CONSUMPTION OF THE LUNGS, ffections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Pleurisy, Hemirrhage of the Lungs, and all offections of the Pulmonary

NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," prepared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the most valuable medicine ever discovered,

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we rish to enlogize it more than it justly deserves Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we can not urge its claims too strongly, or say too much Such indeed are the

U SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Consumerion, after all the most esteemed remedies of physicians have failed to effect any change, the use of this medicine has been pro-

ductive of the most astonishing relief, and actually effected cures after all hopes of recovery had been despaired of.
In the first stages of the disease, termed "Catarrhal Consumption," originating from neglected OOLD, it has been used with undeviating uccess, and hundreds acknowledge they owe the restoration of their health to this invaluable medicine alone. In that form of Consumption

so prevalent amongst delicate young femules, commonly termed debility, or "GOING INTO A DECLINE." complaint with which thousands are linguring, it has also proved highly successful, and not only possesses the power of checking the progress of this alarming complaint, but also strength. ens and invigorates the system more effectually than any medicine we have ever possessed. When Canton was taken, there was nothing so incensed the Chinese against the British as the summary process by which the Jack Tara deprived the Celestial exquisites of their long tails—hacking them off with their dull cullasses without saying "by your leave." The subjects of the "Brother of the San," had never heard of Jayne's Hair Tonic, and therefore their grief at the loss of their long cherished, and carefully cultivated ques, is not expressing. Had they known the extraordinary virtues of that composition and been able to pracure it, their sorrow would have, been turned into joy, for assuredly the second crop produced by its influence, would have been far finer than that of which their heads had been denided. We understand that Dr. Jayne has sent a quantity of it out to China, and we have no doubt it, will soon be in great demand, there.
