Age that so happy boyhood deems. As foolishly as boyhood, dream:
For wars it young again, 'twould slight.
Fach Sammer scene of vonce delicht. Till age come stealing on once more, Sedate and thoughtful as/before, inquiring sad and sagely when,

Those pleasant scenes shall bloom again? Ridiculous! a thousand terms Of being, with our minds and forms. Whose present pleasure seems but this, To doat on past or future bliss, Would through the same delusions wend And lead us to the self same end. Still mournfully enquiring, when Our blasted hopes shall bloom again?"

A MATHEMATICAL QUESTION .- The Portland Bulletin asks: If a ball flies at the rate of four hundred and forty-eight miles a minute; when first discharged from the mouth of a cannon, how fast will a middling sized dog run with a tin kettle, weighing one pound ten ounces, tied to his tail !

A crockery dealer refused to lend a set of crockery and glass to a Washingtonian party, on the ith, on the plea that they would not break enough to make it an object." Too Bap .- Ma,' said a little urchin peoping

from beneath the bid clothes, I am cold: I want some more cover on the bed.' Lie still, my dear,' said the mother, until your sister comes from church-she has got the comforter on for a bus-

A SMART GIRL.-A lady in Brooklyn, being by land of Burd Patterson south 30 degrees east, busily engaged with some household matters the other day; told her little servant girl, that if any one called at the door and enquired for her, she might tell them that she was very much engaged and would like to be excused.

Very soon after this instruction was given the street bell rang, and the little girl went to the door. Is Mrs. \_\_\_\_ at home ! was the inquiry.
Yes, ma'am said the girl; she's down stairs-

she is very much engaged and would like to be excused. Walk into the parler ma'am, and she will be up in a minute! A stump orator in the West uses the following

appropriate language. If I am elected to this office I will represent my constituents as the sea represents the earth, or unrivet human society. cleanse all its parts, and screw them together again. I will correct all abuses, purge out all corruption, and go through the enemies of our party, like a rat through a new cheese. My chief recommendations are, that at the public dinner given to -at the election I put in three votes for the party

-!'ve just bought a new suit of clothes that will do to wear to Congress, and have got the hand- thence north 67 degrees east, 3911 perches to a somest sister in old Kentuck. SINGULAR CASE OF DESPENATION .- We find

the following alarming case of violence recorded in the St. Louis Ledger: Pete, what makes you look so awful?' lake, I'm agitated, and unless my spirits grow

calmer, I'll do something desperate-I'll rush out and tear a board off the pig-pen! My love, said an amiable spouse to her husband, don't sell that horse; I like him, and I want

to keep him. ·He's my horse, and I'll sell him,' replied the loving lord; didn't I buy him ?

It was my money thought him,' retorted the aristocratic lady. Yes, madam,' said the husband, and by Jupi-

have got me!' · A Good Reference .-- Do you know Mr. old gentleman, who was famous for his fundness

for the extract of hop. ·Yes sir. I know him very well! ... What kind of a man is he !"

Why in the morning, when he gets up, he is a beer harrel, and in the evening, when he goes to bed, he is a barrel of beer.' PORTRY OF MOTION .- Miss Mary Ann Lee is

kicking up her heels to the immense satisfaction of the people of New Orleans and "Turns fop's heads while turning pirouettes,"

One Spasma' howls his tender sorrows in the New Orleans Picayune, as melodiously as a monkey practising on the German flute. He has found out with Sawney that

Love, love, love
Is a kind of dizziness
And winna-let a puir bodie Gang about his buzziness

He thus addresses the 'demnition' little black eyed charmer who has enslaved him Merry Miss Mary! you mischievous fairy! With your 'twinkling feet,' and your twirl so airy; 'Think as one pleases, or do as you can, You keep one from sleeping—you do Mary Ann!

THEODORS HOOK -- A lively Hibernian exclaimed at a party where the late lamented wit dated the 3d of January, 1839, conveyed to Thoshone as the evening star, "Och, master Theodore, but vou're the book nobody can bate."

An Irish gentleman once remarked in the House and Iron Ore. of Commons, that the French were the most restless nation in the universo-adding very pointedly, "they will never be at peace, till they are engaged in another war."

The original classic song, says the Picayone, which has degenerated into O, take your time Miss Lucy Long." may be found in an old, and, obsolete edition of the celebrated works of Jonsing and Cumbo. The text is there set down as near as can be rendered conveniently from the original Latin, thus:

O, haram tibi carpe Mi Lucinia Long! O, carpe diem [whar be De subjec of my song?] In congro couaram smno. De negro snorum strong;
O, tempus tibi gumba'
Mi Lucinana Long!

They use cakes of cosp for currency in Mexico Mr. Kendall says. One of his companions (Falconer handed a dollar to a man to get changed.-The fellow shortly returned with sixty-four cakes of soap tied up in a hankerchief. Falconer told the corporal he wanted change, not soap. The corporal retorted by saying it was the currency of the place, legal currency, and that there was no other. Such proved to be the case, and however singular it may appear, soup is really a lawful tender in the payment of all debts, from which no doubt arises the common, though he retofore rather unintelligible query of thow are you off for soop!"

The soap stands emblematically for cash. THE UMBRELLA BUSINESS.—Hopkins one lent Bimpson, his next door neighbor, an ambrelia.--You will judge of the intellect of Hankins, 'not so much from the act of lending an umbrella, as from his incane endeavor to get it back again. It poured in torrents. Hopkins had an urgent call, and knocked at Simpson's door. I want my umbrel-In Now Simpson also had a call in a directly opposite way to Hopkins, and, with the umbrella in his hand, was advencing to the threshold. . I tall you, roused Hopkins, . I want my umbrella. \*Can't have it, said Simpson, at the same time extending the machine dedicated to Jupiter Plucious,-why, I want to go to the east end: it rains in torrents. . What!' screamed Hopkins, what am I to do for an umbrella? Do!' answered Simpson, darting from the door, do as I did :

borrow one!"
