DEMOCRATIC WHIG CUONTY

In pursuance of a resolution, adopted at the County Meeting, at Orwigslurg, on the 1st inst., a County Meeting will be held at Hill's Hotel, the Borough of Pettsville, on

For Canal Commissioners. WILLIAM TWEED, of Northumberland SIMON GUILFORD, Lebanon, BENJAMIN WEAVER, Alleghany, For Congress, ALEXANDER RAMSEY, OF DAUPHIN COUNTY.

In last Saturday's Journal we mentioned the result of the Whig Convention for the nomination of candidates to the Board of Canal Commis sioners, but for want of space did not dwell upon the claims or qualifications of the respective nom-

The Canal Commissioners .

The ticket is now before the people, and it is proper that every man in the Commonwealth should understand the serious nature of the con test, as well as the great results which may flow from it. Let our citizens calmly ned though fully consider the reasons for reform, if such enormous corruption as have been practised for the last few years, will bear calm consideration. The wasteful extravagance and equandering peculation during that period, is an orgumout which dinects itself strongly to the good sense of the tax poyer. He it is who feels an interest in the mat ter as his pocket pays for all deficiencies and rescalities wrought upon this portion of the public control.

As far as our opinion is concerned, we believe that the public works if properly managed, would be a source of profit to the State, and might be made to yield a handsome annual return over and above the cost of salaries, repairs, &c. But under the late control what has been the re-ult? Let the present public debt, amounting to upwards of furty millions of dollars, increased chief ly by the construction and mismanagement of the public improvements, be the answer. Is it not necessary then, with our State weighed down by these extraordinary causes, our credit gone, and our difficulties increasing annually, that we should strive to make a change in the administration of these works, and thus destroy the cauare which have entailed upon us this

and degradation. If such then is the soter conclusion of the com munity, we say now is the time to work the reform: A ticket is before the public, composed of good honest, business men-not rabid politicians, chosen to aid a high officer in his high hunded robberies; but men taken from among the people. known in their private relations as honest and above reproach - men, whose experience and qualifications eminently befit them for the trust, and from whom the tax payer may expect a careful and economical administration of his property.

First upon the list of candidates is WILLIAM TWEED, of Northumberland .-This gentleman is most admirably suited in qualifications and character for a seat in the Board. Wherever known he is deservedly popular for his long and ordent a tachment to the public improvement cause, and to these who do not know him, it will only be necessary to state that he was the author, years ago, of a series of able c immunica ions on the subject of the Public Works, which were published in the United States Gazette, over the signature of " Northumberland." Mr. Tweed is no p litician, a good business man, and we should hail his election as a bright omen for the future prospects of Pennsylvania.

BENJAMIN WEAVER, of Alleghany, is popusuited in every respect to the high situation for which he is now a candidate. This nemination is stoken of as a most excellent one, and his eleci n will be gratifying to all who have the welfare of the State at heart.

Simon Guilvour, of Lebenon, is well and intimate'y known to many of the citizens of this District. He was for several years engaged as engineer along the line of public improvements and his experience, business capacities, and high unimpeachable integrity admirably fit him for the station, and will win him the support of all partics when ver he is known. He is also moderate as a politician, although a firm and unshrinking friend of the tariff, and we consider the nomina-

tion a very favourable one for our interests. The above is emphatically a husiness ticket, nominated with a single view to the refermation of the late scandalous abuses, and the future ccommic I administration of the State property; We say this confidently, for we know the feeling which actuated the members of the convention in adopting it. With the exception of Mr Weaver, who is the present sheriff of Alleghany county, neither of the above gentlemen has ever held or sought for office. They are, in the truest sense of the term, fresh from the ranks of the po'ple, and have only been drawn out from bonourable privacy to aid us in wresting our credit from that destruction and degredation with which a long series of mal-practices and mismanagement has overwhelmed it.

Let the people mason for themselves in the coming contest-the question affects all al ke and it is n . excuse for apathy that we are not directly their proper control, equal to his neighbour; and escaping successfully the pursuit of justice. is forced in common with the rest to pay the deficiency, caused by peculation and corruption, in

the chape of increased taxation. Now for a moment let us take a respective view of the public expenditures, for the last few years. It is the fairest method of arriving at the truth, and we feel disposed to argue hone-tly, and conclude impartially.

When Gov. Ritner went out of office in 1839, the amount of money borrowed and remaining unpaid, including a temporary loan of about one milmistration, was about \$25,000,0000. By a statement taken feim offic

ven that during the three years that he remained in office the excess of receipts upon the public works over and above all expenses, was about \$500,000. The people will bear in mind that at this time the works were in process of completion, and heavy outlays were needed for that purpose. From that period until the present, and during the whole of Porter's administra tion, the public debt has increased to upwards o \$40,000,000, making an increase ures over Ritner's administration of about \$3,000.000 annually, squandered away to effect unworthy party purposes, and wielded as a strong weapon to secure political assistance. These facts may be startling to many, but they re not the less true.

