The victor, rising into man,
Extends his mercy to the foe.

See brave DECATUR proudly ride Triumphant o'er the briny flood, Bia country's boast, his country's pride, With firm undaunted courage stood. For HARRISON, with martial mien, Leads on his legions to the fight; The skutking savage flies the scene, The trembling Britons shuns the fight.

Hark ! where the savinge yell is heard ; Now gallant hearis their dens assail, Brave BUTLER, rushes to h' charge, And MARKLE sweeps them thro' the vale, "Not these alone demand the song:
Our gallant seaman, one and all
Brave JONES and PORTER, join the throng,
And nobly rise at FREEDOM's call."

GREAT GUNS .-- A writer in the Baltimore Patriot, says that the big gun which exploded on board the Princeton, cost the U. S. Government 11.000. The same correspondent says the second great gun, the 'Oregon, split while discharging in New York, and that bands of iron were welded around her, notwithstanding she does not now hold water, which if poured into her muzzle, cozes out on the deck-Captain Stockton being of opinion that wrought iron will not burst; where as the first and only steambout boiler that explotled on board the Chesapcake was the the, whose boiler heads were wrought, and flew into fragments, while the cast iron boiler itself remained in tact."

VAN BURESISM'IN NORTH CAROLINA .- Van Burenism is below par in North Carolina. The Richmond Whig says- Walter F. Leake, Esq., of North Carolina; a strong 'Democrat,' and represented to be a man of talents, was nominated lately, as a Delegate to the Baltimore Convention. He replied, by addressing a letter to the Chairman of the Committee, in which he declined the honor and after stating the organization of the Convention in strong terms, concluded by saying in reference to it, " If this be Democracy, I am no Dimocrat.".

We believe a large majority of the independen voters of this country, who favored the pretension of Mr. Calhoun, will be found to agree precisely with Mr. Leake.

MARRIAGE EXTRIORDINARY .-- An odd sort of relationship was lately formed by a pair of nuptials extraordinary in Camden, North Carolina. A widower, who was not very young, became smitten by a beautiful girl, and married her. A short time after, the son of this man by a former wife, became also in love, not with a younger person, but with the mother of the fathers new wife, a widow lady still in the bloom of life. He offered himself, and soon the young man and the wido w were united in the bonds of matrimony; so that in consequence of these two connections a father became the son-in-law of his own son, and the wife not only the daughter-in-law of her own sonin-law, but still more the mother-in-law of her own mother, who is herself, the daughter-in-law of her own daughter, while the husband of the latter is the father-in-law of his mother-in-law, and father-in-law of his own father.

selves to study it out. GREEN PEAS IN WINTER .- The editor of the Maine Cultivator, says he saw not long since green peas as succulent to all appearance as they were when plucked from the vine, some five or six months before." The mode of preparing them, is to pick when of the proper size for eating, shell | Lard Lamp, for about four months, and find it and carefully dry on cloths in the shade. All the cere necessary, is to prevent their molding; this done, they will be fine and sweet. Beans may be preserved in the same way, and with perfect suc-

cess. If in addition, a stock of green corn is secured at the proper time, as it may easily be, by sealding on the cob when fit for roasting or boiling, and then cutting or shelling the corn from the cob, and carefully drying in the sun, green peas, or beans, or our favorite succatosh, may be had the whole year. Those who have never tried it, may be assured that a dish of the latter, in Jannary or March, is a luxury.

MURDER .-- A Miss Demoss was found murdered on the 15th ult. near Minden, in Clairborne parish, La. It appears she left the house of s neighbor, on the evening previous, to return to the house of her father, a respectable planter, but not arriving, a search was instituted. A young man prices. Apply to named Lambert, was met in the woods, by the searching party, and upon their proposing to go up a certain branch, he stated that it was of no use as he had been there hunting, They did go however, and found her dead. She had been violated, severely beaten, and her head held under the water to finish the work of death. Some other circumstances have excited suspicion of Lam. bert, but there was no positive evidence to fasten the crime upon him.

Love and Lightning. A lady, who her love had rold, Ask'd if a reason could be told Why wedding rings were made of gold? I yeatured thus to instruct her:
Love, ma'am, and lightning are the same —
On earth they glance, from Heaven they came:
Love is the soul's electric flame And GOLD its best conductor.

An Ourpounting.-A love-sick swain, in order more fully to ascertain the mind of his fladyelove, closes a letter with the following verse: If you was a dog, and I was a hog, A rootin' away in the yard;

If the old man should say, drive that hog away, Would you worry or bite very hard? A sentiment so sublime, deserves an answer, and we venture to suppose that the lady said in

A rich joke was played off on a clergyman up town, two or three-Sundays since. Just as he was about to pray, the sexton handed him a note which as it was written in the usual manner, he read aloud. 'The prayers of the congregation are requested for a young man gone to sea-his sweetheart." The worshippers were astonished, the minister indignant.—Pittsburg Gazette.

TNDIAN VEGETABLE ELIXER & LINIMENT—A cure for Rheumatic affections. This article penetrates to every nerve and sinew of the person using it, and it has attained a reputation, unequalled by any other article in Rheumatism. This will cure the most severe cases—extend contracted muscles, and bring feeling and sensibility to limbs long paralyzed and useless. We only need refer to some cases below to obtain the confidence of the public for these articles.

The following are two respectably, and the gentlemen to well known to require comment. Let them be read. I have been a clicted most grievorsty since 1823 with Rheumatism and contraction of the cords of my legs, caused by the cramps of the cholera, which I then had in its most severe form. After trying many remedies in vain, I have found reliof—had the cords of my legs, relaxed—the swelling reduced—and amigreatly benefited by the use of one bottle of Liniment, used externally and one bottle of Indian Vegetable filiar, used internally at the same time. I can now with with case in positions that I could not a week ago endure at all.

14MES G. REYNOLDS.

Though this was given more than a year since, Mr. Reynolds, was a few days ago at the office, where this remedy was obtained in full health and perfect possession of his legs and feet, and shoulth over sixty years old, stood-up on his toes repeatedly to show the spectator's how complete he was cured. This remedy reaches and soothes the nerves, and alloys pains most effectually on its first application, and by a few repetitions removes more effectually and speedly Rheumatic prains, than any other application lwas eyer known to do. Its effects are powerful and immedially. Let those afflicted try it but once, and they must be convinced.

The Liniment is much counterfeited as to external looks, and the only test of genuiness is to flud the fac simile signature of Comstock & Cb. If that cannot be found, it is counterfeite. Buy only at Comsto
