And merrily, merrily etill sang she—

POPPING THE QUESTION.

Though it is impossible to say anything very much to the purpose about refusals generally, a little-tact and observation will always tell you whether the girl who refuses you would have been worth having had she accepted. I am speaking of verbal communications only, as nobody ever writes who can speak. It is usual in all cases of refusal for the lady to say she is deeply grateful for the honor you have done her; but feeling only friendship for you, she regrets she cannot accept your proposal, &c., I have heard the words so often that I know them by heart. The words, however varied, signify little,-it is the manner in which they are pronounced that must guide you in forming your estimate of the cruelone. If they are pronounced with evident marks of sorrow instead of triumph, showing unfeigned regret at having caused pain which she cannot alleviate-, if her voice is soft and tremulous-her eye dimmed with a half formed tear, which it requires an effort to subdue-then, I say, you may share in her serrow, for you probably have lost a prize worth gaining; but though you grieve, you may also hope, if you are a man of any pretension, for there is evidently good feeling to build upon. Do not therefore, fly out and make an idiot of yourself on receiving your refusal, submit to it with a good grace; selicit a continuation of friendship to support you under the heart crushing affliction you have sustained. Take her hand at parting, kiss, it requently but quietly; no outre conduct of any 'kind-jest a little at the expense of your own' failure, without attempting, however to deprive ther of the victory. Rise in her estimation by the manner in which you receive her sentence,-let her sorrow be mingled with admiration, and there is no knowing how soon things will change.-These instructions you will perceive, are not intended for every one, as they require skill, and quickness, and feeling, in order to be appreciated and acted upon. If you want these qualities, just make love purse in hand; it is a safe "-mode of proceeding, and will answer admirably with all ranks, from Almacks to the Borough. There is only one class with whom it will not succeed, and that is the very class worth having. summoners and the writ.

If on the other hand, the lady refuses you in a ready made and well delivered speech which had . If on the other hand, the lady refuses you in a evidently been prepared and kept waiting for you,

OLE BULL-ISM IN MOBILE .- On the upper part of Dauphin street strange music was heard on Friday night about twelve o'clock. The watch attracted by curiosity, went towards the place whence the inclody seemed to proceed, and there found an aged negro thrumming on a banjo twice as old, and out of all manner of tune. He stood without hat, coat or shoes, with his head thrown back, and his eyes in a 'fine frenzy rolling.' 'Old Dan Tucker' was the tune he was attempting to

What are you about, here!' again exclaimed the guardian of the night. Beut !-. What am dis child bout ?' Yes; that's the question,' replied one of the watch, who felt the inspiring influence of the scene, and quoted Shakspeare involuntarily. . A HEART !- What a curious thing a heart is ain't it, young lady? There is as much difference in hearts as in faces. A woman's heart is a sacred thing, and full of purity. How pround a man ought to be, to have it placed in his keeping-to have a pretty girl to love him so well that she will give it to him, and tell him that she loved him more than any other. Isn't it curious, ladies ? We might say of a heart, as the old weman did of the first rabbit she ever saw-' La, how very funny , it is ! '- Knickerbocker.

OF a superior quality, manufactured in Fhiladelphia or New York, by D. K. MINOR, may be had of JOSIAHTATUM, at the Office of the FARMER'S CAMINOR, at the Manufactory, near the North East corner of the Eastern Penitentiary, Philadelphia; or of D. K. MINOR, 23 Chambers St. New York.

Those who have used Poudrette in large quantities for several years in succession, consider it decidedly the cheapest fertilizer they can purchase, where they have to transport manure to any distance. A barrel of four bushels is estimated equal to fifty to skyty bushels of good yard manure. One farmer on Long Island who had used over 100 barrels a year, since 1828, purchased 150 barrels for his own use in 1813; and one of his neighbors used in 1843, seven hundred bushels. It can be applied as easily as plaster or salt. Present price \$1.75 for a SINGLE BARRELS, 85 for THREE BARRELS, or \$15 for TEN BARRELS.

C-Letters containing the money, including porterage, addressed to JOSIAH TATUM, or WM. E. CONK-LING, Philadelphia; or to D. K. MINER, New York; will be as promptly and carefully attended to, as if the applicant was present.

INDIAN VEGETABLE ELIXER & LINIMENT.—A cure for Rheumatic affections. This article penetrates to every nerve and sinew of the person using it, and it has attained a replitation unequalled by any other article in Rheumatism. This will cure the most severe cases—extend contracted mustles, and bring feeling and sensibility to limbs long paralyzed and useless. We only need refer to some cases below to obtain the confidence of the public for these articles.

The following are two respectable, and the gentlemen tob well known to require comment. Let them be read. I have been afflicted mant grievously since 1823 with Rheumatism and contraction of the cords of my lees, caused by the cramps of the cholera, which I then had in its most severe form. After trying many remedies in vain, I have found relief—had the cords of my lees relaxed—the swelling refluced—intia angreatly benefited by the use of one bottle of Liniment, used internally and one bottle of Indian (Pegetable Elixir, used internally at the same time. I can now walk with ease in positions that I could not alweek ago endure at all.

This remely reaches and soothes the nerves, and aliays pains most effectually on its first application, and by a few repetitions yemores more effectually and speedily Rheumatic pains, than any other application was ever known to do. Its effects are powerful and immediate. Let those afflicted try lit but once, and they must be convinced.

The patrons of the above excellent Pills, will therefore be lon their guard against every kind of imposition, and remember the only genuine Agenta in Potsiville, are Messis. T. & J. Beatty.

Thus we have one class which causes the stamach to eject its contents, called emetics another inducing perspiration called decemberet ics and a third which evacuates the stomaci and bowels, denominated cathartics &c. Cathar ties or purging medicines, have in every age and country been the favourites of the physicians for the cure of the most obstinate and alarming maladies. The wonderful endcess attending this mode of treatment will readily be understood when we reflect that the stomach and bowels have assigned to them, the important function of digestion, or the conversion of food into blood, that vital fluid intended for the growth and nourish ment of the whole system. It follows that when-ever the digestion organs become deprayed or disqualified for the healthy performance of their duty (and this occurs daily in civilized society.) impure blood, and consequently disease are the
