ien't later than I ever knew it." LITTLE TROUB'ES .- It is doctor Johnson, we believe, who says that little vexations are more trying to the temper, and harder to be borne, than greater troubles. We heard, the other evening, a querelous looking little manufacturer illustrate the trath of the remark, by a ludicrous parrative of small annoyances, that made an aggregate of large misory. A went,' said he, into my barber's this morning, with my temper soured by letters from attorneys of five bankrupt creditors at the Southwest; postage unpaid, of course-oh! yes; bankrupis don't pay postage to their dupes-oh, no! I was vexed, too, at a painter who had received half pay in advance to paint me a new sign; but he must go a sailing on the bay on Sunday, and get drowned-Just as like as not on my money ; and how he died, and made no sign.' I was in a dreadful hurry, for I had to raise money to take up a note, and was short one half. There was a young man in the bather's chair, who passed me, and got into the shop about a yard before me, acting as if he wanted to speak to a man who was ahead of me-a contemptible trick! Well, sir, there he sat, feeling his chin after every round of the razor, and asking for more,' till his beard was sclose' resped into the middle of next week; readwhich he continued to do all the time the man was curling his hair and whiskers, evidently just to spite me. It was an hour before I got away from the barber's; and then the friend who would have loaned me fifty dollars in my strait, had taken the morning cars for Newark. After attending to some necessary business at the store, I sallied out for a 'shin' dy in Wall street. Every body was short, though each one could have done it yesterday," which struck me as rather curious.

"It was not far from three, and the day was of the nautiest August kind, hot as melted lead, ranggy and sticky. I had on a new pair of hoots, which my shoemaker for the first time, I really believe in twenty years, had made too small.---Heavens! how they bit at the heels, blistered as they were from slipping up and down in them .---My stock was continually twisting round hindside before. My shirt, too, seemed possessed. It kept crawling up, and finally rolled into an inaccessible lump, saturated with perspiration, and rested in the small of my back. This annoyed me almost sa much as a flea, the first I had felt this summer, that was nipping me at his leisure in a secure position, which he had taken up between my shoul-

He was telling me in a loud voice of a shabby trick that had been served him by a man that had just passed us, and what he had that morning said to him. Said I, sir, you are a d-d Har and a scoundrel, &cc. and I could see, as the passers-by turned round to look at us, that they thought he was addressing

his complimentary remark to me. · I didn't wonder either, that they should think so, for my face must have been a good deal inflamed with impatient endurence. Well, when I could stand it no longer, I broke away, to drop in upon the only friend I thought would help me out; and, what do you thank? He had just lent every dollar he had,' to the men whom my button holder had been serving up to me in parcels-his "particular friend." As I came out of his office. the clock struck three. I went home more annoyed, more grieved, than I remembered ever to have heen before in my life. I was now wrought up to the highest pitch. I went straight to my bedroom, and after a long search I found the little black rascal that covered my back and shoulders thick with oblong blotches; and was glancing at the demonical revenue depicted in my countenance demonical revenue depicted in my countenance complete with the article. There is no coloring in as I passed by the looking class, rolling my prisoner 'as a sweet morsel' under my thumb and finger, when the door belt rang, and the girl came to say that a gentleman wanted to see me. I stepped be , low with some exultation in my manner, and in the hall found the notary. He handed me a protest and walked out; and when he had gone, I said to him, You and your bank may go to the d-1. CAMPBELL'S FOREIGN MONTHLY MA I'd rather have the pleasure of torturing this lit. tle torment to death, than have the stamped note in my pocket. After manipulating my victim with due economy of enjoyment, I thought, I'd' see how he bore it. Now, would you believe it! -it wasn't the flea, darn him, after all! It was only a little piece of black lint that had worn off from the lower side of my stock. This was the bitterest disappointment of that unlucky day ! A TENDER-GEARTED JUDGE.-The following

QUEBEC, May 8, 1837. P.AR SIR:—An article called Dr. Hewes "Nerve and Bone Liniment," came to my knowledge about two months since, through our friend Mr. Campbell, and I procured a bottle and had used it for about a week without any material change, until one morning I found myself under the exercise of very uncommon feelings, imagining that could I be helped up I could stand and walk, I requested my family to aid me, but they were unwilling I should trust myself on my feet, not having for the last fourteen and a half years ever even made the attempt to stand; but my confidence was so great that they consented to assist me from my bed. I found I could use my legs with apparent ease, but could not bear my weight on my feet. With support, however, I could place one foot before the other with a facility that astonished me and all around me. They led me twice across the room; I sat down with feelings of happiness that I never before experienced; the idea was that I was once again to be rostored to the world ran through my framelikean electric shock. BREAST, CHRONIC, COUGHS, and all discases of the Pulmonary Organs. READ WHAT IT HAS DONE.

