CONSUMPTION OF THE LUNGS, Affections of the Liver, Asthma, Bronchitis, Pain or Weakners of the Breast or Lungs, Chronic Coughs, Plearity, Hem, reloge of the Lungs, and all offections of the Pulmonary Organi.

NATURE'S OWN PRESCRIPTION. A combound Balsamic preparation of the Prunus Virginiana or . Wild Cherry Bark, combined with the Extract of Tur. prepared by n new chemical process, approved and recein and universally acknowleged the most valuable medicine ever discovered.

No Quackery!!! No Deception. In setting forth the virtues of this truly great edicine, we have no desire to deceive those who are discoving under affliction, nor do we wish to culogize it more than it justly deserves. Yet when we look around and see the vast a unt of suffering and distress occasioned h many of the decales in which this medicine has proved so highly successful, we feel that we can not urge its claim too strongly, or say too much

Vario a remedies it is true have been offered and pufficultionotice for the cure of diseases of the Lungs, and some have no doubt been found very useful, but of all that have vet been discove without an apex wanted a a sumul" for hunself, ered, it is nounited by physicians and all who have witnessed its effects, that none has proved is succes ful as this. Such indeed, are the

STRPRISING VIRTUES Of this Illiam, that even in the advanced stages of Con-unerton, after all the most exteemed remedi s of physicians have failed to effect any change, the use of this medicine has been pro ductive of the most astonishing relief, and acually effected cures after all hopes of recovery

had been despaired of.
In the first stages of the disease, termed "Ca. arthal Consumption," originating from neglect ed COLD, it has been used with undeviating success, and hundreds acknowledge they own Peter the Great died, 1725-surely they might the restoration of their health to this invaluable have cured him if they'd made up their minds to medicine clone. In that form of Consumption so prevalent amongst delicate young females ounmonly termed debility, or

"GOING INTO A. DECLINE." complaint with which thousands are linger ng, it has also proved highly successful, and not mly possesses the power of checking the prog-ress of this alarming complaint, but also strengh ens and invigorates the system more effectually than any medicine we have ever possessed. Besides ile surprising efficiery in Consump ion, it is equally efficacious in Liver Complaints nomer was Tycho that Francis Moore is quite an Asthma, Bronchitis, and all effections of the Lungs, and has cured many of the most obstinate cases, after every other remedy had failed. Le For particlars see Dr. Wistar's Treatise on Consumption, to be had of the agents.

what it has done. WHILE LIFE REMAINS WE HAVE STILL SOME HOPE. A Surprising Cung. - Among the many sin gular cares which this medicine has efficied, There is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin. This lady had been consumptive for several ng the greater part of this time had received the best medical attention, and trihanged in striving for it; but a little persecution ed all the most valuable remedies, yet nothing might be endured. The aut or of one satirical could be found to arrest its progress. She bes verses on the Chancellor Mapanin 1775, wrete came subject to violent fits of coughing, expectorated large quantities of matter occasionally tinged with blood, and step by step this fearful disease continued its course, until all hopes of a recovery was entirely despaired of. While in this ing situation, lingering upon the very verge of the grave, she commenced the use of this Balsam, which to use her own expression, operated almost like a charm. In a few days she expectorated freely, the cough was gradually suppressed, and every day appeared to add fresh | detaily assuring the public that every article in
