WIT USEFUL TO A COMMANDER. La Fayette had a quarrel with a battallion of the National Guard on the subject of a drill, they considered the manual exercise as an infringement of the Rights of Man. The General being of a different opinion, a deputation of Corporals, for any thing higher would look too aristocratic, waited on him at the quarters of his Staff, in the Place Vendome, to demand his immediate resignation. On further inquiry, he ascertained that all the battallions amounting to thirty thousand men, were precisely of the same sentiments. Next morning happened to have been appointed for a general review of the National Guard. La Fayette appeared on the to demand his innediate resignation. On furthe National Guald. La Fayette appeared on the ground as Commandant at the head of his Staff, and galloping along the line, suddenly alighted from his horse, and taking a musket on his shoulder, to the ulter astonishment of every body, he walked directly into the centre of the line, and took post in the ranks! Of course all the field officers flew to know the reason. 'Gentlemen,' said he, I am tired of receiving orders as Commanderin-Chief, and that I may give them, I have become a Private as you see.'

Private as you see.'
The announcement was received with a shout of merriment, and as in France, a pleasantry would privilege a man to set fire to a church, the General was cheered on all sides, was remounted, and the citizen army proceeded to march and manœuvre according to the drill .- Memoirs of a Statesman, in Blackwood.

THE BEST YET .- An old gentleman (who attended more to teaching his son the method of accumulating riches than knowledge) lived some time sin ie in the Eastern States. From application and industry, he had amassed property of about twenty thousand dollars. Aithough not able ON and after Monday next June 26th, 1843 to write, he never had a clerk, but always had the following rates of Freight between Reading been in the habit of keeping his own books. He and the points below stated, per ton of 2000 lbs. had invented some new characters for the purpose of conveying his ideas to himself and others; theywere formed as nearly similar to the articles sold as the nature of the circumstances would admit.-One day a customer of his called for the purpose of settling his account; the hieroglyphics were handed down, and our merchant commenced withtime you had a gallon of rum, and a nound of tea; such a time a gallon of molassos, and such a time a cheese.'

'Stop here,' said the customer, I never had a cheese.

You certainly must have had it, said the mer chant, 'it is down in my book.' -

The other denied every article of that kind .-After a sufficient number of pros and cons, upon recollection, he informed him that he had purchased a grindstone about the time. "Tis the very thing, said the merchant, and I

must have forgotten to put the hole in the middle!

COLLEAGUES .- A curious illustration of the severance of friendship and society in this vast maze, London, was exhibited a few days since at one of the metropolitan police-courts. Most persons are aware that the magistrates of these courts relieve each other by taking it week about, or three days in the week each. One day last week, The American in Paris, by Jules Janin, a magistrate of the cemi-hobdomadal regulation, The Tory Guard, French without a Master, turning to the chief clerk; asked, how is Mr. | German ," meaning his fellow-magistrate. The clerk | Spanish replied that he was very well; upon which the magistrate added, I am glad to hear it, as I have Thaddeus of Warsaw, not seen him, I think, these three years. ( It seems very old that two persons acting as alternate judges week after week in the same courd should pass three years of their lives without contiguity, Ladies' Companion, contact, or communion; but such is London. | Ladies' Nat'l Magazine Here are two men who pass a great portion of their Ladies' Nusical Library for Jan. lives presiding in the same court, occupying the Kohl's Austria, &c. same bench, fulfilling the same function, minis- Ladies's Hand Book of the Toilette tered to by the same officers, surrounded by the Etiquette for Ladies' same familiar faces, and yet three years clapse -without even a chance recontre between them --Yet they are colleagues!