A Wonderful Recovery .- Mrs. S. E. Austin was attacked with this disease in the fall of 1838, originating from a violent cold which settled up. on her lungs. Various remedies were resorted to—the most skilled physicians were consulted—
yet step by step that fearful disease, consumption yet step by step that searful disease, consumption began to prey upon her. She became subject to violent fits of coughing, expectorated large quantities of matter and was evidently sinking very fast. In this distressing situation, after all the various remedies had been tried in vain, and when naught but the grave scemed to afford her any prospect of relief, the invaluable Balson restored her to health? and row, in the place of stored her to health; and now, in the place of stored her to neath; and now, in the place of that emaciated form, withering to decay, she is mingling in society, in better health and spirits than she has enjoyed for years. A Surprising Cure—Mrs. Martha Wilson, a poor but highly respectable member of the Methodist church, was also afflicted with Consimption in its worst forms, and considered past re-covery by all her friends. A bottle of this Bal-sal was presented to her, which relieved her immediately. This circumstance being made known to the members of the church, they pur-chased several bottles for her, which relieved her entirely. The same society have purchased over forty bottles, for persons in indiligent circumstances, and positively assert it has not been used in a single instance where it has not given

surprising relief.

We, the undersigned, members of the Der. bin Benevolent Society of the Methodist church, having examined the above statement of Mrs. Wilson's case, hereby certify it is in all respects true, and cornestly recommend Dr. Wistar's remedy to all who are afflicted.

Liver Complaint.—Mrs. Eliza Thompson was afflicted with this complaint for nearly five years, during which time she was under the most skilful physicians—had tried Mercury, Botanic, and lomocepathic remedies, and every thing that affored her any hopes of relief. She had dull, wandering pains in the side, sometimes in the shoulder and small of the back, a hacking cough, frequent pains in the breast, and has been unable to sleep on the right side for three years. By the use of this Balsam, she was cured in a few

I have used a great many balsams of different kinds, have tried Javne's Expecto rant and other medicines besides, but nothing has ever done me as much good as yours has. Dr. Dunlap has addressed us a letter in which he says two of his daughters had suffered severely with an obstinate cough frequent pains in the breast, &c., and appeared to be going into a rapid decline. By the use of a few bottles of this medicine they have entirely recovered and now enjoy excellent health.

Asthypa Cured.—Mr. Jacob Snyder has authorized us to say that he was afflicted with this annoying complaint for several years and had tried every thing in vain. He was subject to constant wheezing, a troublesome Cough, Soit, ting of Phlegm, Pain in the Chest, and sometimes in the region of the Heart, and nothing else ever

Chronic Cough .- Mr. Isanc Rogers was also afflicted with an obstinate Cough, originating from a disease of the Lungs and Chest, and never found any thing to give him relief but this Balsam.

Such in fact is the nature and simplicity of this medicine and so extraordinary have been Travellers, who cannot show a certificate as august lescribed, will be known as base impostors.—Shun them, therefore, as you would a Highway man, or a though scarce two years, have clapsed since it was first made public, we can proudly say, its was first made public, we can proudly say, its idly acquiring a celebrity unequalled by any medicine ever offered to public notice.

DRUGGISTS AND DEALERS

In every section of the country, will find this medicine an important and valuable addition to ALWAYS KEEP IT ON HAND, As it is not in our power to place it within the reach of all those afflicted, and there are doubtless; thousand suffering who would resort to it for relief if they could obtain it conveniently. Be particular when you purchase, to ask for Dr. Wistar's Balsam, or Wild Cherry, as there is an article called the "Syrup or Will CHERRY," advertised, which is entirely a differ-

eut medicine. NATURE'S OWN PRESCRIPTION. A purely vegetable and highly approved Compound preparation of the Prunus Virginiana, or "Wild Cherry Bark"—approved by the College of Pharmacy, recommended by the medical faculty, and universally acknowledged the most valuable 'Family Medicine' ever discovered. No Quackery! No Deception.

The physician may boast of his skill in many diseases-the quack may pull his wonderful ceived and opened an assortment of Dry Goods, cores, but of all the remedies over discovered for diseases of the pulmonary organs, it is universally admitted nothing has ever proved as success ful as that unrivalled medicine, Dr. Wistur's Balsam of Wild Cherry, which has effected some of the most astonishing cures ever recorded in the history of medicine. Such indeed are the astonishing healing and restorative properties of this Balsam, that even in the advanced stages of consumption, and in

Liver Complaints, diseases which have haffled the skill of the imost distinguished physicians, when patients have suffered with the most disng cough, great difficulty in breathing, night sweats, bleeding of the lungs, &c. after the most esteemed remedies of our Pharmacopias have failed, this invaluable remedy has not only give surprising relief but actually effected cures, after all hopes of a recovery had been entirely de spaired of.

Besides its surprising efficacy in these formidable complaints, it has proved a very superior remedy for diseases of children, such as Croup. that prevail so extensively throughout the winter neglected Colds, it stands unrivalled.