If the statement is doubted, the proofs are easily arrived at, and we adjure every man to deberate seriously before exercising his prerogative as a voter. Of the above debt the apportion, per head, to every man, woman and child in the State, is at least THIRTY DOLLARS; of these the comparative number of tax payers are as one to six. and when we consider the proportion which the number of property holders bears to the whole number of tax-payers, the burden which would vour of a Judicious Tariff, and opposed to Disfall upon each, is, to say the least of it, startling tribution; which position, as it is entirely subver-

and alarming. We turn now to the tax payer, and we him seriously and gravely, whether he will not County Ticket, to be supported at the ensuing make an effort to save his State from that inevitable destruction of credit and property, which a continnation of such mal-practices will bring upon her. If he cannot feel an argument directed to his patriotism, we say to him that his own pocket calls for his or position to it. And now while good and honest men are placed before him for his support, let him for once vote as the common interest and his oan necessity dictates.

> THE LOCOFOCO NOMENATION .-- WE mentioned in our last paper that the Locofoco Convention had met in Harrisburg, and had nominated Jas. CLARK of Indiana, JESSE MILLER, of Perry, and WM. B Fosten, of Alleghany, as their candidates for Canal Commissioners. This ticket, is well known to be composed of rank partisans, nomina ed alone for party purposes. Of these three men, Mr. Clark is the only one who has everheld a seat in the Board previously, and we wish to say a few words relating to him in explanation of an error which a few weeks since we inadvertently committed in our paper. We were under the impression in common with a number of others, that Mr. Clark had left the Board in consequence of his disgust for and opposition to the system of prediction, carried on by the adminisration and its friends, but upon future enquiries we find the impression altogether wrong. Infinished lines of the public works was an excess over the revenue of upward of \$360,000, whilst the year before under Ritner's administration (and we have correct data to prove it,) the revenue exceeded the expenditures upwards of

\$354.000. Does not this fact speak with a startling force? Let the prople look to it! Mr. Clark then d d not resign his seat in the Board for any such virtuous reasons as we have given him credit for. But he did so for the purpose of enabling him to accept the Presidency of he Union Canal Company, at a much higher alary, tendered him becou e they needed his aid n procuring an expected loan from the State. We were also led to lelieve that Mr. Clark vas a popular man among the people, but find from actual inquiry along the line of public improvements, that the fact is not so. On the contrary, he is the most unpopular man on the Ticket and is generally disliked by all who have been connected with him, for his overbearing, tyranical the weakest in the whole nomination.

EARLY RISING .- It is a physical habit, which pefore all others should be cultivated by the young. Every healthy person should be able to watch the sun regularly-stealing his broad disc above the Eastern hor zon. We know nothing that so strengthons the frame, and invigorates the intellect to thought as this simple custom. The morning is join d to the freshness and smiling elasticity of the period, has we think an influence, not inconsiderable, over the moral structure of the mind. The keeper of the Menagorie, which lateexhibited in this place, while exhibiting in Merer co., entered the den as was his custom, and shilst playing with the animals, had his arm readfully torn by the tiger. He was lying on his back at the time, and with great presence of mind, he raised his foot, and with a sudden exertion, of it, threw the tiger from him as d gained he feet; and awing the brute back by his manner, retired from the cage, and fainted from the effect of the wound. DROWNED. - We are informed by one of the Conductors, on the P. & R. R. Road, of the death of a small boy, named John Burk; who was drowned at Richmond on Wednesday last. The circumstances attending the boy's death, were singular, and, were it not for the tragical event, would be amusing; another small boy was playing with him upon the wharf, when John jumped in, to recover a stick which had fallen overboard His companion when questioned as to what the result was, said that " Johnny came up twice and as he didn't come up again, he ran home to tell his mother, where he was." THE LADIES - We clip the following from o

Dublin, was beset by an unusual number of very importunate beggar women, whose claims were urged, sometimes in the most pitcous accents, and t others, with an adroitness and humor, quite anusing. At Drogheda, the beggars besieged us in a way which, though embarrassing to a Lady, was quite amusing to the other passengers. In hand ing this fady into the couch, after dinner, a woman approached us saying your honor will sure give something to a poor starving widow for the sake of that sweet lady that owns you.' To get rid of this mode of attack, I gave her a penny. This encouraged another, who exclaimed your honor's happy man, with such a beautiful lady by your side - Din't forget a poor creature with eight state. ing children.' She got her ponny an I deponed only to give place to a third, who bogan . Long life to your honor and to your honor's beautiful lady. you get home.' This one gave place to another, life to your honor's jewel of a lady. It was a lucky day she made choice of your honor, who is so good to the poor widows.' This, to use a cant phrase, was coming it too strong, and the lady exclaimed, Go away, you jade: I am not married Well, if not married already, its soon you will be, for you're too good and sweet a lady to let his ho not be breaking his heart for you.' My small coin was exhausted, and rather than stand such fire the lady gave the 'jade' a penny herself, when we were spared further annoyance by the Guard's fall right' to the coachman, the crack of whose whip dashed the hopes of half a score of other wi-

