Good morrow to the dappled skies; Good morrow to the lake; Good morrow to the melodies The praiseful torrents make! The river blue-the water-fall-The small brook on the lea; Good morrow to them, one and all-The beautiful—the free!

THE REASON WHY .- The editor of the Whig Standard, a most spirited and effective sheet published at Washington City, relates the following anecdote. He says:-"After the election of 1840 a number of Locofocos were carnestly engaged discussing the reason why the Whigs had beaten them so badly in the preceding election. One insisted that it was because the people were such fools that they had all their senses taken away by the koon skin mummeries. Another declared it was not that so much as the bribery of Under 12 years of age thousands of voters by the banks and foreigners, whilst a third asserted that the people had gone mad, and had got drunk upon the excitement and hard cider.

"What do you think it was, uncle Josh," said the first one, turning to a little humpbacked, gimlet-eved, frosty headed old man, who was sitting cross-legged by the fire, furiously chewing his quid of tobacco, and who seemed to be the Sir Oracle of the coterie.

"You don't know anything about it," said the gimlet eyed man, striking his stick furiously against the floor. "It was them all fired songs what did the business. I tell you it was enough to run anybody crazy to listen to them songs, when a pretty girl was singing them. And," continued the old man, jumping up, and giving his stick an emphatic thump against the dog-iron, "I will never vote for any man for President whose name won't rhyme in poetry. It's no wonder Mr. Van Buren was beat, for his name wouldn't rhyme to anything but ruin."

SOMETHING CURIOUS .- A correspondent the Charleston Courier furnishes that paper with the following:-

Some few weeks since while Dr. F. (our re spectable Senator in the State Legislature from St. Luke's,) in having an avenue made to his residence, the workmen while digging out a pine by the tap root, struck upon a hard substance which resisted their tools. Upon a subsequent examination it was found to be a CLAY COFFIN. containing the human bones of a small grown person. It is to be regretted that the negroes broke into the coffin, as it probably could have been taken out whole, and presented as a remarkable curiosity, much more so than in its present defaced condition. It is of course a difficult matter to speculate upon, as to what tribe the deceased belonged, but it is a reasonable supposition to class it as an indian relic. Yet the Indians buried their dead after a different fashion. At the village of Bluiton, but a few miles distant from where the coffin was found, are to be seen several Indian graves in mounds. One or two of these have been excavated-a quantity of oyster shells have been removed from their low but substantial monuments and reared into much taller and more useful ones, to cheer and gratify the inmates around the cheerful blazing fireside. These graves consist of alternate layers of earth and oyster shells, and on a level with the surface of the land are deposited the corpse. The bones soon crumble after exposure. But many of them are very distinct. From the size of the jaw teeth, we should judge the race to have been remarkably large.

Water Will You Do !- One or two things must be done in this country. Parents must expend money to educate their children, or they must pay taxes to build penitentiaries and to punish crime. There is a great mistake about what is called education. Some suppose that ev. ery learned man is an educated man. No such thing. That man is educated, who knows himself, and who takes accurate common sense views of men and things around him. Some very learned men are the greatest fools in the world; the reason is, they are not educated men. Learning is only the end, its value consists of giving the means of acquiring, in the discipline which when properly managed, it gives the mind. Some of the greatest men in the world were not oversock- stand, in Centre st., next door to Gen. H. Stich. ed with learning, but their actions proved they were thoroughly educated. Washington, Franklin, were of this class; and similar, though less striking instances may now be found in all countries. To be educated, a man must be able to think, reason, compare and decide accurately.-He may study metaphysics till he is gray, and languages till he is a walking polyglot, and if he is nothing more, he is an uncducated man.-There is no class in the country who have a stronger interest in the proper education of children than farmers: and the subject should receive from them the attention it deserves.

STRANGE STORY .- We find the following rather strange story in the National.-The Duke de L-, wishing to proceed, some days back to one of his estates in Normandy, was persuaded to go by the Paris and Rouen Railroad. He had his carriage placed on a wagon, and remained in it with a servant. He soon fell fast asleep, but as everything must have an end, he at last awoke, and was surprised to find himself in the dark. He thought it was the effect of his drowsiness, and rubbed his eyes. He then put his head out of the window to ask his servant the explanation of this state of things, but the valet knew no more than his master, and it was not for some time that they perceived that the wagon having been detached from the train, they had been left under the tunnel of Rolleboise. The danger was imminent. for another train was soon to arrive in the subterraneous road, and would crush the unfortunate earriage. They called out, hoping to be heard and succored, but no person came. To add to their misfortune, they soon heard a locomotive coming up. The position was dangerous, and the Duke thought his last hour was at hand, when the machine, stopping at some distance, the conductor announced to the travellers that he had received orders to take them to the end of their journey, which they finished without accident, but not without emotion.

