PETRIFIED BUFFALO. -This extraordinary curiosity is said to have been discovered about two years since, by some trappers belonging to Captain Bent's company, lying on the side of one of the beaver dams of the Rio Grande of the North, (a stream emptying itself into the Gull of California,) whose waters, it is said, possess the petrifying qualities to an eminent degree, its shores of Construirtion, after all the most exteemed remains abounding in specimens of various animals and edits of physicians have failed to effect any regerable productions in a petrified state. The change, the use of this medicine has been properified Bullalo is described by those who have seen it to be as perfect in its petrification as when living, with the exception of a hole in one of the sides, about four inches in diameter, around which the har has been worn off, probably by the filetion of the water, in which it must have lain for ages past to have proved such a phenomenon. The country in which this rare specimen was found is inhabited by the Anteaux, a roving tribe of savages, who subsist a greater portion of their
