The Genius of Winter. siter in the . Valley of the Seasons, an al gory published in the London Imperial Magazinc, gives the following picture of winter: A spirit severe in countenance succeeded the Genius of Autumo. Her form was hid in the numerous folds of her dark robe. Extending her bloodless arm, she held towards us a withered branch covered with the hoar frost. This is Winter, said my guide, (a venerable sage,) ia in town and country on the daugl favorable terms spirit whose influence is still more withering than that of Autumn. Observe how langually the

stream flows at her approach; the flowers droop their stalks, and the music of the feathered song-Sters is hushed. WINTER. I come not to deform the year, Nor wasting ruin sprend, Nor cast the freezing spow-storm drear Upon th' unsheltered head, Unbid of Him who rules alone Above, beneath the sky, The first, the last, the eternal One,

And bind in icy chains;
And bind in icy chains;
At his command I shed the snow,
Which covers all the plains;
And loose the stormy winds that beat
Upon the humble shed.
Where in his cheeders rule retent Upon the humble shed. Where in his cheerless rude retreat, The wanderer makes his hed

Ye desolate who shrink beneath The cold and wintry blast, Ye feel the bitterness of death. Ye leet the buterness of death,
But soon it will be past.
There is a land of joy and peace,
Tis where the serapi s sing;
For there the winter's storm gives place. To an eternal spring.

They are gone, said I, in a tone of sorrow there is the valley, but its inhabitants are fied. They are gone, answered the old man; but le not the lesson they have taught us depart with them. All things are in his hands, whose praise they seek; not a leaf falls to the ground unseen of the Creator. Remember this in the hour of repining and discontent; be grateful for the good bestowed, and be patient under the evil inflicted and learn to perceive, in every occurrence of human life, the directing influence of the God of the seasons.

New Orleans Street Market. UNBRELLAS - Rise with the rain, and fall with the sun. Holders uneasy, calculating on a spread

of business. Article apt to change hands. Hars-Stock of a light nature, and people looking for a change in quality with the first cool weather. Few sellers crowned with success. and none of the producers caught napping. Great distress presumed to be felt from efforts to " pull wool over the eyes."

LEATHER, SHOES, &c .- Great activity in these articles just before bank closes. Duns also discover a desire to move in the commodity. Boots brisk, but no pumps in the market, as there should be to carry off the rain.

Hose-Owing to a close stocking of the market holders do not anticipate a rise-above the knee -Some difficulty in getting rid of wet socks, which, as yet, cannot be unravelled.

PARTALOONS-Holders are in a tight place but are unwilling to let go. Like most merchants they evince considerable anxiety about the state of their drawers. People have an eye to buttons for convenience sake.

SUSPENDERS-Business in this article is partly over the left shoulder. Holders are anxious to let go towards bed time but are ready for buckling too early in the morning. Stocks--It is neck or nothing with dealers in

this article. Ho'ders get uneasy in the middle of the day, and in transactions are perfectly willing to throw off. Stocks were stiff last week, but the weather affects them considerably at present. WAISTCOATS - No transactions, people have no money to in-vest this article, and pockets are

empty, ed, he who fingers in them finds it hard to get

clear. The chief dealers are among the a-wrist-CANES .- These articles rise and fall. Attrihutable to hot weather. Many holders seemed

determined to do well, (duel.) HANDERCRIEFS-Much sought for, and holders inclined to hold on. By a late discovery, the threads in them are found to contain specie. It

is an anomaly that these hang heavily on hand, Every body nose this. East Times.-A locolico was heard to say that nothing astonished him so much as to hear he can set by his stove for three and four hours

people complaining of the times. For his part, he said, he never had such easy times in his life; at a stretch, and nobody will come into his shop to disturb his cogitations. He insists that easy times are just as good as "better times," and no person who has an opportunity of seeing the hundreds of men who are walking the streets unemployed, will dare to say, that, so far as a freedom from labor is concerned, these are not the easiest times that were ever known. FASHIONS FOR DECEMBER.—Ear drops are

much worn by the ladies, and drops at the nose by small children. Cardinals are more in fashion than the cardinal virtues. Dresses are now mad fuller behind than we ever saw them before, and it is quite a pleasant morning e excursion to circumnavigate a full-dressed balle. Sucks are the walking costume of the gentlemen-whether given to them by the lidies or not we cannot say. Gentlemen's boots are now made too small for the feet-so much so, that in some cases the toes peep through them. Ecathers and jewels are much in vogue, and much credit is given to the ladies for their teste in these particulars. Thin shoes for walking are an article of general con sumption with our young misses.

