GRAHAN'S MAGAZINE .- We have had a prep into the January number of this magazine; and Doylestown Bank Altered notes, purporting t we do aver that it is the most exquisite number in style, embellishment, and contents, that the enterprising publisher has ever yet issued. It con tains in a l five embellishments, consisting of a picture by Sartain, called "Harry,"--" The Hawking Party,"-Title page for 1814-Plate of the Fashions, and "Silverton Shakes' Adventure," which is a spirited wood cut; illustrating one of Neal's inimitable stories.

Tue Contest .-- Every information from Vashington proves that the approaching strugg'e for the Presidency has set led down between Mr Clay and Van Buren. All parties are convinced that the dittle Fox' has outwitted his compeers. and that his nomination is now certain. Calhoun's friends will withdrawn him grumb'ingly from the strife, and he of the red vest has been Jaid quietly upon the shelf. We are justified in saying that the belief over the country, among men of all parties, is that Mr. Clay's election is beyond a doubt.

There exists considerable excitement in the musical world of New York, in consequence of the rivalry between Qie Bull and Vieux Temps. They both had advertised a concert for the same night, but Mr. B. finally withdrew, and through coursesy yielded to his opponent. Vieux Temps it is said, although an exquisite and classical player, ranks below O'e Bull.

A correspondent of one of the Philadelphia pspers, in alluding to the late Locofoco meeting, held at Orwigsburg, on Monday last, describes it as 's most harmonious." This way of relating occurrences, is truly laughable, and we only wish we could argue the locos into a continual exhibition of such harmony, for we have not the slightest doubt but that the meeting referred to, made at least 150 votes for the whig cause.

Our Washington correspondent in his letter of last week, whilst speaking of Thursday's procoolings in the House, said:

"Your Representative, Mr. Bamsey, ever watchful and mindful, as he new gives carnest, of the interests of those he represents, moved this morning, the printing of three thousand copies of the President's Message in the German language. The mation lies upon the table for the present "

THE CANAL .-- We learn that the Board of Directors of the Schuylkill Navigation Co., have passed a resolution for the ealarging and deepaning of

the Canel. The resolution will be submitted to the stockholders at their meeting in January next for their ratification, when, if it is opproved of, the

enlargment will be made. A NICE Tox .- Among other pretty toys it Bonfanti's store, Broadway, New York, one is spoken of as being rather a pretty affair-the price being one thousand dollars! It is in the for n of a snuff box, which is made of fine gold, out of which, when it is wound up, jumps a

small canary bird, that sings a waltz and disappears. It is an ingenious affair. All the wheels run on diamonds.

A RELIC OF THE PEGASUS .- The Journal des Debats states, that a few days since a bottle was found on the cosst of Holland, containing a slip f paper, on which was written "Pegasus steam er, to Feru Islands, night of July 19, 1843. In great distress; struck upon hidden rocks. On
