PURE WHITE LEAD. WETHERILL & BROTHER, manufactu rers, No 65 north Front street, Philadel. phia, have now a good supply of their warranted pure white lead, and these customers who have been sparingly supplied in consequence of a run on the article, shall now have their orders

No known substance possesses those preserva-tive and beautifying properties so desirable in a paint, to an equal extent with unadulterated white lead; hence any admixture of other maters als only mars its value. It has therefore been the steady aim of the manufacturers, for many years, to supply to the public a perfectly pure white lead; and the unceasing demand for the article is proof that it has met with favor. It is invariably branded on one head-WETHERILL & BROTHER, in full, and on the other, WAR-BANTED PURE—all in red letters:

CONSUMPTION. DR. TAYLOR'S BALSAM OF LIVERWORT.

For Consumption, Coughs, Colds, Spitting of Blood, Pain in the sides or breast, Asthma, Pleurisy, shortness of breath, Palpilation of the heart, Debility, Nervousness, and all diseases of the Lungs and Liver. PREPARED at 375, Bowery, in the city of New York, where the article first originated, and is

York, where the article first originated, and is only genuine.

This medicine has been used in the city of New York, with unexampled success for eight years and found equally beneficial throughout the country. It is now used by many of the medical faculty with increased confidence and satisfaction:

See when you purchase that you get the true medicine, from 37 Bowery, New York, sold by specifications!

Remarkable Cure of Consumption. I have been an invadid for three years, and have I have been an invadid for three years, and nave suffered every torture from confirmed consumption. But Dr. Taylor has wholly cured me. The large quantities of matters he used to raise has subsided, my cough have ceased, and I am fleshy again, my health being wholly restored by using three bottles of his celebrated Balsam.

No. 139, Maiden Lane, New York.

Shortness of Breath.

For this disease Dr. Taylor's Balsam of Liverwort has no equal. Having the Asthma, a severe pain 16.

For this disease Dr. 13/1078 Balleam of Late was has no equal. Having the Asthma, a severe pain it my left side, and some cough; I was induced to try the above medicine, and great was my joy to find it cured me in about two weeks. It also cured my mother of a severe attack of the Liver complaint, with which she had suffered two years.

23 Hall Place, New York.

Surprising Cure of Consumption.

Mr. R. Gladdin of Delhi New York; of a natural consumptions constitution, has been saved from an untimely end by the use of Dr. Taylor's Balsam of Liverwort. A severe cold brought on an attack of Pleurisy, and thus ended in general debility and consumption. A constant: cough, hectic flush, restless nights, quick pulse, and continued loss of flesh, angured a speedy death; but as soon as he commenced the use of this Balsam, he grew better, and is now fully restored to health.

DOCT. TAYLOR'S

BALSAM OF LIVERWORT.

BALSAM OF LIVERWORT. The cures and benefits procured by the use of this medicine, in all cases of diseases of the Lungs, is almost increditable. It has been used by several persons in this neighborhood and there is scarcely an instance but its benefits have been fully realized. Per sons afflicted with -

Coughs, Colds, Asthma. difficulty of breathing, pains in the side or breast, spitting of blood catarris, palpitation of the heart, oppression and soreness of the chest, whooping cough, pleurisy, hectic fever, night sweats, difficulty or profuse expectoration, and all other affections of the chest, lungs and liver, should not fail of procuring a bottle of this Medicine.

Sandy Hill, Washington county, N. Y.

The composition of Dr. Taylor's Balsam of Liverwort is only known by the Proprietor, therefore it is dangerous using any but that from 375 Bowery.

TO THE PUBLIC. WE hereby certify that our son 6 years of age, was uddenly taken with a fever, and after a severe alck

suddenly taken with a fever, and after a severe sick ness a violent cough ensued.

He was bloated; his skin was filled, and his physician said there was no favorite symptom about him, that he had a confirmed consumption. At that time, we prucared a bottle of that valuable medicine, Taylor's Balsam of Liverwort. After taking one bottle we began to have hopes of his recovery. He contined until he had used five bottles. It is now a year from that time, and his health is better than it has been since an infant. DAVID & HANNAH ROGERS. Granville, Washington co., N. Y.
For proof of the above statement I refer to the subriber above people of high respectability.

GEORGE TAYLOR.

GEORGE TAYLOR.

VIOLENT COUGH AND COLD CURED.—The severe change of weather having given me a most violent cold, also expectoration and difficulty of breathing; I was much distressed until I took Dr. Taylor's Balsam of Liverwort. I found this medicine to suit my case and cured the at once which causes me to recommend it to others.

