YANKEE SKIPPERS,-A correspondent of the Boston Post tells of a laughable affair which occurred at Valparaiso, at a late date. Capt. B-, . Down-East' skipper of a New York Merchantman, was introduced to Capt, C-, of a Nantucket whale ship, and the following conversation

Capt. B. (of the merchantman)-Where are you from?

Capt. C. From the Vineyard. The Vineyard! What Vineyard?' Martha's Vineyard, sir.'

Do tell! By the way, do you understand lunars? Do tell! But do whalemen generally under

stand them?' Nearly all of them.' show me how to work one?

With pleasure. Come on board to: The next day Capt. B. gues on board the whale ship, and salutes the other with-Good day! Why how you smell here.'

Nothing more than sperm oil, sir." They repair to the cabin, where the astonished captain is duly initiated into the sublime myster-

by his courteous host that there is a short and simple method of obtaining the correct time, viz:-Take your telescope, when the sun is 15 degrees from the Western horizon, and get its diameter twice, noting the time by the watch! Take the mean of the diameters and of the time, adding 25 minutes to the mean diometer for the height of the eye. This will give the correct diameter! Apply the equation of time to the true dismeters, by adding it in West, and substracting, if in East. Then add the latitude and semi-diam-

time of the watch and conclude the operation by the ordinary rule in Bowditch!" .Wal, now, you don't say so! do tell! THE AGENT IN ANIMAL MAGNETISM .- A WIL ter in the Rochester Daily Advertiser, who signs bimself B. J. Smith, states that he has succeeded in producing the various effects of what is called Mesmerism, by means of common electrical machines, and infers from this fact that electricity is the magnetic agent. He says:

of the commencement of my examination of animal magnetism, the impression was forced upon my mind, that its agent was the same, or near a kin, to electricity. near a kin, to electricity.

"This led me to test, by actual experiment, their similarity. I have used a small, common electric machine, and with it, by repeated trials, succeeded in producing all the effects usually produced by the will and passes of an operator. I have put a subject in the magnetic state by the machine, and awakened the subject without its aid, by the usual passes.

"Again: I have put a subject into the magnetic state by the will and passes, and aroused the subject to all his powers with the machine only. These experiments, repeated several times, go to prove that electricity is the agent that produces all the marvellous results of animal magnetism.

". The machine, in the first instance, put the subject into the magnetic state, and the passes restored him again to the natural state. In the se cond instance, the will and passes produced the some unnutural state, and the machines restored the subject. . "I have succeeded in putting a person in con

NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or Wild Cherry Bark," Prunus Virginiana or Avild Caerry Bala, combined with the Extract of Tar, prepared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the most valuable nedicine ever discovered.

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the discuses in which this medicine has proved so highly successful, we feel that we can-not urge its claims too strongly, or say too much in its favour.

Various remedies it is true have been offered and puffed into notice for the cure of diseases of the Lungs, and some have no doubt been found very useful, but of all that have vet been discovered, it is nomitted by physicians and all who have witnessed its effects, that none has proved as successful as this. Such indeed, are the

SURPRISING VIRTUES bim a severe elapper-claying for some fanced wrong. It was too much for the pillosophy of Of this Balsam, that even in the advanced stages of Consumption, after all the most esteemed remediately to a mud paddle near by, plunged her, change, the use of this medicine has been prochange, the use of this medicine has been productive of the most astonishing relief, and actually effected cures after all hopes of recovery and been despaired of.

In the first stages of the disease, termed " Ca.

tarrhal Consumption," originating from neglected COLD, it has been used with undeviating uccess, and hundreds acknowledge they owe the restoration of their health to this invaluable medicine alone. In that form of Consumption so prevalent amongst delicate young females, "GOING INTO A DECLINE,"

complaint with which thousands are linger. ing, it has also proved highly successful, and not only possesses the power of checking the prog-ress of this alarming complaint, but also strengh ens and invigorates the system more effectually than any medicine we have ever possessed.

Besides its surprising efficacy in Consump tion, it is equally efficacious in Liver Complaints, Asthma, Bronchitis, and all effections of the Lungs, and has cured many of the most obstinate cases, after every other remedy had failed.
If For particlars see Dr. Wistar's Treatise on Consumption, to be had of the agents.

The Extraordinary Success Attending the use of this medicine in diseases of the Lungs, and the many singular dures it has effected, having fully established its efficacy, and as we have already published numerous certificates from the highest authority, which prove its virtues beyond all doubt, we consider it un-necessary to exhibit a long list of them in this place, and will only mention a few cases, to show what it has done.

WHILE LIFE REMAINS

WE HAVE STILL SOME HOPE. A SURPRISING CURE.—Among the many singular cures which this medicine has effected, there is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin. This lady had been consumptive for several years, and during the greater part of this time ad received the best medical attention, and tri-Well now, do tell! Will you be so good as to ed all the most valuable remedies, yet nothing could be found to arrest its progress. She became subject to violent fits of coughing, expectorated large quantities of matter occasionally tin ged with blood, and step by step this fearful disease continued its course, until all hopes of a re-covery was entirely despaired of. While in this distressing situation, lingering upon the very verge of the grave, she commenced the uso of this Balsam, which to use her own expression, op-erated almost like a charm. Reading, April 29, 1843. THE POCAHONTAS, OR INDIAN VEGETABLE PILLS.

THE remedies prescribed for the cure of discusses, have correctly been divided into classes according to their operation upon the human system. Thus we have one class which causes he stomach to eject its contents, called emetics another inducing perspiration called dicophoreties and a third which evacuates the stomach and bowels, denominated cathartics, &c. Catharties or purging medicines, have in every age and country been the favourites of the physicians for the cure of the most obstinate and alarming maladies. The wonderful success attending this mode of treatment will readily be understood when we reflect that the stomach and bowels have assigned to them, the important function of digestion or the conversion of food into blood, that vital fluid intended for the growth and nourishment of the whole system. It follows that whenever the digestion organs become depraved or disqualified for the healthy performance of their duty (and this occurs daily in civilized society) impure blood, and consequently disease are the