The learned and caustic Bishop Warburton once said-"It is wrong to define man to be a reaconing animal; all we can predicate of him is, that he is an animal capable of reasoning.

The second of

## YOUNG LADIES? **Boarding and Day School.** READING PA.

HE duties of this Institution commenced on Wednesday, the 8th inst. at the house, cor-ner of 5th and Walnut streets. Reading being proverbial for health and como details concerning the advantages of its loca-

The purpose of the Principal is to establish a chool in which a finished education can be obtained.—By the ample means of this seminary, the young ladies entrusted to the care of the subscriber and his accomplished Preceptress, will Jayne's Hair Tonic. receive such instruction, as to comprise a thorough English education, together with useful and ornamental branches.

Education embraces not only intellectual cul-

ture, but moral and religious also; therefore the Principal will endeavor to elevate and expand he mind, and at the same time refine the heart requiring of the ladies under his direction easy and polished manners. In order to establish a wholesome discipline,

the school will be divided into two departments, Terms for Boarders: Young ladies above 12 years of age

will pay for the term of 46 weeks,

8200 This sum entitles the young ladies to board, and all the branches taught in the school, to-gether with bed, bedding, fuel and light—except drawing and painting, Italian and Spanish lan. guages, and use of the Piano, for which they will

have to hav extra. Terms for Day Scholars: Senior Classes, per quarter, French. per quarter, Snanish. Drawing and painting, Fuel for the whole year, Extra classes for young Ladies, who may desire to learn any of the above languages, Drawing and painting, There will be evening classes for young get

lemen and boye. For further particulars apply it the house of the subscriber. G. PERSICO. December, 2,

## NO HUMBUG. LIGHT AT HALF PRICE.

THE general introduction of Neal's Patent Lard Lump, for burning common Lard, will be a saving in the item of light, of at least 50 per cent, in this community, and the immense sum of money which is annually drained from Schuyl-kill county, will be retained in a great measure at home, and circul among our farmers in the neighborhood, for lard. This is certainly great desideratur.

great desideratum.

The following are voluntary certificates, given by citizens of this Borough, in favor of the Lamps, who have had them in use: Portsville, November 27th 1843. Mr. Bannan:—We have tried Neal's Patent Lard Lamp, and find that it gives a much bet tor light than with the use of Sperm Oil, and gives quite as much light as two candles. It is

entirely free from any unpleasant smell-the smoke, what little there is, soils nothing, and it s a saving of about 50 per cent. over the use of the best Sperin Oil, at the present prices. The on Lard, as it comes from the Butchers, is used in these Lamps. CHARLES LAWTON.

JOHN G. MARTIN. DANIEL H. LEIB. Mount Carson, November 24th, 1843. Mr. Bannan:- i have used Neal's Patent superior to any Lamp. I have ever used. With Lard it gives a much better light than with oil, is a very great saving, and is free from all unpleasant amell. I find also that I can burn the most common 50 cent oil, mixed with half Lard for winter use, which gives a much brighter light than the best Sperm Oil, and is as free from that unpleasant s rell, which renders Lamps disagree able, as the best sperm oil is, at half the price.

JOSEPH ALLEN.

We may here remark that if any person be comes tired of using Lard, or if the price should approach to near the price of Oil, he has a much better Oil Lamp than any now in use, unless it is the Diacon Lamp, which costs a very high price. With one of these Lamps the wick can be constantly supplied with Oil, by a very sim

CONSUMPTION OF THE LUNGS, fections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Pleurisy, Hemerrhage of the Lungs, and all affections of the Pulmonary

NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," propared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the II cts most valuable medicine ever discovered. No Quackery!!! No Deception.

In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to sulogize it more than it justly deserves Yet when we look around and see the vast a mount of suffering and distress occasioned many of the diseases in which this medicine has proved so highly successful, we feel that we canot urge its claims too strongly, or say too much n its favour-

Such indeed are the SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Consumerion, after all the most exteemed remdies of physicians have failed to effect any change, the use of this medicine has been productive of the most asionishing relief, and actually effected cures after all hopes of recovery

had been despaired of.
In the first stages of the disease, termed " Catarrhal Consumption," originating from neglected OOLD, it has been used with undeviating success, and hundreds acknowledge they owe the restoration of their health to this invaluable medicine alone. In that torm of Consumption so prevalent amongst delicate young females, commonly termed debility, or

"GOING INTO A DECLINE," A complaint with which thousands are linger ing, it has also proved highly successful, and no only possesses the power of checking the progress of this alarming complaint, but also strength ens and invigorates the system more effectually than any medicine we have ever possessed. EFFor particulars see Dr. Wistar's Treatise

on Consumption, to be had of the agents. Sold in Pottsville by JOHN S. C. MARTIN. In Reading by Mrs. SARAH-MORRIS; and every town in the State.