AN EXCITING LIBION The following rentence is taken from an article in the Boston Quarterly Review on the subject of novel reading : "Throw away the last new novel; go with m through these dark lanes, blind courts, into the damp cellars, unfurnished garrets, where poverty vice and crime are crowded together, laver upon layer, where breeds the corruption that pollutes our whole miral atmosphere. Here, my friends is a volume that may excite you; here is a work which you may read. Forget your lexury; forget your minds ease; blush for your repinings your sentimental whimperings, your vapois and indigestion; and remember that you are men and women; and that it is your business to make this earth a paradise and every human heart a meet temple for the living God.

EXTRAORDINARY CASE.

QUEBEC, May 8, 1837. DEAR SIR: -An article called Dr. Hewes "Nerve and Bone Liniment," came to my knowledge a-bout two months since, through our friend Mr. Camp-bell, and I procured a bottle and had used it for about ek without any material change a week without any material change, until one morning I found myself under the exercise of very uncommon feelings, imagining that could I be helped up I could stand and walk, I requested my family to aid me, but they were unwilling I should trust myself on my feet, not having for the last fourteen and a half fourteen and a half the standard but my my feet, not having for the last fourteen and a half years ever even made the attempt to stand; but my confidence was so great that they consented to assist me from my bed. I found I could use my legs with apparent ease, but could not bear my weight on my feet. With support, however, I could place one foot before the other with a facility that astonished me and all around me. They led me twice across the room; I sat down with feelings of happiness that I never before experienced; the idea was that I was once again to be restored to the world ran through my frame like an electric shock. My family surrounded me in tears of joy, and the expirement so comded me in tears of joy, and the excitement so com-pletely overcome me that I fainted. The same day I walked three time across the floor, again bearing a walked three time across the floor, again bearing a little weight at each time on my feet. I then used crutches for a few days, when my streagth had become so far re-established, that I could cross the this without the least aid. My advancement from flootime has been almost incredible. I can walk two hundred yards and buck with ease, and my children, (the bed-rid are often blessed, like me, with nd, r a dozen,) have been so overjoyed that they could scarcely cat or sleep, and Mrs. Coraing seems to feel half a score of years younger herself. You will recollect how much bent together I was when you were last here. I have entirely overcome this. If I looked as odd as I fet when I begah to walk, I would have been gazed at in asionishment. I have seen many of my 'old acquantances, some of whom did not know me at sill, and o'hers would scarcely credit their senses and would hardly have been more astonished. enses and would hardly have been more astonished hough one had "risen from the dead." I have now overy confidence that I am a well man. I think the sticle is the most extraordinary of any I ever heard of and if it is not extensively made known to the public, I think the proprietors are very culpable. If you know the persons in New York selling it, you had better show them this letter, and let them refer to you, or publish this if you think it would aid the distressed.

Remember ine to your family,
Yours, very truly,

A LL persons having claims against the Estate of Robert McDermut, late of the city of New York, deceased, are requested to make known the same without delay to Abiguil Mc Dermut, Executriz, James R. Whiting, Esq. of George Hart Lz :cutore, in the city of New York, or to EDW. OWEN PARRY, Attorney for the Executors, Pottsville.

