Mr. Clay's Opposition to the Alien and Sedition Laws.

The following from the "Life of Henry Clay," in the New World gives an account of the eloquent opposition of Henry Clay to the Alien and Sedition Laws of John Adams. Mr. Clay, in the days of the Democratic administrations of Jefferson and Madison, was regarded as the atlas of the Democratic cause—the great champion of its principles. He to this day advocates the same principles, and yet he is charged by Buchanan, Wall, and other blue light Federalists, with being a Federalist!

"During the administration of John Adams, in 1798-9 the famous Alien and Sedition laws were passed. The popular opposition with which these extraordinary measures were received, is still vividly remembered in the United States. By the 'Alien Law,' the President was authorised to order any alien, whom he should judge dangerous to the peace and safety' of the country to depart out of the territory within such time' as he should judge proper, upon penalty of being imprisoned for a term not exceeding three years,' &c.

The 'Sedition Law' was designed to punish the abuse of speech and of the press. It imposed a heavy pecuniary fine, and imprisonment for a term of years, upon such as should combine and conspire together to oppose any measure of government; upon such as should write, print, utter, publish, &c., any false, scandalous, and malicious writing against the government of the United States or the President,' &c.

Mr. Clay stood forth one of the earliest champions of popular rights in opposition to these memorable laws. Kentucky was one of the first States that launched their thunders against them; and though many speakers came forward to give expression to the indignation which was swelling in the public heart, none succeeded so well in striking the responding chord as our young lawyer,—He was soon regarded as the leading spirit of the opposition party; and it was about this time that the title of 'the great commoner' was bestowed upon him.

A gentleman, who was present at a meeting where these obnoxious laws were discussed, described the effect produced by Mr. Clay's eloquence as difficult adequately to describe. The populace had assembled in the fields in the vicinity of Lexington, and were first addressed by Mr. George Nicholas, a distinguished man and a powerful speaker. The speech of Mr. Nicholas was long and eloquent, and he was greeted with the most enthusiastic cheers as he concluded. Clay being called for, promptly appeared, and made one of the most extraordinary and impressive harangues ever addressed to a popular assembly. A striking evidence of its thrilling and effective character may be found in the fact, that when he ceased, *there was no shout—no applause.* So eloquently had he interpreted the deep feelings of the multitude, that they forgot the orator in the absorbing emotions he had produced. A higher compliment can hardly be conceived. The theme was a glorious one for a young and generous mind, filled with ardor in behalf of human liberty—and he did it justice. The people took Clay and Nicholas upon their shoulders, and forcing them into a carriage, drew them through the streets, amid shouts of applause. What an incident for an orator, who had not yet completed his twenty-second year!"

THE COAL TRADE.

The shipments this week have declined, and two more weeks will probably, in the common course of events, close the season by canal, if old Boreas does not put his veto on the business at an earlier period.

The shipments by canal have decreased this week, while the trade by the Rail Road exhibits a corresponding increase.

The rates of toll and transporiation, by the Rail Road, it is reported will be increased to $1,50 per ton, on and after the 15th inst.

The quantity of coal that has passed through the Delaware and Raritan Canal the present season, up to the 1st inst., is 147,736. To same period last year 99,786. Excess over last year 47,951 tons.

The Philadelphia Commercial List states that the demand both for shipment and home consumption has fallen off—but the prices heretofore quoted remain steady.

Shipments from the Lehigh region to the 8th inst., about 248,000 tons.

Origin of Every Disease, and the Means of Cure.—In the year 1795, Le Roy clearly demonstrated that every disease originated from impure or undigested particles becoming mixed with the blood and fluids. And also, that to cure every disease, it was only requisite to open the natural outlets of the body, and allow them to remain open, by which means the blood and other fluids would release themselves from these undigested and impure particles, and a state of health would be certain to ensue.

The Royal Institute of France awarded to him for this discovery, the Gold medal of the Institute

This is a historical fact.

All which the Brandreth Vegetable Universal Pills profess to do is, to carry out this principle, and experience has fully established them capable of it. When therefore a bad state of health exists in the body, all that has to be done is to continue to purge it effectually with them, and the more virulent the disease, the powerful must be the dose.

The Brandreth Pills are made entirely of Vegetable Extracts, known by long experience to be perfectly innocent, and yet of more power as a purgative, or cleanser of the alimentary canal, than any other medicine. Their effect on the system is so easy that it is a remarkable fact that the same dose may be given to an infant or adult, without the possibility of doing any injury—but on the contrary good. Therefore, in costiveness, either habitual or otherwise, and in Bilious Fevers, and in all bilious affections, they are of the greatest possible benefit.

Purchase in Pottsville, of Mm. Mortimer Jr., and of the agents published in another part of this paper.

THE PHILADELPHIA, READING, and POTTSVILLE RAIL ROAD.

NEW ARRANGEMENT.

On and after Wednesday, November 2d, 1842 the Passenger, Coal and Freight Trains will run at the following Hours on the Philadelphia, Reading and Pottsville Rail Road:

COAL TRAINS.

The 5 Coal Trains will leave Pottsville between the hours of 9 and 10, A. M., or one quarter of an hour apart, and run on to Reading where they will meet and pass all the up Trains, Coal and Passenger.

The first 3 Coal Trains will leave Richmond between the hours of 6½ and 7, and the last 2 will leave the Plane at 7½ and 7¾: the 1st of these last will always hold up before crossing the main Track at the Falls, until signalled to by the watchman that all the 3 Trains from Richmond have passed up the Line.

