count of one of the inmates of the Vermont Lunatio Asylum, at Brattleboro':

Born of wealthy parents, idolized in youth, gratified in the indulgence of her fondest hopes, and perfected in every accomplishment of the day, she was the pride of her family and the belle of the social circle, whose destiny she controlled .-One of those enthusiastic beings, who are never satisfied with divided affection, her mind was so exquisitely strung that the least discord afflicted it, and marred the music of the whole. Some three years since, she was introduced to a young navel officer, who soon wooed and won her, but villain like, having sported awhile with the choice flame which nothing but summer and sunshine should gladden, and after having by sedulous attentions appropriated the sare gem to himself, left it exposed to the rude blast of winter, until chilled and crushed, it has fallen to the ground, scared and blasted like the withered less of autumn.

The story of his perfidy reached her, ears, but woman-like, she would not credit aught against the idol of her heart, till her own eves perused in the papers of a neighboring city his marriage to another. The news came in like a thunderbolt upon her, withering and destroying her. In vain By the use of this Balsam, she was cured in a did her friends endeavor to cheer her despending heart by travel and the kindest attention. Now a blighted and spirit-broken thing, she no more bounded on the green like the fawn, or carolled in the sunshine like the lark winging its flight to heaven's gate; a fearful change had came over her, and reason soon deserted its throne, leaving her a manisc. She takes no interest in the move ments of the other patients, but sits apart, all the day, looking from a window, upon the houn-less prospect before her. Every attempt to direct her mind has been, as yet unsuccessful, and though passionately fond of music in her moments of reasin, the least sound is now displeasing to her, the bearer the worth of the enclosed, and oblige, and she retires to her spartment, closing the door after her, as if to seclude herself from the society of others. What has the man to answer for, who has thus destroyed a virgin flower in the pride of its bloom and beauty!

A REMARKABLE MAN .- At a temperance meeting recently held in Alabama, Col. Lehmanousky, two bottles I purchased from thee a short time who had been 23 years a soldier in the armies of Napolean Boanparte, addressed the meeting. He arose before the audience, tall, erect and vigorous, with the glow of health in his face, and said "You see before you a man 70 years old. I have fought 205 battles, have 14 wounds on my body, have lived 30 days on horse flesh, with the bark of trees for my bread, snow a d ice for my drink. the canopy of heaven for my covering, without stockings or shoes on my feet, and with only a pains in my breast, difficulty of breathing, night few rags for my clothing. In the d serie of E. g) pt, I have marched for days with a burning sun not find any thing to relieve me until I used lings, and other articles for Summer wear, Engueron my naked head, feet blistered in the scorch some of your Bulsam. I got one bottle from a lish and French boiled Satins, Valencia and other ing sand, and with eyes, nostrils and mouth filled with dust, and thirst so termenting that I tore oten the veins of .my arms and sucked my own. blood! Do you ask, how could I survive all these horrors? I snawer, that, next to the kind providence of God, I owe my preservation, my health and vigor, to this fact, that I never drank a esop of spituous liquor in my life."

Organs. NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Frunus Virginiana or "Wild Cherry Bark," combined with the Extract of Tar. prepared by a new chemical process, approved and recemmended by the most distinguished physicians, and universally acknowleded the most valuable nedicine ever discovered.

No Quackery!!! No Deception In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much

in its favour.
Various remedies it is true have been offered and puffed into notice for the cure of diseases o the Lungs, and some have no doubt been found very useful, but of all that have yet been discovered, it is admitted by physicians and all who have witnessed its effects, that none has prove as succes ful as this. Such indeed, are the

SURPRISING VIRTUES Of this Balsam, that even in the udvanced stages of Con-currion, after all the most exteemed remedies of physicians have failed to effect any change, the use of this medicine has been productive of the most astonishing relief, and ac-tually effected cures after all hopes of recovery had been despaired of.
In the first stages of the disease, termed "Ca.

tarihul Consumption," originating from neglected COLD, it has been used with underlying success, and hundreds acknowledge they owe the restoration of their health to this invaluable medicine alone. In that form of Consumption so prevalent amongst delicate young females, commonly termed debility, or "GOING INTO A DECLINE,".

A complaint with which thousands are lingering. It has also proved highly successful, and not only possesses the power of checking the progress of this alarming complaint, but also strengthers and invigorates the system more effectually than any medicine we have ever possessed. Besides its surprising efficacy in Consum tion, it is equally efficacious in Liver Complaints, Asthma, Branchitis, and all affections of the Lungs, and has cured many of the most obsti-nate cases, after every other remedy had failed. If For particlars see Dr. Wistar's Treatise on

The Extraordinary Success Attending the use of this medicine in diseases of the Lunge, and the many singular cures it has effected, having fully established its efficacy, nd as we have already published numerous cerificates from the highest authority, which prove its virtues beyond all doubt, we consider it un-necessary to exhibit a long list of them in this lace, and will only mention a few cases, to show

what it has done. WHILE LIFE REMAINS WE HAVE STILL SOME HOPE.

A Surertenzo Cunz. - Among the many singular cures which this medicine has effected, there is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin. This lady had been consumptive for several years, and during the greater part of this time had received the best medical attention, and tried all the most valuable remedies, yet nothing could be found to arrest its progress. She berated large quantities of matter occasionally tinged with blood, and step by step this fearful disease continued its course, until all hopes of a re-covery was entirely despaired of. While in this distressing situation, linguing upon the very verge of the grave, she commenced the use of this Balsam, which to use her own expression, op erated almost like a charm. In a few days she expectorated freely, the cough was gradually suppressed, and every day appeared to add fresh vigour to her looks, and now, in the place of that magiated form withering to decay, she is seen iningling in society in better health than she

has enjoyed for years,