J. J. FISHER, I7 Barrow st. N. Y. PAR IN THE SIDE AND BREAST.—These diseases have caused me much trouble, and often prevented my attending to business. Every medicine I heard of I tried, but found no relief. As a last resource I concluded to try Dr. Taylor's Balsam of Liverwort. As soon as I did, I grew better, and have been gaining ever since am now in good health, and can truly re commend this Balsam as being far superior to any thing else.

A. L. GREEN, 2 Pitt st. N. Y.
SPITTING OF BLOOD CURED.—For four months I have had a discharge of blood from the lungs, almost daily. Also a dry hard cough, some pain, great weakness. After trying the doctors in vain for 3 months, I concluded to use Dr. Taylor's Balsam of Liverwort.

ness. After trying the doctors in vain for 3 months, it concluded to use Dr. Taylor's Balsam of Liverwort, of which three bottles have made an entire cure.

TAKE NOTICE!! NEW AND GREAT INVENTION. FRANCIS'S HIGHLY IMPROVED MAN-IFOLD WRITER.

BY this wonderful invention a letter and du-plicate can be written in one operation with more ease and greater facility than a single leter, with an ordinary pen and ink. To the merchantile, professional and travelling

part of the comunity this truly great invention as of infinite value as it is a great saving of time trouble and expense. The principle advantage to be derived from the manifold writer is, that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an inkstand or a pen The instrument used for writing is an agate point, consequently it never wears by use. For banks, insurance offices, merchants, men of busi ness generally, lawyers, postmasters, editors reporters, public officers, and all who may be de sirous of preserving copies of their letters, docu ments, &c. with an immense saving of time and the satisfaction of having an exact copy of what they have written, this will be found invaluable. Francis's Manifold Writer has now been in suc-

cessful operation two years, during which tim the proprieter has had the pleasure of receiving the unfeigned approbation of all whose observation it has come under. At the late fair of the American Institute the merits of the article were examined into by three of the most able chemists in the country, who pronounced it to be a very ingenious and useful contrivance, and not liable

der. The roling of them, which has for some time been thought impossible, has at length been brought to perfection for which a copyright has been secured. The copying books are bo variety of forms and sizes, varying in price from 50 cents upwards.

Stationers and Country Merchants in general

will find it to their advantage to procure the arti-cle, as they meet with a ready sale. A liberal deduction made to those who buy by wholesale. Newspapers or magazines throughout the country copying the above entire without alteration or abridgement (including this notice) and giving it twelve inside insertions, shall receive a copy sub-ject to their order by sending a paper containing the advertisement to the office of the subscriber. LEWIS FRANCIS, 83 William street,

Corner Maiden Lane, New York. November 12 1842.

SWAIM'S VERMIFUGE.—This valuable Medicine, which has gained a greater celeb rity than any other Worm Medicin e to the coun rity than any other system accounts and retail; at try, always on hand, wholesale, and retail; at Philadelphis prices. No family, after once using t, will be without this Medicine. B. BANNAN, Agent for Schaylkill county.

THE WATER DRIVKER. (As recited by Professor Greenbank.) Oh ! Water for me ! Bright water for me And wine for the tremplous debauchee!

And wine for the tremplous debauchee!

It coolets the brow, it coolets the brain.

It makets the faint one strong again;

It comes o'er the sense like a breeze from the sen;

All freshness, like infant purity.

Oh! water, bright water, for me, for me!

Give wine; give wine to the debauchee! was referred, viz:

Fill to the brim! Fill, fill to the brim Fill to the brim! Fill, fill to the brim
Let the flowing chrystal kiss the rim!
For my hand is steady, my eye is true;
For L like the flowers, drink naught but dow.
Oh! water, bright water's a mine of wealth.
And the ores it yieldeth are vigor and health.
So water, pure water for me!
And wine for the tremalous debauchee!

Fill again to the brim! again to the brim!
For water strengtheneth life and lim b!
To the days of the aged it addeth length,
To the might of the strong it addeth strength,
It freshens the heart, it brightens the aght,
Tis like quasting a goblet of morning light!
So, water, I will drink nought but thee,
Thou parent of health and energy! When o'er the hills, like a gladsome bride,

when o'er the hills, lake a gladsome orde, Morning walks forth in her beauty's pride; And, leading a band of laughing hours, Brushes the dew from the nodding flowers. Oh! cheerily then my voice is heard, Minghing with that of the soaring bird, Who flingeth abroad his matters loud, As he freshens his wing in the cold, gray cloud.

But when Evening has quitted her sheltering yew, Drousily flinging and weaving anew Her dusky meshes o'er hand and sea—How gently, O sleep, fall thy poppies on me! For I drink Water, pure, cold and bright, And my dreams are of heaven, the livelong night; So hurtah! for thee, Water! hurrah, hurrah! Thou art silver and gold, taou art riband, and star! Hurrah! for bright Water! Hurrah, hurrah! REPORT

Of the President and Managers of the Schuylkill Navigation Company to the Stockholders. January 2, 1843.

