THE INDIANS .-- Of the immense Indian population that but a few years since occupied land between the Atlantic and the Mississippi River, there is now, (according to the most recent authentic statistics preserved in the Indian department at Washington,) in lower Michigan about 5000 of the tribes of Chippewas and Ottowas; in Wisconsin about 5800 Menomonics and Oneidas; in Ohip about 575 Wyandots; in Indiana about 900 Miamies and Pottowattamies; in Mississippi about 5250 Chickesaws and Choctaws; about 1100 Cherokees are still scattered over the States of North Carolina, Alabama and Tennessee; some Chippewas South and West of Lake Superior, whose number is unknown; Oneidas, originally from New-York, near Green Bay, Wisconsin Territory; a small remnant of the Seminoles in Florida; a few of different tribes scattered through New-England; a remnant of the Brothertown and Stockbridge tribes on Winnebago Lake; and a mere nominal band that still linger on the banks of the Catawba, in South Carolina. These scattered fragments of the great Indian family that formerly owned the land East of the Mississippi River are all that are left to tell the story of their former dominion and greatness in that wide expanse of Territory.

FRANKNESS. Be frank with the world. Frankness is the child of honesty and courage. Say just what you mean to do upon every occasion, and take it fore granted you mean to do what is right. If a friend ask a favor, you should grant it, if it be reasonable-if not, tell him plainy by why you cannot. You will wrong yourself and wrong him by equivocation of any kind. Never do a wrong thinp to make a friend, or to keep one-the man that requires you to do so, is dearly purchased at such a sacrifice. Deal kindly but firmly with all men; you will find it the policy which wears best .-- Above all, do not appear to others what you are not. If you have any fault to find with any one, tell him, not others of what you complain. There is no more dangerous experiment than that of undertaking to be one thing to a man's face and another behind his back. If the very consciousness of being capable of such duplicity, does not degrade you in your own eyes, you must be lost to every noble feeling of nature. We should live, act and speak fout of doors, as the phrase is, and say and do what we are willing should be known and read by all men. It is not only best as a matter of principle, but as a matter of policy .- Salem Observer.

MARSHALL AND THE BARUEL The Western papers tell the following anecdote: "An opponent of this gentlemen, some few years since, exhibited his political gaggling by informing the crowd, which he was addressing, that his father was a cooper, and had made many a barrel for them. Tom, in reply, indulged in the following strains: "Fellow citizens, I have no doubt that Mr. P.'s (his opponent) father was a cooper-a glorious cooper,-a perfect smasher of a cooper, and made you many a good barrel; but, fellow citizens, he made one barrel (pointing to P.) in which he forget to put a good head."

These solicits subscription for the same at his Periodi brokers go about endeavoring to arrange connexions; and when they succeed; they get a commission of two or three per cent. upon the portion.-Marriage at Genoa is quite a matter of calculation, generally settled by the parents or relations, who the subscriber is Agent:

AN HONEST Locoroco."-Under this head ing, the papers are walting to a deserved immortality the Hon. Nathaniel Wood, a locofoco Secator in the Massachusetts Legislature, who recently resigned his seat and returned to his home The Boston Atlas says, "It is well understood, and even admitted by the members of his party, that he has retired from his official station, with atter disgust at the proceedings of those with whom he came prepared to act, and with a firm determination no longer to co-operate in measures which his conscience could not approve.— We honor him for the course he has taken. 5— PROSPECTUS OF THE SELECT LIBRARY

OF RELIGIOUS LITERATURE. ONE of the distinguishing features of the day is the multiplication of cheap books. Publications of this kind have been hitherto confined, with a few exceptions, to works entirely nugatory in point of good morals or positively in-

urious to them. The subscriber proposes the publication of a Monthly Library, in which he will offer to the notice of the community a series of works of another character, which, from the high price at which they are held, are almost scaled books, ex-

cept to the wealthy.

