A PARK TOP FOR THE LAND FOR THE CONTRACT OF TH

THE COAL TRADE.

The Coal season by Canal is rapidly drawing to a close- and it is fortunate for the consumers abroad, that there is a Rail Boad communication between this place and Philadelphia, during the Winter scason, in order to incure a supply of Coul. Our impression is that at the close of Canal Navigatich (onless it should keep open to on unusual period) the supply will tall short of the demand at least 100,000 tons.

"THE CREDULITY OF UNDELL F," says a well know writer, 'is sometimes as fatal as the other extreme.'
Some people are so afraid of boing deceived, that
thay will not credit selfe-evident truths. We know a
young man who was thoroughly cured of piles by the
use of JAYNE'S TONIC VERMIFFEEE, which he took under the supposition that it was a medicine compoun by the family physician! Had be known that it b longed to that class of preparations commonly know as patent medicines, he would not have touched it:-

Nay, in order to exemplify that
He who's cured against his will,
Is of the same opinion still,
he refused to acknowledge that the Vermituge had re liered him. Some time after he was attacked with dyspessia, and his physician again administered to him the same medicine. Again he got well, and thea his candor got the better of his prejudice, and he confessed the matchless sanative properties of that excel-lent remedy—Javne's Tonic Vinnifuge. it to contain a vast emount of useful and interes. ting information relative to the History, Geography, Geology, Government, Internal Improve-ment, Productions, &., &c., of our Commonwealth, admirably condensed and arranged. " No Quackery!!! No Decentern. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the discuses in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much

in its favour.
Such indeed are the SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Con-currion, after all the most exteemed remedia of physicians have failed to effect any change, the use of this medicine has been pro-ductive of the most astonishing relief, and actually effected cures after all hopes of recovery In the first stages of the disease, termed . It has also proved highly successful, and not ly possesses the power of checking the pro gress of this alarming complaint, but also strongh ens and invigorates the sy-tem more effectually than any medicine we have ever possessed.