A new organ has been erected in the Weslyan Chapel, Mulberry street, in this city. It is from the manufactory of Mr. Henry Erben, and contains twelve stops, and nearly five hundred pipes. It is 15 feet high, 10 feet wide, and 7 feet deep .-Its tone is uncommonly rich and mellow, and suf- M'Cullough, No. 8, ficiently powerful for the size of the Church.-This is the second organ erected in a Methodist Church in this city. We rejoice to see the good taste which seems to prevail in relation to Church music. The organ it must be allowed on all hands, contributes more to the solemnity of religious exercises than any other, or in fact all other instruments of music put together. Its deep toned swelling melody carries with it a feeling of devotion which nothing else can supply.—N. Y. Com

RED RIVER .- The Southern Transcript of the 27th ult. says:

We learn by a gentleman who arrived yester day on the Republic, that the small point of land which has heretofore kept Red River, from opening a passage to the gulf through the Atchafalaya, has been cut away by the proprietor of the land. and the outlet to the Mississippi will be closed in less than three weeks. We have no room to-day to comment upon the atrocity of this act. We hope prompt measures will be taken to publish the miscreant who could be guilty of it."

John .- I see by the papers, aunt, that Mr. Carrington's 'gin' has been destroyed by fire in Lou-

AUNT POLLY .- Well, I'm dreadful glad of it : now I hope your father's brandy 'Il be destroyed prices. by fire or something else.

NATURE'S OWN PRESCRIPTION. A compound Balsamic preparation of the Prunus Virginiana or "Wild Cherry Bark," prepared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowleged the most valuable medicine ever discovered.

No Quackery!!! No Deception. In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are labouring under affliction, nor do we wish to eulogize it more than it justly deserves. Yet when we look around and see the vast ameant of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much Such indeed are the

SURPRISING VIRTUES Of this Balsam, that even in the advanced stages of Consumption, after all the most esteemed remedies of physicians have failed to effect any change, the use of this medicine has been productive of the most astonishing relief, and actually effected cures after all hopes of recovery.

Facts for the People!

THE constantly mercashing popularity and sale of B. A Fahnestock's Vermitings has induced persons who are envious of its success th palm of upon the public preparations which all medical men know to be inefficacious in expelling worms from the system.

This Verminge has made its way into publie favour upon the ground of its own intrinsic merits, more than any other medicine of the kind now used; and while many worm remedies have, by dint of puffing, been forced into sale, and shortly after gone it to the obscurity which their Worthlessness justly merited, B. A. Fah. nestick's Vermilinge continues to be triumphant ly sustained. It has only to be used and its affects will fully sustain all that is said of its won-

derful expelling power.

Certificale. Wales, Erie Co., New Y., Jan. 7, 1843. We certify that we have used B. A. Fahnes tock's Vermifuge in our families, and in every case it has proved a decided and effectual remedy for expelling worms from the system. We cor dially recommend it to parents who have children afflicted with that dangerous malady.

THE POCAHONTAS, OR INDIAN VEGETABLE PILLS.

HAIIE remedies prescribed for the cure of discases, have correctly been divided into classee according to their operation upon the hugian vetem. Thus we have one class which cabics he stomach to eject its contents, called emotics, another inducing perspiration called dicountrel-ies and a third which evacuates the stemach and bowels, denominated cathartics, &c. Cathartics or purging medicines, have in every age and country been the favourites of the physicians for the cure of the most obstitute and alarming ma-ladies. The wonderful success attending this mode of treatment will readily be underglood when we reflect that the stemach and bowels have assigned to them, the important function of di-gestion, or the conversion of food into blood; that vital fluid intended for the growth and nourish. ment of the whole system. It follows that whenever the digestion organs become depraced or

inpure blood, and consequently disease ate the It has been remarked, that whenever the stomuch is not osefully employed it is always at mischief. That individual who would den that the most formidable diseases are daily cured by the use of Pills compounded and for most every hamlet of our country, would chifainly risk his reputation for veracity. The Pocahontas, or Indian Vegetable Pills cleaned the stemach, purify the blood and sens ve inflamation, and have proved eminently useful in enring billous fever, bilious cholie, inflammation of the liver, rheumatism, dropsy, jundice, olemisy, costiveness, &c. &c. Females of sedentary hab its and subject to indigestion, flatulency fligad-ache, depression of spirits and uncasiness will find relief from the use of these pills. There is not a disease attended with a full pulse and ry skin, and a coated tongue, that these piliswill a not relieve.
