At one bound he frees himself from despotic influences, and p'aces himself in the democratic current "that has swallowed up thrones, and powers, and aristocracies," and which he says "cannot be arrested in its impetuous course for the profit of any exclusive interest." He denounces the present government for the support it has given to the hereditary pserage, for the obnoxious laws of September, for its policy in centircling Peris with a continuous girdle of bastiles," and for its giving up "the vight of electing a regent according to the necessities generated by events and persons." CONSUMPTION OF THE LUNGS, Affections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Pleurisy, Hemerrhage of the Lungs, and all affections of the Pulmonary

NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or " Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chemical process, approved and recem-mended by the most distinguished physicians, and universally acknowleged the most valuable medicine ever discovered.

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by nany of the diseases in which this medicine ha proved so highly successful, we feel that we cannot orge its claims too strongly, or say too much

various remedies it is true have been offered. and puffed into notice for the cure of diseases of the Lungs, and some have no doubt been found very useful, but of all that have yet been discovered, it is somitted by physicians and all who have witnessed its effects, that none has proved as successful as this. Such indeed, are the

SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Consumption, after all the most esteemed remedics of physicians have failed to effect any change, the use of this medicine has been pro ductive of the most astonishing relief, and ac-

had been despaired of. \
In the first stages of the disease, termed " Ca. tarrhal Consumption," originating from neglected COLD, it has been used with undeviating success, and hundreds acknowledge they ow the restoration of their health to this invaluable medicine alone. In that form of Consumption so prevalent amongst delicate young females nonly termed debility, or

"GOING INTO A DECLINE." complaint with which thousands are linger. ing, it has also proved highly successful, and not only possesses the power of checking the progress of this alarming complaint, but also strengh ens and invigorates the system more effectually han any medicine we have over possessed.

Besides its surprising efficacy in Consump tion, it is equally efficacious in Liver Complaints, Asthma, Bronchitis, and all affections of the lungs, and has cured many of the most ob nate cases, after every other remedy had failed. If For particlars see Dr. Wistar's Treatise on Consumption, to be had of the agents.

The Extraordinary Success Attending the use of this medicine in disease of the Lungs, and the many singular cures it has effected, having fully established its efficacy, and as we have already published numerous cer ificates from the highest authority, which prove its virtues beyond all doubt, we consider it un-necessary to exhibit a long list of them in this place, and will only mention a few cases, to show

phat it has done WHILE LIFE REMAINS WE HAVE STILL SOME HOPE,

A SURPRISING CURE. - Among the many singular cures which this medicine has: effected, here is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin. This lady had been consumptive for several years, and during the greater part of this time had received the best medical attention, and triville at 12 M, behind all the Coal Trains pas ed all the most valuable remedies, yet nothing sing all the up Coal trains at Reading, and could be found to arrest its progress. She berunning past the last at Baumstown, the acxt2 came subject to violent fits of coughing, expectorated large quantities of matter occasionally tinged with blood, and step by step this fearful disease continued its course, until all hopes of a re-covery was entirely despaired of. While in this distressing situation, lingering upon the very verge of the grave, she commenced the use of this Balsam, which to use her own expression, operated almost like a charm. In a few days she expectorated freely, the cough was gradually suppressed, and every day appeared to add fresh vigour to her looks, and how, in the place of that

emaciated form withering to decay, she is seen using ling in society, in better health than she has enjoyed for years,
DISINTERESTED TESTIMONY.—Having witnessed the surprising thicacy of Dr. Wistar's Balsam of Wild Cherry, in the case of Mrs. Austin, I cheerfully acknowledge the above statement.

to be true and correct.

J. C. WALTERS, M. D. LIVER COMPLAINT,--Mrs. Eliza Thompson was afficted with this complaint for nearly five years, In physicians—had tried Mercury, Botanic, and Homepathic remedies, and every thing that of terred her any hopes of relief. She had dull, wandering pains in the side, sometimes in the shoulder and small of the back a hackles and the shoulder and small of the back a hackles and small of the back as hackles and the back as hackles as hackles and the back as hackles frequent pains in the breast, and had been una ble to sleep on the lightsside for three yours -By the use of this Balsam, she was cured in few weeks, and remains well to this day.

10-March 4. TEMPLE OF FASHION. Extra Hair Cutter, in the Basement Story of the Pennsylvania Hall, opposite the Miners' Bank.

A. HAWKINS. THE Physiological Hair Cutter, and Ecstatic Shaver, has opened at the above mentioned place, Hawkin's new system of Cutting Gentlemen's flair, by which its luxuriance and beauty is rendered truly ornamental. The design and execution differ entirely from the usual practice of Hair Cutting adopted here, and commends itself by the expedition and gentleness with which the operation is performed. By the beau monde it has been denominated a scientific art, and wether for the Palpit, the Ber, the Senate or the State, its elegance and classical arrangements will add dignity and grace to the whold contour of the La Fete Humaine. All those who will favor him with their custom, he feels confident that satis-

faction will be given. N. B.—Razors honed in a superior manner.
MUSIC. A. Hawkins is ready to perform for Cotillion Balls, and Parties, at private houses. December 31,