The first of the series will be D'Aubigne's History of the Great Reformation in Germany and Switzerland. At this time, when the efforts of the Roman Catholic clergy to extend their religion, and as many believe civil sway over our country, are so untiring, the general diffusion of this work cannot but be advantageous to the cause of civil and religious freedom. The historian has discharged his task with singular fidelity and ability. The ever-varying scenes of that evenful period pass before the eye in the most vivid manner, producing effects as far surpassing in interest as in truth the highest efforts of dranatic skill. The character of Luther and the the other leading Reformers, as well as those of the champions of the church of Rome, are depicted with a force that imparts to them the reality and beauty of the most masterly paintings.— They "live, move, and have a being," though centuries have clapsed since they played their part in the most eventful drama of modern ages. This work has the commendation of the Proestant clergy of both our own country and Europe, and has passed through several editions even in its present costly form. It will be published in five monthly numbers, each containing 260 pages of the American book copy, and at

CONSUMPTION OF THE LUNGS, Affections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Plearisy, Hemerrhoge of the Lungs, and all offections of the Pulmonary

Organs. NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," combined with the Extract of Tar, prepared by pretenders, who to mislead and deceive the public, publish what they call practical proofs and certificates of Cures, that exceed all bounds of certificates of Cures, that exceed all certificates of cures, the cure of cures, the cure of cures of cure medicine ever discovered

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much

in its favour.
Various remedies it is true have been offered, and puffed into notice for the cure of diseases of the Lungs, and some have no doubt been found very useful, but of all that have yet been discovered, it is admitted by physicians and all who have witnessed its effects, that none has proved as successful as this. Such indeed, are the SURPRISING VIRTUES

Dear Sir—While on a visit sometime ago at Alderman Thompson's I had the honor of meeting our mutual friend Sir Astley Cooper, and the of Consumption, after all the most exteemed rem, edics of physicians have failed to effect any change, the use of this medicine has been productive of the most-astonishing relief, and actually effected cures after all hopes of recovery

had been despaired of.
In the first stages of the discass, termed "Catarrhal Consumption," originating from neglected COLD, it has been used with undeviating success, and hundreds acknowledge they ow though graciously authentiered to them, and the greenedy, he suggested that much good might be done by furnishing the heads of families with a medicine alone. In that 'orm of Consumption formulae for the contract of the co prepared medicine, (so that they might at all so prevalent amongst delicate young females, commonly termed debility, or

"GOING INTO A DECLINE," A complaint with which thousands are linger ing, it has also proved highly anccessful, and not only possesses the power of checking the prog ress of this alarming complaint, but also strengh ens and invigorates the system more effectually than any medicine we have ever possessed. Besides its surprising efficacy in Consumption, it is equally efficacious in Liver Complaints. Asthma, Bronchitis, and all affections of the Lungs, and has cured many of the most obsti-

nate cases, after every other remedy had failed, EFfor particlars see Dr. Wistar's Treatise on Consumption, to be had of the agents. The Extraordinary Success Attending the use of this medicine in diseases of the Lunge, and the many singular cures it has effected, having fully established its efficacy, and as we have already published numerous certificates from the highest authority, which prove its virtues beyond all doubt, we consider it on-necessary to exhibit a long list of them in this place, and will only mention a few cases, to show

what it has done. WHILE LIFE REMAINS WE HAVE STILL SOME HOPE. A Supprising Cure.-Among the many sin-

gular cures which this medicine has effected, nere is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin. This lady had been consumptive for several years, and during the greater part of this time had received the best medical attention, and tri-ed all the most valuable remedies, yet nothing could be found to arrest its progress. She beame subject to violent fits of coughing, expectorated large quantities of matter occasionally tin | ink made and sold by Mr. Joseph E. Hoover, No. ged with blood, and step by step this fearful disease continued its course, until all hopes of a recovery was entirely despaired of. While in this Balsam, which to use her own expression, operated almost like a charm. In a few days, she expectorated freely, the cough was gradually appressed, and every day appeared to add fresh vigour to her looks, and now, in the place of that naciated form withering to decay, she is seen unngling in society, in better health than she

LIVER COMPLAINT .- Mrs. Eliza Thompson was afficted with this complaint for nearly five years, during which time she was under the most skil-ful physicians—had tried Mercury, Botanic, and Homopathic remedies, and every thing that of-ferred her any hopes of relief. She had dull, wandering pains in the side, sometimes in the shoulder and small of the back, a hacking cough, frequent pains in the breast, and had been una-ble to sleep on the right side for three years -By the use of this Balsam, she was cured in a few weeks, and remains well to this day ELIZA THOMPSON.
