The absord custom which has become so pre valent of late among the ladies, of wearing what are not inaptly sivled "bustles," (inasmuch as they have caused more than one young lady to bustle through the street, in search of some friendly door behind which to hide her confusion.) has frequently placed the adventorous wea rers in situations the most awkward and distressing. I can conceive of nothing more annoying to the sensibility of a modest young lady than the idea of dropping this appendage during a walk through our tashionable streets, and yet no later than the day before yesterday, this most dis tressing situation was realized by a young lady, near Fourth and Chesnut streets. Ladies appear not to be dware, that their attempts to improve the figure, convey to our minds the idea of defect, the existenc of which, creates a necessity for a resort to ortificial means to imitate perfection. It is related of Fontenelle that he was a great egotist, and cared for nothing but himself. The following specifote of him would seem to imply that wit, or what the French term capril, is sometimes quite incompatible with feeling. An old acquaintance of Fontenelle went one day to see him at his country house, and said he had come to eat a bit of dinner . What shall we have !-- do you like 'sparagus !' said Fontenelle. If you please --but with oil.' Oil !-- I prefer them with sauce." ·But sauce disagrees with me,' replied the guest. Well, well, we shall have them with oil,' Fon tenelle then, went out to give his orders; but on his return he found his poor acquaintance dead of an apoplaxy. "Our country against the world. "Our State, before any other in the Union.

done in a hurry :- threading a needle, shooting wild fowl, and getting married. The Roman Empire fell a prey to domestic

It appears by a statement in a foreign paper that the "Odd Fellows" societies in England, Ireland and Scotland, have given for charitable purposes, within the last year, about one million two hundred thousand dollars. Such acts of benevolence speaks volumes for this society, and carry with them the smiles of humanity.

M. La Baume ascertained that washing the teath with vineger and a brush will, in a few days, remove the tartar; thus obvisting the necessity for filling or scraping them, which so often injures the enamel. He recommends the use of powdered charcoal and tincture of thatany afterward, which
