So very deep!
Can'st thou not, sir, devise some way,
Some gentle way, a southing art
To draw the sting, the pain silay,

And case the smart?"

"Oh! yes my fair, I have a way, A gentle way, a soothing art To draw the sting, the pain allay, And ease the smart !" "Ah! try it quickly, then," she cried, But fairest take it not amise,

My lips to hera I close applied And stole a kiss. "I feel the gentle, scothing art," She sighed and said, "the pains decay,

The sting is drawn, and gone the s.nart. Quite gone away;"
"Nay, say not so—the kies I steel,

But ah! 'tis only gone, I teel,

That Star is
DR. REICHTER'S VEGETABLE P. PILLS.

These pills, let all understand, cure disease by a power peculiar only to itself, which instantly cheeks the action and progress of disease, for their commencement is much alike (which is when the BLOOD AND JUICES

are so far deprayed, as to produce obstructions and sores) that one medicine, provided it be competent to produce sickness, will be all that is necessary for removing disease, and restoring HEALTH AND HAPPINESS

to mankind. Let it likewise be remembered that there is no medicine now in existence possessing equal bealing powers; and that no vegetable, or any other kind of physic can se soon restore health, when lost, even in cases the most inveterate.

The action of these pills upon the bowels, are mild; producing no griping pains or debility but on the contrary, after they have operated, you get that a load of irritating and corrupt humors base been taken from you, and the buoyant feelings of health spring up in their place; and what is another great object in these pills, they are always safe, they may be taken on all occasions, and under any circumbe taken on all occasions, and under any circum-stances, withou regard to the name of the disease, for they operate upon every part of the booy, and expel disease from whatever part it may be seated. the Power of Truth
And why, we may reasonably inquire, have they
become so endeared to the hearts of those who have
used them, and by them gained such a popularity?
Simply because their action upon the HUMAN BODY, was as the sun and rain upon vegetation, giving new life to all who partook of .its happy influence. As the health of the plant depends upon the sap which circulates through its branches, so the life and health of mankind depends upon the blood which flows through his veins. And when this vital fluid, which is most necessary to the growth and support of the

GREENFIELD, Pa., Oct., 10, 1842. Dear Sir: vou doubtless remember my calling at your establishment about two weeks since, and obtaining from you one dollar's worth of Dr. RIECH-TER'S VEGETABLE, PURGATIVE, PILIS, for one of my neighbors who requested me to procure the article for them. This being done and my own business transacted, I started for home. After travel the article for them. This being done and my own business transacted, I started for home. After travelling all day, I was taken with a sudden chill, which left me with a violent fever, head-ache, and considerable pair, throughout my whole system; with great sickness at my stomach, which so completely disenabled me that I was compelled to stop at a small Innon the road for relief and rest. Upon inquiry, they had nothing that could possibly afford me relief. While yet in miscry, for I never was so ill in all my life. I happily thought of your fpills, and resolved to open one box upon my own account and seek relief in them. I took six of them drank a warm cup of tea, and retired to bed. My pain here ceased in a measure, and I soon fell sound asseep. In the morning I awoke much better, and after the pills had operated I was quite; a different person; took another dose of four pills, remained there all Wednesday, and on Thirsday started for home as well as ever, and I still enjoy good health—the persons for whom I bought them, informs mo that they have experienced more benefit from your pills than a whole cart load of the quacks which they had fo merly used. Surely if they used them with as good an effect upon themselves as I have, they have good reason for extoling their virtues; and if you take my advice, you will persevere, go on and recommend them to all who are laboring under disease, and my word for it, they will become so popular as a general remedy that you will find it difficult in supplying the demand.
