EMPLE OF FASHION.

air Cutter, in the Basement Story of Pennsylvania Hall, opposite the Miners' Bank.

A. HAWKINS.

HE Physiological Hair Cutter, and Ecstatic Shaver, has opened at the above mentioned ce, Hawkin's new system of Cutting Gentle- en's Hair, by which its luxuriance and beauty is rendered truly ornamental. The design and execution differ entirely from the usual practice of Hair Cutting adopted here, and commends it self by the expedition and gentleness with which the operation is performed. *By the beau monde* it has been denominated a scientific art, and wether for the Pulpit, the Bar, the Senate or the State, its elegance and classical arrangements will add dignity and grace to the whole contour of the *La Fete Humaine.* All those who will favor him with their custom, he feels confident that satisfaction will be given.

N. B.—Razors honed in a superior manner.

MUSIC.

A. Hawkins is ready to perform for Cotillions, Balls, and Parties, at private houses.

☞*Only $2 for a Map of the United States.*☜

MITCHELL'S NATIONAL MAP OF THE AMERICAN REPUBLIC, OR United States of North America,

Together with Maps of Thirty-two of the principal Cities and Towns in the Union.

THE foregoing is the title of a new Map of the United States, recently published by the subscriber, which, for accuracy of Geographical detail, boldness and distinctness of Engraving, beauty of Paper and Printing, and richness of Colouring, will challange competition with any similar production.

Surrounding the General Map, are Maps of Thirty-two of the principal Cities and Towns, with their Vicinities; and in the margin there is a Table of all the Counties, in the United States, (nearly 1300 in number,) with their population according to the Census of 1840. The Map is upwards of 4 feet in length, and 3½ in height. It is *mounted on Muslin, in the best manner,* with a neat Roller and Moulding.

This National Map of the United States is sold invariably for the exceedingly small sum of Two Dollars, less than one-half the price hitherto charged for maps of the like size—forming, without question, the cheapest work of the kind ever published in the United States, or in the World, and coming within the means of almost every one, however limited his circumstances.

The subscriber has employed in the Compilation and Engraving of this Map, the best Artists in their respective departments in the country; and he is pursuaded that all who may examine it, will be satisfied that the distinctness of its Lettering, and the facility with which every Name in it may be read, are an essential improvement, in these important respects, on the Maps usually published.

The importance of an intimate acquaintance with, and a correct knowledge of the Geography of our country, must be evident to every one.—The vast extent of its territory, with its happily-arranged Divisions—its mighty Rivers, penetrating by their countless tributaries into the remotest districts—its unparalleled, chain of Lakes, extensive Mountain Ranges, and its long line Sea-Coast, can be adequately appreciated only by a reference to an accurate and distinctly-engraved Map.

The subscriber has made arrangements to supply this county with the above Maps, at the publisher's price, at his Book, Stationary and Periodical Store.

☞ Call and supply yourself before the edition is exhausted. Being the only large Map published since the Census of 1840, the demand is great that we could only procure a few copies at present for this place.

PURE WHITE LEAD.

WETHERILL & BROTHER, manufacturers, No 65 north Front street, Philadelphia, have now a good supply of their warranted pure white lead, and those customers who have been sparingly supplied in consequence of a run on the article, shall now have their orders filled.

No known substance possesses those preservative and beautifying properties so desirable in a paint, to an equal extent with unadulterated white lead; hence any admixture of other materials only mars its value. It has therefore been the steady aim of the manufacturers, for many years, to supply to the public a perfectly pure white lead; and the unceasing demand for the article is proof that it has met with favor. It is invariably branded on one head—WETHERILL & BROTHER, in full, and on the other, WARRANTED PURE—all in red letters.

MOUNT CARBON HOTEL.
Schuylkill County, Pa.

REUBEN BRIGHT respectfully announces to his friends and the public that he has taken this splendid, airy and delightful establishment, situated at the termination of the Reading and Philadelphia Rail Road, where he will be ready to wait on those who visit the Coal Region, on business, or for the purpose of enjoying the mountain air and water. The Hotel is large, finished and furnished in the best style—and no pains will be spared to render satisfaction to all who may favor it with a visit. Being within ten minutes walk of the Borough of Pottsville, though sufficiently removed to escape the dust and noise of that busy, bustling place, it is confidently believed that it will be found much more pleasant and agreeable, than any other Hotel in the vicinity. Attached to the Hotel is a large and beautiful garden, overlooking the River Schuylkill, the Schuylkill Canal, Mount Carbon Rail Road, (extending to the Mines and thence to Sunbury) the Centre Turnpike, and at the same time affording a real and romantic view of five Mountains. The house is supplied with pure mountain spring water, and a Bathing establishment unrivalled in the country. A splendid pleasure Car is kept for the exclusive accommodation of visitors, who may be disposed to visit the Mines, or enjoy the wild and romantic scenery of the surrounding country. Individuals or families may rely on having ample room, and every possible attention.