A SURE REMEDY FOR WORMS.

Facts for the People! HE constantly increasing popularity and sale of B. A Fahnestock's Vermifuge has induced persons who are envious of its success to palm off upon the public preparations which all nedical men know to be inefficacious in expelling worms from the system. This Vermifuge has made its way into public fayour upon the ground of its own intrinsi-

merits, more than any other medicine of the kind now used; and while many worm remedies have, by dint of puffing, been forced into sale and shortly after gone into the obscurity which their worthlessness justly meried, B. A. Falinestock's Vermifuge continues to be triumphant-ly sustained. It has only to be used and its effects will fully sustain all that is said of its wonderful expelling power.

Certificate. Wales, Erie Co., New Y., Jan. 7, 1843. We certify that we have used B. A. Fahnestock's Vermifuge in our families, and in every case it has proved a decided and effectual remed for expelling worms from the system. We cor dially recommend it to parents who have chil dren afflicted with that dangerous malady.

BENJAMIN BANNAN

Pottaville, Feb. 27, 1841

THE POCAHONTAS, OR INDIAN YEGETABLE PILLS.

THE remedies prescribed for the cure of diseases, have correctly been divided into classes according to their operation upon the human system. Thus we have one class which causes the stomach to eject its contents, called emetics, another inducing perspiration called dicophoretics and a third which evacuates the atomach and bowels, denominated cathartics, &c. Cathartics or purging medicines, have in every age and country been the favourites of the physicians for the cute of the most obstinate and alarming maadies. The wonderful success attending this mode of treatment will readily be understood when we reflect that the stomach and bowels have assigned to them, the important function of digestion, or the conversion of food into blood, that vital fluid intended for the growth and nourish. ment of the whole system. It follows that whenever the digestion organs become deproved or disqualified for the healthy performance of their duty ( and this occurs daily in civilized society ) impure blood, and consequently disease are the

It has been remarked, that whenever the siomach is not osciully employed it is always at mischief. That individual who would dopy that the most formidable diseases are daily cured by the use of Pills compounded and for sofe in almost every hamlevol our country, would gertainly risk his reputation for veracity. The Pocatomach, parify the ploud and rer vegliffamation, and have proved eminently usolul in curing bilious lever, bilious cholic, inflammation of the liver, rheumatism, dropsy, jaundice, plearisy, costiveness, &c. &c. Females of sedentity hab its and subject to infligration, flatdlengts, head-ache, depression of spirits and uncasiness, will find relief from the use of these pill. There is not a disease attended with a full pulse, a dry skin, and a coated tongue, that these pills wil not relieve. The following simple narrative will show the benefit derived from these pills in a very common disease :

CERTIFICATE. Having been cured by the use of the Pecalinn. tas Pill of an alarming disease of the liver of several years standing, I deem it a duty to make my case known to the public, for the benefit of others. I had taken various remedies which afterded only temporary relief, after using two boxes of these pills, my disease vielded, and I have enjoyed good health for the last six minita.

WILLIAM FOLLMER. Milton, April 22, 1843,
Agents for the sale of the above. W. T. Epting, Pottsville, George Relferyder, New Castle, Steiner & Kopp, Schuylkill Haven, Hugh Kinsley, Port Carbon, Schualm & Hesser, Orwigsburg. Throughout the state a supply can always be had of Fred Klett & co. Druggists, corner of 2d and Callowhili streety, Phila-

4 April 29.

PURE WHITE LEAD ETHERILL & BROTHER, menufactu phia, have now a good supply of their warranted pure whiet lead, and those customers who have been sparingly supplied in consequence of a run on the article, shall now have their orders

No known subsance possesses those preservative and beautifying properties so desirable in a paint, to an equal exent with unadulterated white lead; hence any admixture of other materiils only mars its value. It has therefore been he steady aim of the manufacturefrator many years, to supply to the public a perfectly pure white lead; and the unceasing demand for the article is proof that it has met wih favor. It is invariably branded on one head--WETHERILL. & BROTHER, in full, and on the other, WAR-RANTED PURE—all in red letters.
