dir Native Song. BY MISS COOK. Our native song! our native song!

Oh! where is he who loves it not? The spell it holds is deep and strong, Where'er we go, whate'er our lot. Let other music greet our ear With thrilling fire or dulcet tone; We speak to praise, we pause to hear, But yet—oh! yet—'tis not our own! The anthem chant, the ballad wild, The notes that we remember long-The theme we sung with lisping tongue

Tisthis we love our native song! he one who bears the felon's brand, with moody brow and darkened name, Thrust meanly from his father-land, To languish out a life of shame; s Oh! let him hear some simple strain— Some say his mother taught her boy— He'll feel the charm and dream again Of home, of innocence, and joy ! The sigh will burst, the drops will start, And all of virtue, buried long-The best, the purest in his heart, is wakened by his native song.

Self-exiled from our place of birth, To climes more fragrant, bright, and gay, The memory of our own fair earth May chance awhile to fade away: But should some ministrel echo fall Of chords that breathe Columbia's fame, Our souls will burn, our spirits yearn, True to the land we love and claim The high! the low! in weal or wo, Be sure there's something coldly wrong About the heart that does not glov

agara Falls we clip from chapter VIII. of "Sam Slick in England, or the Attache:" 'You remind me, Esquire, said he, of Rufus Dodge, our greatile merchant of Boston, and, as you won't walk, p'r'aps you'll talk, so I'll just tell you, the story.

I was once at the Cataract House to Niagara. It is jist a short distance above the Falls. Out of the winders you have a view of the splendid white waters, or the rapids of foam. afore the river takes its everlastin leap over the cliff.

Well, Rufus came all the way from Boston to see the Falls; he said he didn't care much about them hisself, seein' that he warn't in the mill business; but as he was going to England, he didn't like to say he hadn't been there, especially as all the English knowed about America was, that there was a great big waterfall called Niagara, an everlastin' big river called Mississippi, and a parfect Sherman's Worm Lozengers picture of a wappin', almighty big man called Kentuckian there. Both t'other ones he'd seen over and over agin, but Niagara he'd never sot his Peter's Vegetuble Pills

Numerous cases of cures, and many of them very remarkable—by the use of "Scarpe's Oil," have been published, but this "caps the climax." Young or old may yet recover hearing. A lady in Smithfield, Pennsylvania and now about 80 years of age, had been gradually getting deaf for more than 40 years, so that it was next to impossible to make her hear conversation in the loudest tones of voice; Last winter she was induced to try "Scarpa's Oil for Deafness." Organic NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," prepared by a new-chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the nost valuable medicine ever discovered. No Qudckery!!! No Deception.

In setting forth the virtues of this truly great medicine, we have no desire to decrive those who are labouring under offliction, for do we wish to culogize it more than it justly deserves. Yet when we look around and see the vast a mount of suffering, and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we can not urge its claims too strongly, or say too much Such indeed are the

SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Consumerion, after all the most estermed remedies of characteristics have failed to affect any cuange, the use of this medicine has been areductive of the most astonishing relief, and actually effected cures after all hopes of recovery had been despaired of.
In the first stages of the disease, termed "Ca tarrhal Consumption," originating from neglected COLD, it has been used with undeviating success, and hundred acknowledge they owe

the restoration of their health to this invaluable medicine alone. In that form of Consumption so prevalent amongst delicate young females monly termed debility, or "GOING INTO A DECLINE." complaint with which thousands are lingering, it has also proved highly successful, and no only possesses the power of checking the progress of this alarming complaint, but also strengh

Facts for the People! THE constantly increasing popularity and sale of B. A Fahnestock's Vermituge has induced persons who are envious of its success to palm off upon the public preparations which all medical men know to be inclinations in expel-

ling worms from the system.

This Verminge has made he way into public favour upon the ground of its own intrinsic merits, more than any other mediane of the kine now used; and while many worm remedies have, by dint of puffing, been forced into sale, and shortly after gone into the obscarity which their worthlessness justly merced, B. A. Fahnestock's Vermituge continues to be triumphantly sustained. It has only to be used and its effects willfully sustain all that is said of its wonderful expelling power.

Certificate.

Wales, Erie Co., New Y., Jan. 7, 1843. We certify that we have used B. A. Fahnes tock's Vermisuge in our sumilies, and in every case it has proved a decided and effectual remedy for expelling worms from the system We cor-dially recommend it to parents who have children afflicted with that dangerous malady. THE POCAHONTAS, OR INDIAN

VEGETABLE PILLS.

HAILE remedies prescribed for the cure of diseases, have correctly been divided into class ses according to their operation upon the human system. Thus we have one class which causes the stomach to eject its contents, called emetics, another inducing perspiration called dicaphoret-ies and a third which evacuated the stomach and howels, denonificated eatharties, &c. Cathart ties or parging medicines, have inserty age and country been the favourites of the shysicians for the cure of the most obstitute and alarming maladies. The wonderful specess ditending this mode of treatment will readily the understood when we reflect that the stomacle and bowels have assigned to them, the important function of divital fluid intended for the growiff and nourish. ment of the whole system, It tolking that whenever the digestion organs become depraved or disqualified for the healthy perfectionnee of their duty (and this occurs daily in civilized secrety) impure blood, and consequently discore are the

It has been remarked, that whenever the stomuch is not usefully employed it is always at mischief.