daws' who were gathering for the onset. The Loca Foco Convention in New York have elected 9 Van Buren and 4 Calhoun delegates to the State Convention. Resolutions expressing a preference for Mr. Van Buren, "drawn up ur der the eye" of Mr. B. F. Butler, ex-Attorney Gener al of the U. S., were endorsed by the convention 34 to 17-the minority protesting and giving notice of an appeal to the People. Hereupon the Plebrian, the leading Van Buren organ, discour-

Les in this wise:--.We should think that our friends would be pretty well satisfied by this time, that temporizing of no utility whatever. All the political parties f the day are combined to put down Mr. Van Buren; and eventually they will all subside in favor of Henry Clay. Let the line be drawn. WHIR VICTORY IN SAVANNAH. - An election or Alderman took place at Savannah on Monday last, and the result is thus announced in the Republican of that city :-- "Last year the whole number of votes polled, was 1,062; this year the whole number is 1.141. The highest Loco can didate had then 607 votes; this year 570. Last year the highest Whig candidate received 488 otes; and this year our highest candidate has received 596 yotes. We have thus carried in eleven of bur Allermen, while our opponents have elected but three of theirs."

The St. John New Brunswicker gives account of further outrages and riots. It is stated that on Sunday evening provious, some persons from Newcastle went over to Chatham to attend Divine service, and after they had taken their scats in the church, a mos rushed in, dragged them out, and best them severely. Some of the ringleaders in this outrage were captured, but immediately rescued and an express was sent off to Newcastle for more soldiers. These were embarked in scows, and towed down, about midnight by the steamer St. George from Prince Edward Island. On arriving at Chatham they found about 400 men, well armed with muskets, and provided with two field pieces, determined to resist to the last extremity. This was the state of affairs when the mail

LATEST PROX YUCATAN -- A gentleman arrived in the city last evening, who came passenger in the big Forest, from Sisal, informs us that about the 15th August, the Secretary of the Yucatan Commissioners arrived at Merida with terms of agreement offered by Santa Anna, which are unlerstood to be in brief as follows:

The Yucatecos are to collect their duties soording to the present form, and their general in-

terior regulations will be continued. Their troops are to aid Santa Anna in foreign war, and he will retain some Mexican troops at

Làguna. The Yucatecos had not agreed to those terms when the Forest left. It was expected a Convention or Congress of the five departments would meet in a few days, when the offer would be formally refused or accepted.

The brig Forest sailed on the 24th, and arrived

at the Balize on the 30th ult. The Captain, of the schr Wip. Penn, strived vesterday from Sisal informs he that he was at Merida on the 26th olt., be heard that but little disposition existed on the part of the Yucatan authorites, to accept the propositions made by Santa Anna. In anticipation of an early outbreak of hostilities, troops were already collected at Merida and the neighborhood, and the government was making purchases of corn and other privisions, with a view of preparing itself for the emergen-

«Ккокик, Iowa Ter. Aug. 27, 1813. "The mormons have had a great accession to heir numbers this Spring and Summer, mostly English. The City of Nauron has become the aceptacle of many thousands of poor, deluded anatics, who are deceived, ratified and oppressed by their corrupt and designing leaders, in a manner hat is truely revolting to the Christian, Patriot and Philanthropist. I regard that People as combining the elements of an explosion that will, coner or later, reduce them; as a sect or society, o a state of chaos and anarchy. There erems to be already the premonitory symptoms of a convulsion among them. Many are the spirits that hesiate not to manifest their disaffection and disloyalty their prophet and leader.

Touching Assenors .- The f llowing which we cut from the Daily Chronicle, is well worth

eprinting: "A man, who was in the habit of going to a neighbor's corn field to steal the grain, one day took his son, of about eight years ald, with him. The father told him to hold the bag, while he looked on to watch if any one were near to see him. After standing on the fonce and peoping through all the rows of corn, he returned to take he bag from the child, and tiggan his sinful work. Pather,' said the boy, you Target to look a mewhere clse. Which way child !' supposing he had seen some one. Youtforgot to look up to the sky, to see if God was noticing you.' The father felt this reproof of the child so much, that he left the corn field, and returned frome, and never again ventured to steal; remembering the truth that he had learned from the child that the eye of God ilways beholds us."
