INDIAN VEGETABLE PILLS. Of the North American College of Health, Of the North American College of Health.

This extraordinary medicine is founded upon the principle that the human frame is subject to orly one distals, viz. Corrupt Humors, or in other words Impurity of the Blood, and nothing save vegetable cleansing, is wanted in order to drive disease of every description from the body.

If the channels of our mighty rivers should become choked up, would not the accumulated waters find new outlets, or the country be immedited!—Just so with the human body; if the natural drains become closed, the accumulated impurities will most assuredly find vent in some form of disease or death will be a certain consequence.

WRIGHT'S INDIAN VEGETABLE PILLS are eminently calculated for carrying out this GRAND FURITYING FIRMCIPLE, because they are a purgative medicine so justly halanced and withal so natural to the human constitution, that they cannot possibly injure the most delicate; at the same time, if used in such a mamner as to produce free evacuations by the bowels, and repeated a few times, it will be absolutely impossible for pain or distress of any kind to continue in the body: A single twenty five cent box of the above named Indian Vegetable Pills will, in all cases, giver telled, sometimes even beyond the power of words to describe, and if persevered in for a abort time, there is not a malady in the whole course of human ills that cas possibly withstand their autonishing and wonderful influence.
