leave twith the earnest desire that it may be read with cancellings, imagining that could I be helped up I could stand and walk, I requested my family to aid my feet, not having for the last fourteen and a half produce the effect to which truth is always entitled.

R. CAMFIELD, EXTRAORDINARY CASE. years ever even made the attempt to stand: but my confidence was so great that they consented to assist me from my bed. I found I could use my legs with apparent ease, but could not bear my weight on my feet. With support, however, I could place one foot before the other with a facility that astonished me and all around me. They led me twice across the room; I sat down with feelings of happiness that I never before experienced; the idea was that I was once again to be restored to the world ran through my frame like an electric shock. My family surrouncan repress, up clime destroy, no enemy alienate, no disposition enslave; at home, a friend; abroad, an introduction; in solitude, a solace; in society, an ornament; it chastens vice, it gives at once a grace, an ornament to genius. Without it, what is man? A slave!

The Christian Woman.—She who bends of the bed-rid are often blessed, like me, with the content of the bed-rid are often blessed, like me, with the content of the world ran through my frame likeau electric schock. My family surrounded when it error of-joy, and the excitement so come walked three time across the floor, again bearing a little weight at each time on my feet. I then used crutches for a few days, when my strength had become so far re-established, that I could cross the this without the least aid. My advancement from floot time has been almost incredible. I can walk dren. (the bed-rid are often blessed, like me, with dren, (the bed-rid are often blessed, like me, with near a dozen,) have been so overjoyed that they could scarcely eat or sleep, and Mrs. Corning seems to feel half a score of years younger herself. You will recollect how much bent together I was when you were last here. I have entirely overcome this. If I looked as odd as I felt when I began to walk, I would have been gazed at in atonishment. I have seen many of my old acquaintances, some of whom did not know me at all, and others would scarcely credit their senses, and would hardly have been more astonished, though one had "risen from the dead." I have now every confidence that i am a well men. I think this article in the most extraordinary of any I ever heard of, and if it is not extensively made knownto the public, I think the proprietors are very culpable. yet step by step that fearful disease, consumption began to prey upon her. She became subject to wickent fits of coughing, expectorated large quantities of matter, and was evidently sinking very fast. In this distressing situation, after all the various remedies had been tried in vain, and when naught but the grave seemed to affird her any prespect of relief, the invaluable Belsaw restored her to health; and how, in the place of that emaciated form, withering to decay, she is mingling in society, in better health and spirits than she has enjoyed for years. New York, April 12, 1841.

A Surprising Cure—Mrs. Martha Wilson. a poor but highly respectable member of the Methodist church, was also afflicted with Consumption in its worst forms, and considered past recovery by all her friends. A bottle of this Balsal was presented to her, which relieved her immediately. This circumstance being made known to the members of the church, they our.

known to the members of the church, they pur-chased several bottles for her, which relieved her

entirely. The same society have purchased over forty bottles, for persons in indiligent cir.

cumstances, and positively assert it has not been used in a single instance where it has not given surprising relief.

IJ We, the undersigned, members of the Der. bin Benevolent Society of the Methodist church, having examined the above statement of Mrs.

Wilson's case, horoby certify it is in all respects true, and earnestly recommend Dr. Wistar's remedy to all who are afflicted.

Liver Complaint.—Mrs. Eliza Thompson was
afflicted with this complaint for nearly five years,

during which time she was under the most skil-ful physicians—had tried Mercury, Botanic, and Homompathic remedies, and every thing that af-fored her any hopes of relief. She had dull,

wandering pains in the side, sometimes in the shoulder and small of the back, a hacking cough,

frequent pains in the breast, and has been una-ble to sleep on the right side for three years. By

som me two bottles more of thy invaluable Balsum. I have now taken three bottles in all, and
can assure thes that it has done me more
good than all the medicine I have ever taken before. Send me by the stage as soon as possible,
and oblige thy friend.

Bristol, September 8, 1841.

Dear Doctor,—Hearing so many people talk
about the wonderful cures your Balsam of Wild
Cherry has made in Consumption, I sent to one
of your Agents the other day for a bottle and of your Agents the other day for a bottle, and have found it to relieve me so much, that I want three bottles more sent soon, as I believe it will ant and other medicines besides, but nothing has

ever done me as much good as yours has. Send by the steamboat Bolivar. Yours truly, WILLIAM THOMAS. PAINS IN THE BREAST, DEBILITY, WEARNESS AND Coron.—The Rev. Dr. Dunlep has addressed us a letter in which he says two of his daughters had suffered severely with an obstinate cough frequent pains in the breast, &c., and appeared to be going into a rapid decline. By the use of a few bottles of this medicine they have entirely recovered and now enjoy excellent health. Asthma Cured .- Mr. Jacob Snyder has authorized us to say that he was afflicted with this annoying complaint for several years and had tried every thing in vain. He was subject to constant wheexing, a troublesome Cough, Spit-ting of Phlegm, Pain in the Chest, and sometimes in the region of the Heart, and nothing else ever-

gave him relief.
Chronic Cough.—Mr. Isaac Rogers was also afflicted with an obstinate Cough, originating from a disease of the Lungs and Chest, and never

found any thing to give him relief but this Balsam.
Such in fact is the nature and simplicity of this medicine, and so extraordinary have been many of the cures it has performed, that it has already attained the highest reputation, and although scarce two years have elapsed since it was first made public, we can proudly say, its fame has spread in every direction, and it is rapidly acquiring a celebrity unequalled by any medicine ever offered to public notice.

DRUGGISTS AND DEALERS In every section of the country, will find this medicine an important and valuable addition to their stock, and should
ALWAYS KEEP IT ON HAND, As it is not in our power to place it within the reach of all those afflicted, and there are doubtless; thousand suffering who would resort to it for relief if they could obtain it conveniently.

IT Be particular when you purchase, to ask for Dr. Wistan's Balsan or Willo Chrary, as

there is an article called the "Syrur or WILD-CHERRY," advertised, which is entirely a differ-NATURE'S OWN PRESCRIPTION. A purely vegetable and highly approved Compound preparation of the Prunus Virginiana, or Wild Cherry Bark"—approved by the College of Pharmacy, recommended by the medical faculty, and universally acknowledged the most valuable. Family Medicine ever discovered.

No Quackery! No Deception.

The physician may boast of his skill in many diseases—the quack may puff his wonderful cures, but of all the remedies ever discovered for diseases of the pulmonary organs, it is universal-ly admitted nothing has ever proved as success-iul as that univalled medicine. Dr. Wistar's Balsam of Wild Cherry, which has effected some of the most astonishing cures ever recorded in the history of medicine.
Such indeed are the astonishing healing and restorative properties of this Balsam, that even

in the advanced stages of consumption, and in Liver Complaints, diseases which have buffled the skill of the most distinguished physicians. when patients have suffered with the most distressing cough, great difficulty in breathing, night sweats, bleeding of the lange, &c. after the most esteemed remedies of our Pharmacopias have failed, this invaluable remedy has not only given surprising relief but actually effected cures, after all hopes of a recovery had been entirely de-spaired of.

Besides its surprising efficacy in these formi-

dable complaints, it has proved a very superior temedy for discussy of children, such as Cresh Wheoping Cough. &c., and in those disorders that prevail so extensively throughout the winter season, such as Coughs. Colds. Pleurisy, Islands, and Pains in the Breust, proceeding from negletted Colds, it stands unrivalled.