PASSENGER TRAINS.

The Down Passenger Train will leave Pottsville at 12 M., behind all the Coal Trains passing all the up Coal trains at Reading, and running past the last at Baumstown, the next 2 at Douglassville, and the first 2 down Coal Trains at Pottstown.

The up Passenger Train will leave Philadelphia at 10 A. M. behind all the Coal Trains, passing all the down Coal Trains at Reading, then running to Pottsville.

READING FREIGHT TRAIN.

The Down Freight Train will leave Reading on Tuesdays and Thursdays, at 8 A. M. passing all the up Coal and Passenger Trains at Pottstown, where they will wait for it.

The up Freight Train will leave the Plane on Wednesdays and Fridays, immediately behind the up Passenger Train, to Pottstown, where it will wait for all the down Coal and Passenger Trains, which trains will also wait for it, and then run to Reading.

POTTSVILLE FREIGHT TRAIN.

Leaves Reading on Thursday and Saturday at 7 A. M., passing all down Coal and Passenger Trains at Port Clinton, where the latter Trains will wait for it.

Leaves Pottsville about 7 P. M., after all the Coal and Passenger Trains are in, and has the track clear to Reading.

TAKE NOTICE!!

NEW AND GREAT INVENTION.

FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER.

By this wonderful invention a letter and duplicate can be written in one operation with more ease and greater facility than a single letter with an ordinary pen and ink.

To the merchantile, professional and travelling part of the community this truly great invention as of infinite value as it is a great saving of *time, trouble* and *expense*. The principle advantage to be derived from the manifold writer is, that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an inkstand or a pen. The instrument used for writing is an agate point, consequently it never wears by use. For banks, insurance offices, merchants, men of business generally, lawyers, postmasters, editors, reporters, public officers, and all who may be desirous of preserving copies of their letters, documents, &c. with an immense saving of time and the satisfaction of having an exact copy of what they have written, this will be found invaluable.

Francis's Manifold Writer has now been in successful operation two years, during which time the proprietor has had the pleasure of receiving the unfeigned approbation of all whose observation it has come under. At the late fair of the American Institute the merits of the article were examined into by three of the most able chemists in the country, who pronounced it to be a very ingenious and useful contrivance, and not liable to change color by exposure to air, moisture, or chemical agents. Consequently a medal was awarded by the Institute.

The proprieter has lately made great improvements in this article. The paper is of the best quality manufactured in the United States, being made for the Manifold writer expressly to his order. The ruling of them, which has for some time been thought impossible, has at length been brought to perfection for which a copyright has been secured. The copying books are bound in a variety of forms and sizes, varying in price from 50 cents upwards.

Stationers and Country Merchants in general will find it to their advantage to procure the article, as they meet with a ready sale. A liberal deduction made to those who buy by wholesale.

Newspapers or magazines throughout the country copying the above entire without alteration or abridgement (including this notice) and giving it twelve inside insertions, shall receive a copy subject to their order by sending a paper containing the advertisement to the office of the subscriber.

The cures and benefits procured by the use of this medicine, in all cases of diseases of the Lungs, is almost incredible. It has been used by several persons in this neighborhood and there is scarcely an instance but its benefits have been fully realized. Persons afflicted with

Coughs, Colds, Asthma,

difficulty of breathing, pains in the side or breast, spitting of blood catarrhs, palpitation of the heart, oppression and soreness of the chest, whooping cough, pleurisy, hectic fever, night sweats, difficulty or profuse expectoration; and all other affections of the chest, lungs and liver, should not fail of procuring a bottle of this Medicine.

The composition of Dr. Taylor's Balsam of Liverwort is only known by the Proprietor, therefore it is dangerous using any but that from 375 Bowery.

TO THE PUBLIC.

We hereby certify that our son 6 years of age, was suddenly taken with a fever, and after a severe sickness a violent cough ensued.

He was blosted; his skin was filled, and his physician said there was no favorite symptom about him, that he had a confirmed consumption. At that time, we procured a bottle of that valuable medicine, Taylor's Balsam of Liverwort. After taking one bottle we began to have hopes of his recovery. He continued until he had used five bottles. It is now a year from that time, and his health is better than it has been since an infant.

DAVID & HANNAH ROGERS,

Granville, Washington co., N. Y.

For proof of the above statement I refer to the subscriber above people of high respectability.

GEORGE TAYLOR.

Violent cough and cold cured.—The severe change of weather having given me a most violent cold, also expectoration and difficulty of breathing; I was much distressed until I took Dr. Taylor's Balsam of Liverwort. I found this medicine to suit my case and cured me at once which causes me to recommend it to others. J. J. FISHER. 17 Barrow st. N. Y.

Pain in the side and breast.—These diseases have caused me much trouble, and often prevented my attending to business. Every medicine I heard of I tried, but found no relief. As a last resource I concluded to try Dr. Taylor's Balsam of Liverwort. As soon as I did, I grew better, and have been gaining ever since; am now in good health, and can truly recommend this Balsam as being far superior to any thing else. A. L. GREEN, 2 Pitt st. N. Y.

Spitting of Blood Cured.—For four months I have had a discharge of blood from the lungs, almost daily. Also a dry hard cough, some pain, great weakness. After trying the doctors in vain for 3 months, I concluded to use Dr. Taylor's Balsam of Liverwort, of which three bottles have made an entire cure.