The President and Managers of the Schuylkill Navigation Company, have the pleasure of again meeting their Stockholders, for the purpose of exnibiting to them the state and condition of their works; also statements of their proceedings and ecounts, during the year (1842) that has just | and hazardous, and the Board would be sure to losed. And it is with much satisfaction, they are mabled to observe, that notwithstanding the unrecedented embarrassments in pecuniary matters, hat have pervaded the whole community, yet the affairs of this Company are in as prosperous a condition as could have been expected, under such discouraging influences. The particulars of the business transacted dur-

ing the year, together with the statements of accounts, and effairs generally of the Company, are herewith presented, to which they beg leave particularly to refer. During the month of November last, a large

committee of the Board of Managers visited the line of the company's works, with a view of as | not have been foreseen, the Board, after paying certaining what repairs would be required during nearly two hundred and fifty thousand dollars of the coming winter, and before the usual time of permanent debt, out of the income, within eighopening them for active trade, next spring. After particularly examining the whole, with regular payment of interest upon the remainder of Office of Schuylkill Navigation Co.,

of active business. Same repairs will necessarily be required; thesehave been particularly pointed out to the Super- can not help regretting the want of the ordinary intendent; and orders have been given to have the facilities for paying the loan, but they may be al-

next spring as the season may admit, and the public accommodation require. The bost channel from Fairmount to Manayunk has been much improved during the past tuel payment of interest; besides a reasonable year, by the removal of rocks and other impediments: but there yet remain a few points requiring attention to complete the improvement.

The new dam, now in progress, at Fairmount under the authority of the City Corporation, (already completed about half its length,) will, when finished, with the other contemplated improvemen above referred to, materially benefit the navigation of that section of the company's works.

There has been no necessity for resorting to the two reservoirs on Tumbling Run, for a supply of water the past season; they have therefore remained full. The current expenses of the year 1843, as per

statement herewith, compared with those of proeseding years, have been considerably diminished; yet they appear by the accounts, to have been larger than was expected, owing to the circumstances of balances for improvements made in 1841, except fifteen hundred dollars, that have not yet that was not finally adjusted, when the last Report was made to the Stockholders; the payment of which has considerably increased the amount of that item for the year 1812.

The rate of toll on coal, (forming, as it does, so large an item of revenue,) has frequently been falling due on the 1st of December, of that year the subject of anxious consideration with the The general prostration of monetary affairs, and Board of Managers. Several years ago, it was re- the great want of confidence, universally pervadduced and fixed at ninety cents a ton from Port ing the community, forbade even the probability of Carbon to the city, 108 miles; or nine mills a ton for each mile carried upon the company's works; which, compared with the toll charged on probability of success; yet it is with feelings of canals in Europe, is believed to be below the customary price charged there, and has thus for years been continued, without much complaint. It may be seen by reference to the Report of January, 1842, that the Board of Managers-believing that the time had then arrived when the rates of toll the company, but to the public-announced in said Report that they had fixed the rates for the year 1842 as follows: from Mount Carbon, 75 cents; from Schnylkill Haven at 70 cents; and from Port Clinton at 56 cents per ton.

At these prices the trade commenced in the spring, and several weeks passed over with but little business in the transportation of that article-It was then strenuously urged by the coal dealers that the inauspicion state of the times, and the great scarcity of money, even for the most common concerns and transactions of the country, anxiously soliciting a further reduction of the toll. Influenced by these considerations, the Board from Mount Carbon to 54 cents per ton, and from

other points less distant, in proportion. Thus the toll on coal was reduced in one season, from ninety cents to fifty four cents the ton, which accounts for the great diminuition in the amount of revenue in the year just closed, comparcounts of the company hereunto annexed, that af- of mortgages as stipulated. istration to the estate of Thomas Ireland, late | ter paying all the current expenses, improvement of Port Carbon, despased, gives cotice to all persons having claims against the said estate, to present them to him for settlement, and to all insurements of profits for the wear equal to about six surplus of profits for the year equal to about six per cent, on the capital stock. And it will also those several loans which had not before been thus be perceived that \$70,000 of that surplus has been secured, in the order stipulated by the ordinances: deposited in bank, in the joint names of several and resolved, that they should be prepared and ex-

era of the loan due on the 1st of December, 1842, | in strict conformity with the several ordinance should there he no accident to the works, requir ing an extraordinary expenditure of money for re pairs. The motives which induced the Board of Managers to adopt this course, may be more fully understood by the following copy of the Report of the committee to whom the important subject

The Committee appointed on the 13th June last, upon the subject of the company's finances respectfully submit the following final report: " Since their report of 22d October last, nothing has occurred to alter their view of the course which, under existing circumstances, it is proper to pursue.

