received and justly popular work has been received and is now offdied for sale, by the subscriber. It is a work that should be in the hands of every one who is a Pennsylvanian or who wishes to become acquainted with the Geography, and the immense resources of the State.

RECOMMENDATIONS. From Hon. Charles M'Clure, Secretary of the Commonwealth and Supersktendent of Common Schools of Pennsylvania.
Secretary Commonwealth's Office,
Harrisburg, September 21, 1843.

Mr. EDWARD C. BIDDLE, Sir,—I have given a careful perusal to the Ge ography of Pennsylvania, by Charles B. Trego, Esq., which you have lately published, and find it to contain a vast renount of useful and interesting information relative to the History, Geography, Geology, Government, Internal Improvement, Productions, &. &c., of our Common-wealth, admirably condensed and arranged. As book of reference it is invaluable, and should e in the possession of every one who desires to ecome adquainted with the character and reources of Pennsylvania.

The work will also be most emmently useful is a text book, both in the Common Schools and in the Semmaries of a higher order, throughout the State. As such, I have no hesitation in recommending its adoption by the School Direc-I am very respectfully, your obedient servant, CHAS. M'CLURE

nake Insurances upon every description of property. the lowest rates. BE. Rottsville, Feb. 27, 1841

HILE remedies prescribed for the care of diseases, have correctly been divided into clas-ses according to their operation upon the human vetem. Thus we have one class which causes he stomach to eject its contents, called emetics. another inducing perspiration called dicophoret-ics and a third which evacuates the stomach and bowels, denominated cathartics, &c. Cathartics or purging medicines, have in every age and country been the favourites of the physicians for the cure of the most obstinate and alarming ma-ladies. The wonderful enecess attending this mode of treatment will readily be understood. when we reflect that the stomach and bowels have assigned to them, the important function of digestion, or the conversion of food into blood, that vital fluid intended for the growth and nourish. ent of the whole system. It follows that whenever the digestion organs become deprayed or disqualified for the healthy performance of their duty (and this occurs duily in civilized society)

It has been remarked, that whenever the stomach is not osefully employed it is always at inschief. That individual who would deny that the most formidable discuses are daily cured by the use of Pills compounded and for sale in al. nost every hamlet of our country, would certain y risk his reputation for veracity. The Pocationach, purify the blood and ren ve inflamation, and have proved eminently useful in curing bilious lever, bilious cholic, inflammation of the liver, rheumatism, dropsy, jundice, pleurisy costiveness, &c. &c. Females of sedentary hab its and subject to indigestion, flatulency, head find relief from the use of these pills. There he not a disease attended with a full pulse, a dry skin, and a coated tongue, that these pills will not relieve. The following simple narrative wills line the benefit derived from these pills in a very common disease:

Having been cured by the use of the Pocalion tas Pill of an alarming disease of the liver of exveral years standing, I deem it a duty to make my case known to the public, for the benefit of others. I had taken various remedies which at forded only temporary relief, after using two box es of these pills, my discuse vielded, and I have enjoyed good health for the last six months. WILLIAM FOLLMER