It would be preposterous in a writer for the read ers of such a Journal as the Conrier, to address the re-prejudices, passions or superstuious. Good common scase abould at least be possessed by the readers of this paper, and those possessed of such, and those on-ly, do we care to attract. We will now assen, in the most angustified terms, that an innocent remedy has been found, that will absolutely cure Rheumatism, neen fomid, that with accountry that it will hardly contain and stiffness of joints, if of twenty years, stabding, The assertion is so broad, that it will hardly cottain credence, we are aware, unless apported by uncomcredence, we are aware, unless supported by uncommon testimony. Now the testimony given to so many worthless quackeries is so abundant; that to discriminate between such, and real matter of fact testimony, is very difficult. To come at once at a point that can at once be appreciated, the proprietors have resolved to give this remedy to the poor, and to cure those able to pay for it, before they ask pay, and then leave it to the sufferer to pay what he chooses. We entreat, therefore, sufferers to call at 71 Maiden Lane, for some drops (Indian Elixir) to be taken, and a Nerve and Bone Liniment to use outwardly; and if they will not, by one week's use, become more surprised and delighted than they ever expected, we will now suffer for the want of this mild, innotent, and all potent remedy! If they refuse it, we pity them inll potent remedy? If they refuse it, wapity them in-leed.—[N. Y. Cour. & Eng., Feb. 19, 1842. For sale by John S. C. Martin, Wm. T. Epting. For sale by John S. C. WRIGHTS INDIAN VEGETABLE PILLS. Of the North American College of Health. This extraordinary medicine is founded upon the principle that the human frame is subject to ONLY ONE DISEASE, via Corrupt Humors, or in other words Imparity of the Blood, and nothing save vegetable cleaning, is wanted in order to drive disease of every

description from the body.

If the channels of our mighty rivers should become choked up, would not the accumulated waters find new outlets, or the country he inundated described on the human body; if the natural drains become closed, the accumulated impurities will most assuredly find yent in some form of disease or death will be a contain consequence. ertain consequence. WRIGHTS INDIAN VEGETABLE PILLS

WRIGHTS INDIAN VEGETABLE PILLS are eminently calculated for carrying out this GRAND PUBLIFYING PRINCIPLE, because they are a purgative medicine so justly balanced and withal so natural to the human constitution, that they cannol possibly injure the most delicate; at the same time, if used in such a manner as to produce free evacuations by the bowels, and repeated a few times, if will be absolutely impossible for pain or distress of any kind to continue in the body. A single twenty five cent box of the above named Indian Vegetable Pills will, in all cases, give relief, sometimes even beyond the power of words to describe, and if persevered in for a short time, there is not a malady in the whole course, of human ills that can possibly withstand their astonishing and wonderful influence. Wright, Indian Vegetable Pills are a certain cure for BLE PILLS are a certain cure for COSTIVENESS.

THE subscriber has made arrangements for the sale of this celebrated link, by the dozen or single Boitle, at Mr. Hoover's wholesale and retail Philadelphia prices, and would respect fully invite all those in want of a good article to call, and judge for themselves. The Departments at Washington, after testing the different kinds of Ink manufactured, have decided in favor of Mr. Hoover's—and a supply for the ensuing session of Congress has been en-

gaged at his establishment.

The following are selected from among the numerous certificates in favor of this link : From the Pennsylvanian. Hoover's INE .- Good ink is a very good thing, and like most good things, it is not very often to be met with; but we think we may from actual experiment, cordially recommend the writing, ink made and sold by Mr. Joseph E. Hoover, No 105 north Third street, as being a capital articles It flows freely from the pen-is transparent and. without sediment, and has an excellent color. Itis by far the best ink we have used for some time, and those who are particular in this mat-ter, cannot do better than furnish themselves from Mr. Hoover's establishment. Their notions

about ink must differ materially from ours, if, they are not pleased and very much pleased with his manufacture. Testimony of M. A. Roor, Esq., Teacher of Penmanahin: "After testing the various kinds of ink found in this market during the last eight years, 1 am free to state that a thorough trial of Mr. J. E. Hooven's ink has induced me to use it in my Writing Rooms, and the scholars under my charge, in preference to any other, as it does not corrode the steel pen, flows freely, has fine, permanent, black glossy lustre, is entirely free from' manent, piack glossy matre, is entirely free from sediment, does not movid or become thick; and, in my own opinion, only needs to be known and tested, to be sought after and generally used.