"The season of navigation being ended, no further income can be expected till the opening of the trade in the spring. In the meantime, two quarter's interest will become due, December and March, and there will be the usual winter expenses to provide for, of putting the works in order for the opening of the next season. The money on hand will fully meet these objects, and leave a surplus of probably fifty thousand dollars; it would be very agreeble to the committee, and they do not doubt to the Board too, if this sum could be applied at once, towards the discharge of the loan to fall due on the 1st December. But it is quite 4th. There has been sold at the city for obvious, that if any extraordinary accident should happen, such as works of this kind are occasionally subject to, requiring an expenditure of money for their repair of damages, the Board might be, and in the present state of money affairs, proba-

bly would be, without the means of raising the needful amount; and thus the revenue of the coming season, and even more, be put in jeopardy, to the great injury of all who are interested as stockholders or lospholders; the lospholders themselves included, whose loan is now falling due .-Heretofore, caution like this, would not have been requisite. Loans, in anticipation of revenue, like. By the Lehigh Canal, ly to be wanted, could formerly be relied upon. No one needs to be told that all this is changed: such reliance now, would plainly be imprudent incur just consure, in case of misfortune, if clos ing their eyes to what is so palpable, they were to risk the security of the common interest, for the sake of a momentary gratification, which might | The whole amount of toll received turn out to be a couly sacrifice to all concerned At the same time, it is the duty of the Board, to keep steadily in view the payment of the debt-at the earliest practicable period. They have therefore set apart their surplus funds, in the first place, to meet any imperious exigency, (if such should occur,) and in the next place, to pay the debt; The whole amount of rent due and and they will not suffer them to be diverted from this destination

"Thus in the midst of difficulties, which could teen months, past, have been able to provide for the the General Superintendent, they report them to the company's loans; for the payment of the orite as good order as usual, after a season dinary expenses, required to keep the navigation in good working order, and for the prompt repa of damages from any extraordinary disaster. They whole completed, and ready for opening, as early lowed to find encouragement in the fact, that the concern under their charge, is entirely free from fleating or temporary debt; is able to provide for its own preservation and success, and for the punchope, that a portion of its means may, within a short period, be disposable for the payment of a part of the principal of the permanent debt.

"The committee are fully persuaded that the loan-holders will be satisfied that the course pursued is reasonable and expedient, and that it is conducive to their own security. " Having no further duty to perform, the com

nittee referring to their several former reports a dopted by the Board, consider their appointment at an end. Signed, -Richard Randolph. John Sergeant, Joshua Lippincott, Mardecai D. Lewis,

John Rohlen, Manual Eyre, Committee.' Since the report to the Stockholders, of January, 1842, the balance of the loan that then fell due has been paid out of the profits of the year 1841,

been called for. At the meeting of Stockholders in January, 1842, an ordinance was offered and enacted, au thorising the Board of Managers to negotiate or renew a loan, for three hundred thousand dollars, succeeding in such negotiation; and, although every effort was made that promised the smallest

regret that the Board of Managers are obliged to state, that they have as yet failed to make the necessary arrangements for its prompt redemption. When funds have been required, for the pur pose of completing improvements and enlargemen of the works, authorized and directed by the on coal could be reduced beneficially, not only to Stockholders, ordinances have always been prepared, read, considered and adopted, at their annua meetings, authorising the Board of Managers to borrow money expressly for that purpose; and also to mortgage their works as security for the amount thus borrowed.

In conformity with this authority, money was borrowed and six several mortgages given, prior to the year 1828; a large portion of these loans were, by express agreement, entitled to the privilege of conversaion into the capital stock of the company; of this privilege all the holders availed themselves and gave up their certificates of loan, for those o were such as to produce the absolute necessity of stock; thus four of these mortgages, amounting to five hundred and five thousand dollars, were paid off and cancelled, and satisfaction has been enterof Managers reluctantly again reduced their rates; ed therefor, on the records, in the different counties where they had been recorded.

Since the year 1827, many loans have been made, in conformity with the several ordinances of the stockholders authorizing them as above referred to. It has somehow happened, that the execution of mortgages was pretermitted, and it was ed with the receipts of previous years. And yet, not noticed until within the past year, that none notwithstanding this great reduction, it will be of the several loans, contracted since the year perceived, by reference to a statement of the ac- 1827, had been secured, by the actual execution

The Board of Managers, after taking this whole subject into their deliberate consideration, were unanimous in opinion, that strict justice required, that mortgages should be given, as security for OLD PENCIL CASES—Jun received and for the sepecial purpose of being paid to the hold- date, at which the several lums were made, and deciding. You must have realities to deal with that score. Silverian.
